# Table of Contents

|             |                                                        |     |
|-------------|--------------------------------------------------------|-----|
| <b>1.1</b>  | Total anomalous pulmonary venous connection .....      | 1   |
| <b>1.2</b>  | Partial anomalous pulmonary venous connection .....    | 7   |
| <b>1.3</b>  | Atrial septal defect .....                             | 13  |
| <b>1.4</b>  | Unroofed coronary sinus .....                          | 21  |
| <b>1.5</b>  | Atrioventricular septal defect .....                   | 25  |
| <b>1.6</b>  | Ventricular septal defect .....                        | 33  |
| <b>1.7</b>  | Tetralogy of Fallot .....                              | 45  |
| <b>1.8</b>  | Tetralogy of Fallot with absent pulmonary valve .....  | 57  |
| <b>1.9</b>  | Pulmonary stenosis .....                               | 61  |
| <b>1.10</b> | Pulmonary atresia with intact ventricular septum ..... | 67  |
| <b>1.11</b> | Ebstein's anomaly .....                                | 73  |
| <b>1.12</b> | Patent ductus arteriosus .....                         | 79  |
| <b>1.13</b> | Left ventricular outflow tract obstruction .....       | 85  |
| <b>1.14</b> | Aortic coarctation .....                               | 97  |
| <b>1.15</b> | Aortic arch interruption .....                         | 109 |
| <b>1.16</b> | Complete transposition of the great arteries .....     | 115 |
| <b>1.17</b> | Hypoplastic left heart syndrome .....                  | 137 |
|             | Subject index .....                                    | 147 |
