

**Abundance, distribution, and activity of anaerobic and  
microaerophilic Fe(II)-oxidizing and anaerobic Fe(III)-reducing  
microorganisms in coastal marine sediments**

**Dissertation**

der Mathematisch-Naturwissenschaftlichen Fakultät  
der Eberhard Karls Universität Tübingen  
zur Erlangung des Grades eines  
Doktors der Naturwissenschaften  
(Dr. rer. nat.)

vorgelegt von  
M. Sc. Katja Laufer  
aus Donaueschingen

Tübingen 2016
