Preface — V

Part I The Recent Debate on Scientific Realism

- 1 Scientific Realism and Its Relation to Common Sense — 3**
 - 1.1 Key Arguments Surrounding Scientific Realism — 4**
 - 1.2 Scientific Realism without Common Sense Realism? — 13**
- 2 Entity Realism — 19**
 - 2.1 From Theories to Entities — 20**
 - 2.2 Is Manipulability an Adequate Criterion of Reality? — 23**
 - 2.3 From Manipulation to Explanation — 28**
- 3 NOA and the Vices of the Realism Debate — 33**
 - 3.1 In Defense of Interpretation — 33**
 - 3.2 The *Principle of Fairness* — 40**
 - 3.3 NOA, Entity Realism, and the *Homely Line* — 44**

Part II Causal Realism

- 4 Causal vs. Theoretical Warrant — 49**
 - 4.1 Criterion 1: Non-redundancy — 50**
 - 4.2 Criterion 2: Material Inference — 54**
 - 4.3 Criterion 3: Empirical Adequacy — 59**
 - 4.4 Causal Realism's Advantages over Entity Realism — 62**
- 5 Causal Warrant for the Neutrino: A Case Study — 67**
 - 5.1 Bohr and Pauli on Beta Decay — 67**
 - 5.2 The Impact of Fermi's Theory and the Need for Direct Detection — 69**
 - 5.3 The Detection of the Neutrino by Reines and Cowan — 72**
- 6 The Problem of Unconceived Alternatives — 79**
 - 6.1 Previous Attempts to Undermine the PUA — 80**
 - 6.2 Causal Knowledge as a Criterion for the Realist — 85**
 - 6.3 Causal Realism, Unconceived Alternatives, and the Atomic Hypothesis — 92**

Part III The Quantum Challenge

- 7 Causal Realism in the Context of Bell-Type Experiments — 105**
 - 7.1 Bell-Experiments: Causal Warrant for Superluminal Causation — 105**
 - 7.2 Causal Realism and Underdetermination in Quantum Mechanics — 114**
 - 7.3 Some Experimental Constraints on Explanations for EPR — 122**
- 8 Delayed-Choice Experiments and the Metaphysics of Entanglement — 137**
 - 8.1 Delayed Choice in the Double-Slit Experiment — 139**
 - 8.2 The Quantum Eraser — 140**
 - 8.3 Delayed-Choice Entanglement Swapping — 145**
- 9 Particle Physics without Particles? On Causal Realism in Quantum Field Theory — 149**
 - 9.1 Against Localizability: Malament's Theorem and Its Generalizations — 149**
 - 9.2 Against Countability: Unruh Effect and Interacting Fields — 154**
 - 9.3 Defending Localizability and Countability — 161**
 - 9.4 Concluding Remarks on Realism, Fundamentalism, and QFT — 169**

Bibliography — 175

Index — 187
