List of Variables XXI

List of Abbreviations XXIII

I Introduction 1

II The Framework for Reinsurance Broker Activity 7

1 The Concept of Reinsurance: Means of
Risk Transfer, Pricing, and Market Cycles 7

1.1 Preliminary Remarks 7

1.2 Definition of Reinsurance 8

1.3 Forms of Reinsurance 10

1.4 Types of Reinsurance 13

1.5 Pricing of Proportional Reinsurance Contracts 17

1.6 Pricing of Non-Proportional Reinsurance Contracts 21

1.6.1 Preliminary Remarks 21

1.6.2 Net Risk Premium 22

1.6.3 Cost of Capital 26

1.6.4 Loadings 33

1.6.5 Types of Premium Payment 37

1.7 Concept and Benefits of Co-Reinsurance Agreements . . . 38

1.8 The Influence of Reinsurance Market Cycles on the Price for
Reinsurance 40

1.8.1 Identification of Market Cycles in Primary Insurance
and Reinsurance Markets 40

1.8.2	Underwriting-Induced Changes	43
1.8.3	Capital Supply-Induced Changes	45
2	Reinsurance Market Overview: Size, Market Concentration, and Recent Developments	52
2.1	Preliminary Remarks	52
2.1.1	Objective and Structure of the Analysis	52
2.1.2	Data Sets and Estimation Methodology	53
2.2	Reinsurance Market Development	56
2.2.1	Development of the Global Reinsurance Market Premium Volume	56
2.2.2	Development of Reinsurance Market Concentration	62
2.3	Geographic Origin of Reinsurance Cover	72
2.4	Selected Points of Differentiation of Reinsurance Companies	76
2.4.1	Volatility of Combined Ratios	76
2.4.2	Choice of Distribution Channel: Broker Reinsurers and Direct Reinsurers	82
3	Reasons for Reinsurance Purchase—A Critical Evaluation	84
3.1	Preliminary Remarks	84
3.2	Improved Diversification and Efficient Risk Allocation . . .	85
3.2.1	Primary Risk Aversion	85
3.2.2	Improvement of Risk Diversification Efforts	86
3.2.3	Transfer of Underwriting Risk and Increase of Under- writing Capacity	87
3.3	Reduction of Financial Distress and Bankruptcy Costs . .	92
3.4	Government- and Regulatory-Induced Demand for Reinsurance	93

3.4.1	Balance-Sheet Design and Tax Optimization	93
3.4.2	Reduction of Regulatory Capital Requirements . .	95
3.5	Reinsurance and Information Asymmetries	97
3.5.1	Conflicts between Shareholders and Policyholders .	97
3.5.2	Management Control	98
3.5.3	Reinsurance Cover as Solvency-Signaling Device . .	101
3.5.4	Reduction of Capital Costs	104
3.6	Knowledge-Transfer and Service	105
3.7	Exploitation of Comparative Advantages of Reinsurance .	108
3.8	Critical Evaluation of Reasons for Reinsurance Purchase .	110
4	Reinsurance Market Distortions	113
4.1	Preliminary Remarks	113
4.2	Problems of Adverse Selection	114
4.3	Problems of Moral Hazard	123
 III Reinsurance Intermediation: Market Development, Intermediary Tasks and Remuneration, and Regulation		 129
1	Preliminary Remarks	129
2	Reinsurance Broker Market	131
2.1	Reinsurance Broker Origins	131
2.2	Recent Developments in the Reinsurance Broker Market .	132
2.3	Market Concentration and Competitive Environment . . .	134
2.4	Regional Importance of Reinsurance Brokers	137
3	Reinsurance Broker Tasks	139
3.1	Preliminary Remarks	139

3.2	Choice of Reinsurance Broker and Intermediation Clause . . .	140
3.3	Risk Analysis and Structuring of Reinsurance Demand . . .	142
3.4	Placement of Reinsurance Cover	144
3.5	Policy Administration, Claims Management, and Risk Management Consulting	148
4	Reinsurance Broker Remuneration	149
4.1	Timing and Payment	149
4.2	Premium Volume-Based Commissions	149
4.3	Contingent Commissions	150
4.4	Fee-for-Advice	152
4.5	Interest Earnings on Transferred Payments	152
5	Regulation of Reinsurance Brokers	153
5.1	Rationales for Reinsurance Broker Regulation	153
5.2	Reinsurance Broker Regulation in the U.S.	155
5.3	Reinsurance Broker Regulation in the EU	157
IV	The Market Function of the Reinsurance Intermediary	161
1	Preliminary Remarks	161
2	Comparison of Financial Intermediation in Capital, Primary Insurance, and Reinsurance Markets	164
2.1	Preliminary Remarks	164
2.2	Financial Intermediation in Capital Markets	164
2.3	Differentiation of Financial Intermediation in Capital and Reinsurance Markets	167
2.4	Intermediation in Primary Insurance Markets	169

2.5	Differentiation of Intermediation in Primary and Reinsurance Relationships	172
2.5.1	Professional Contracting Parties	173
2.5.2	Obligatory Reinsurance Treaties	174
2.5.3	Market and Business Conduct	177
2.5.4	Conclusion	178
3	Influence of Reinsurance Intermediation on Agency Costs: Information Intermediation in Reinsurance Markets	179
3.1	Preliminary Remarks	179
3.2	Information Intermediation before Reinsurance Contract Conclusion	180
3.2.1	Preliminary Remarks	180
3.2.2	Risk-Adequate Reinsurance Premiums	181
3.2.3	Extension of Available Reinsurance Cover	184
3.2.4	Reinsurer Default Risk Classification	185
3.2.5	Conclusion	187
3.3	Information Intermediation during and after the Reinsurance Treaty Period	188
3.3.1	Preliminary Remarks	188
3.3.2	Ex-Ante Moral Hazard	189
3.3.3	Ex-Post Moral Hazard	190
3.3.4	Conclusion	191
4	Influence of Reinsurance Intermediation on the Primary Insurer's Reinsurance Costs	193
4.1	Preliminary Remarks	193

4.2	Cost-Efficient Determination of Reinsurance Demand prior to the Reinsurance Placement Process	194
4.2.1	Consulting and Risk-Management Function	194
4.2.2	Identification and Structuring of Reinsurance Demand	194
4.3	Administrative Support before, during, and after the Reinsurance Treaty Period	196
4.4	Cost-Advantages due to the Provision of Sufficient Risk Transfer Possibilities	197
4.4.1	Preliminary Remarks	197
4.4.2	Realization of Network Effects in Traditional Reinsurance Markets	199
4.4.3	Fostering of Alternative Risk Transfer Solutions	201
4.5	Bargaining Benefits: Two-sided Pooling Function of the Reinsurance Intermediary	202
4.6	Conclusion	207
5	Influence of Reinsurance Intermediation on Market Conduct and Negotiation Costs:	
	The “Most-Favored Reinsurer” Clause and the Reinsurance Placement Process	209
5.1	Preliminary Remarks	209
5.2	The Co-Reinsurance Placement Process and the “Most-Favored Reinsurer” Clause	211
5.2.1	The Co-Reinsurance Placement Process	211
5.2.2	Reinsurance Market Impact of the “Most-Favored Reinsurer” Clause in the Placement of Co-Reinsurance Cover	214

5.2.3	Regulatory Considerations Regarding the Use of the “Most-Favored Reinsurer” Clause in the EU	216
5.2.4	Effects of the “Most-Favored Reinsurer” Clause on Reinsurance Broker Compensation and Market Importance	219
5.3	Determination of the Demand for Reinsurance in a Value-at-Risk—Environment	220
5.3.1	The Concept of Value-at-Risk—Measures	220
5.3.2	Model Setting in a Value-at-Risk—Environment without Reinsurance	221
5.3.3	Determination of Reinsurance Demand with a Pro- portional Loading on the Fair Reinsurance Premium	224
5.4	Analysis of the Reinsurance Placement Process without the Use of the “Most-Favored Reinsurer” Clause	229
5.4.1	General Assumptions Regarding the Reinsurance Market	229
5.4.2	Reinsurance Market Outcomes	230
5.5	Analysis of the Reinsurance Placement Process with the Use of the “Most-Favored Reinsurer” Clause	234
5.5.1	Further Assumptions	234
5.5.2	Proceeding of the Analysis	237
5.5.3	Identification of Sub-Games in the Placement Process	237
5.5.4	Market Outcome without Full Reinsurance Cover on the First Stage	246
5.5.5	Market Outcome without Full Reinsurance Cover and Withdrawal on the First Stage	248

5.5.6	Reinsurance Market Outcome with an Ex-ante Fixed Leading Reinsurer	251
5.6	Comparison of Reinsurance Market Outcomes with Lump-Sum Transaction Costs	253
5.7	Conclusion	255
6	Possible Reinsurance Market Distortions due to Reinsurance Broker Activity	263
6.1	Preliminary Remarks	263
6.2	Information Intermediation and Strong Cooperation	264
6.2.1	Three-Tier Principal-Agent Literature	264
6.2.2	Collusion in Reinsurance Markets with Broker Intermediation	266
6.3	Distortion of Intermediation Effects on Reinsurance Costs	268
6.3.1	Determination of Reinsurance Demand	268
6.3.2	Bargaining Effects and Two-Sided Pooling Function	269
6.4	Market Conduct and Negotiation Costs	272
6.5	Countermeasures	272
V	Conclusion	275
