Data requirements and criteria for decision-making in the European Union and the Federal Republic of Germany for the authorization procedure of plant protection products

Contents	Page
Foreword	5
Efficacy and phytotoxicity	
Data requirements	10
Criteria for decision-making	19
Identity/further information	
Data requirements	24
Physico-chemical and technical data	
Data requirements	31
Criteria for decision-making	40
Analytical methods (formulation/residue analysis)	
Data requirements	43
Criteria for decision-making	48
Fate and behaviour in soil, water, air/ Predicted environmental concentrations (PEC)	
Data requirements	54
Criteria for decision-making	63
Effects on non-target organisms	
Soil micro-organisms	
Data requirements	70
Criteria for decision-making	72
Earthworms	
Data requirements	75
Criteria for decision-making	78
Soil macroorganisms (organic matter breakdown)	
Data requirements	80
Criteria for decision-making	80
Other non-target organisms (flora and fauna)	
Data requirements	82
Criteria for decision-making	82

Honeybees		
	Data requirements	84
	Criteria for decision-making	87
Beneficial arthropods (other than honeybees)		
	Data requirements	90
	Criteria for decision-making	93
Birds and mammals		
	Data requirements	97
	Criteria for decision-making	99
Aquatic organisms		
	Data requirements	101
	Criteria for decision-making	104
Residue behaviour in or on treated products, food and feed		
	Data requirements	107
	Criteria for decision-making	114
Toxicology		
	Data requirements	118
	Criteria for decision-making	129
Glossary and explanations		136
Literature		139
