LIST OF FIGURES	x
LIST OF TABLES	xii
LIST OF MAPS	xiv
LIST OF PHOTOS.....	xv
 1 INTRODUCTION	 1
 2 THEORETICAL APPROACH: SUSTAINABLE LIVELIHOODS	 5
2.1 The evolution of ‘livelihood’ thinking.....	5
2.2 The Sustainable Livelihood Framework	7
2.2.1 Livelihood assets.....	8
2.2.2 Vulnerability contexts, transforming structures and processes	10
2.2.3 Livelihood strategies and outcomes	11
2.3 Critiques of the livelihood approach.....	12
2.4 A long-term perspective of livelihood dynamics	14
 3 NATURAL RESOURCE POTENTIALS AND SOCIO-ECONOMIC TRANSITIONS IN LAKIPA	 16
3.1 Environmental conditions	16
3.2 Land use change and socio-economic transitions	20
3.3 Specific study sites and their agro-ecological potential.....	24
 4 METHODOLOGICAL APPROACH: REPEAT SURVEYS AND PARTICIPATORY RESEARCH	 29
4.1 Historical datasets: Household surveys from the 1990s	29
4.2 Contemporary datasets: Evidence from 2010 and 2013	30

5 A MEASURE OF RELATIVE WELL-BEING: DEVELOPMENT OF AN ASSET-BASED INDEX	39
5.1 A holistic perspective on poverty: The asset-based index	39
5.2 Selection of well-being indicators.....	40
5.3 Statistically derived asset indices.....	42
5.3.1 An overview of statistical analytical techniques	42
5.3.2 Categorical principal component analysis.....	43
5.3.3 Derived asset index for smallholders in Laikipia using catPCA.....	45
5.4 Development of an asset index in Laikipia through a participatory process	49
5.5 Exploring the results: A comparison between the statistically derived and the participatory index	51
6 LIVELIHOOD DYNAMICS BETWEEN 1992 AND 2013 IN LAIKIPIA	56
6.1 Small-scale farming in a semi-arid region	56
6.1.1 Land: the basis of rural livelihoods	56
6.1.2 Rainfed agriculture under dynamic socio-ecological conditions	57
Subsistence and cash-crop farming	57
Local perceptions on changing farming conditions.....	59
6.1.3 Opportunities and challenges of livestock keeping	62
6.1.4 The role of crop and livestock within a mixed farming system	68
6.2 Diversification to off-farm activities.....	70
6.2.1 Off-farm alternatives	70
6.2.2 Contributions of casual and permanent employment to livelihood security	70
6.2.3 Off-farm opportunities in a changing job market.....	72
6.3 Dynamics in the education and health sector: implications for smallholders	75
6.3.1 Advances in education levels in Laikipia.....	75
6.3.2 Local valuations of education: opportunities and constraints	76
6.3.3 Access to health services and persistent challenges.....	79
6.4 Investments in social networks, security and physical infrastructure	82
6.4.1 The role of community groups for livelihood security.....	82
6.4.2 Livestock theft and human-wildlife conflict	84
6.4.3 Investments in housing, water facilities and other physical assets.....	85

6.5 Participatory water management in a water scarce environment	90
6.5.1 The formation of water resource user associations	90
6.5.2 Successes and challenges in community water management.....	93
6.5.3 Smallholder experiences with community water projects: two case stories.....	98
6.6 An expanding horticulture industry: Assessing the implications for rural livelihoods.....	102
6.6.1 Local perspectives on employment opportunities	102
6.6.2 Growing pressure on natural resources	104
6.6.3 The impacts on society and the individual	104
6.6.4 Overall challenges and opportunities for rural development	105
6.7 Poverty dynamics and changes in asset endowment.....	107
6.7.1 Change and persistence in well-being from an aggregated and a household perspective	107
6.7.2 Asset portfolios: changes in their composition	109
6.7.3 Correlation between asset endowment and ecological conditions	112
7 CHALLENGES FOR RURAL DEVELOPMENT AND IMPLICATIONS FOR DEVELOPMENT INTERVENTIONS	116
7.1 Poverty dynamics and lessons learned for poverty reduction measures	116
7.2 Challenges for rainfed agriculture and the need for the upscaling of sustainable land use practices	117
7.3 Constraints for livestock keeping and respective intervention options.....	118
7.4 Integrating smallholders in agricultural markets and its Limitations.....	119
7.5 Participatory water management, its potential and remaining challenges	121
7.6 The role of off-farm activities and education for improved livelihood outcomes	124
7.7 Critical Reflections and future research needs.....	127
BIBLIOGRAPHY	131
ANNEX.....	145
