## Field Methods for Geologists and Hydrogeologists

With 235 Figures and 74 Tables

## Contents

\_\_\_\_

1	Introduction	. 1
1.1	Historical Aspect	. 1
1.2	Concept of Environmental Movement	. 3
1.3	Environmental Aspects of Karst Terrains	. 4
	References	. 4
Part	t I Surface Geological and Geophysical Field Studies	. 5
2	Geology of Indurated Rocks, Unconsolidated Sedimentary Deposits and Karst Terrains	. 7
2.1	Introduction	. 7
2.2	Rock Composition and Rock Types	. 7
	2.2.1 Rock Composition	. 7
	2.2.2 Rock Types	. 8
2.3	Soils and Unconsolidated Deposits	15
	2.3.1 Soils	
	2.3.2 Unconsolidated Deposits	
2.4	Karst Terrains	
	2.4.1 Definition	
	2.4.2 Karst and Karstification	
	2.4.3 Karst and Speleogenetic Processes	27
	2.4.4 How Important is Karst to Man's Environment?	
	2.4.5 Karst Features	
	2.4.6 Siting Landfills in Karst Terrains

4	Surface Geophysical Exploration Methods	51
4.1	Introduction	
4.2	Magnetic Survey	51
4.3	Gravimetric Survey	
4.4	Microgravity and Cavity Detection	52
4.5	Seismic Exploration Survey	53
	4.5.1 Definition and Discussion	
	4.5.2 Seismic Refraction/Reflection Methods	55
	4.5.3 Seismic Terms and Phenomena	56
4.6	Ground Penetrating Radar Methods	57
	4.6.1 Definition and Basic Principles	57
	4.6.2 Methodology	58
	4.6.3 GPR Application	59
4.7	Remote Sensing and Satellite-Based Images	60
	4.7.1 General	60
	4.7.2 Remote Sensing and Geographic Information System (GIS)	61
	4.7.3 Preliminary Evaluation of Remote Sensing/Alabama Highways	62
	4.7.4 Satellite Hydrology	63
	4.7.5 Applications in the Field of Hydrogeology	64
4.8	Geophysical Investigations in Karst Areas	69
	4.8.1 Electrical Resistivity Tomography (ERT)	70
	4.8.2 Earth Resistivity Tomography Used for Investigating Karst Hazards	70
	4.8.3 Natural Potential Method (NP)	72
