Abstract	5
Zusammenfassung	7
1 Introduction	9
1.1 Systems Biology	9
1.1.1 Interactomics	10
Interaction Types	11
Interaction Studies	13
Interaction Data Sources	15
1.1.2 Network Analysis	16
1.2 Platelet 'Omics'	19
1.2.1 The Platelet Transcriptome	19
Protein Syntheses in Platelets	19
Expression Profiling in Platelets	20
1.2.2 The Platelet Proteome	22
1.3 Rationale	24
2 Materials and Methods	27
2.1 Databases	27
2.1.1 Proteome and Genome Databases	27
2.1.2 Gene Ontology	28
2.1.3 Interaction Databases	30
2.2 Platelet Preparation and Immunoprecipitation	32
2.3 SAGE Analysis	33
2.3.1 SAGE Technology	33
2.3.2 SAGE Bank Generation	34

2.3.3	PCR Amplification and quantitative RT-PCR	34
2.3.4	Transcript Mapping	35
2.4	Algorithms	36
2.4.1	Sequence Search and Alignment	36
2.4.2	UTR Analysis	38
2.4.3	Domain Analysis	38
2.4.4	Motif Search	39
2.5	Structural Analyses of the Networks	45
2.6	Software and Computational Implementation	50
3	Results	53
3.1	The Platelet Transcriptome	53
3.1.1	Anatomy of the Platelet SAGE Library	53
	Comparison to Platelet Microarray Data	54
3.1.2	Purity of the Library	56
	Purification of Platelets	57
3.1.3	Functional Characterization of the Platelet Transcriptome	58
3.1.4	Sequence and Structure of Platelet Transcripts	60
	Structure of Platelet UTRs	60
	Specific Sequence Motifs in Platelet UTRs	63
3.2	The Platelet Interactome	65
3.2.1	Collation of the Database	65
3.2.2	Construction of the Interactome Network	67
3.2.3	Characterization of the Proteome	71
3.3	Global Network Structure	74
3.4	Analysis of specific Subnetworks	78
3.5	The PlateletWeb Knowledge Base	83
3.6	The Platelet Kinome and Phospho-Interactome	85
3.6.1	The Kinome	85
3.6.2	The Phospho-Interactome	85
3.6.3	The Platelet Kinase Network	88
3.7	Mining the Interactome Network	91
3.7.1	Statistics of Scoring Function	91
3.7.2	Algorithmic Solution	97
3.7.3	Validation	102

4 Discussion	105
4.1 Platelet SAGE: A comprehensive Mapping	105
4.2 High Purity Preparation of Platelets	107
4.3 Platelet Transcripts: Motifs and Function	108
4.4 A comprehensive Platelet Knowledge Base	111
4.5 A functional Inventory of the Platelet Proteome	113
4.6 Architecture of the Platelet Interactome	114
4.7 Platelet Kinomics	116
4.8 Characterizing specific Subnetworks	117
4.9 Improved Approaches for functional Network Analysis	119
4.10 Conclusion and Outlook	126
A Additional Material	151
A.1 The platelet transcriptome	151
A.2 The platelet interactome	157
B List of publications	167
B.1 Publications related to this work	167
B.2 Further publications	168
B.3 Conference Contributions	169
