XIII Preface
XIV Foreword
XV List of Abbreviations
XVI List of Authors

Chapter 1
Cytopathological Techniques for the Diagnosis of Glandular Lesions of the Genital Tract

1 1.1. Introduction
1 1.2. Fixation
2 1.3. Staining
3 1.4. Special Techniques
4 References

Chapter 2
2001 Bethesda System Classification of Glandular Lesions on Cervical Cytology

5 2.1. Introduction
6 2.2. Glandular Epithelial Cell Abnormalities
  6 2.2.1. Atypical Glandular Cells
  6 2.2.2. Atypical Endocervical Cells
  7 2.2.3. Atypical Endometrial Cells
8 2.3. Endocervical Adenocarcinoma in situ
9 2.4. Adenocarcinoma
12 2.5. Other
  12 2.5.1. Endometrial Cells in Women ≥ 40 Years of Age
13 2.6. Impact of the 2001 Bethesda System
13 2.7. Management
14 References

Chapter 3
Cytopathology of the Benign Glandular Lesions of the Cervix and Glandular Cytopathology of the Vagina

15 3.1. Cytopathology of Benign Glandular Lesions of the Cervix
  15 3.1.1. Benign tumors

Chapter 4

**Cytopathology of Adenocarcinoma in situ of the Endocervix and Its Differential Diagnosis**

| 4.1. | Introduction |
| 4.2. | Normal Endocervical Mucosa |
| 4.3. | Benign and Reactive Changes |
| 4.4. | Adenocarcinoma in situ |
| 4.5. | Clinical Management of AIS |
| 4.6. | Microinvasive Adenocarcinoma |
| 4.7. | CIN 3 Mimics AIS |
| 4.8. | Pregnancy Changes |
| 4.9. | The Vaginal Cuff |
| References |

Chapter 5

**Cytopathology of the Malignant Invasive Lesions of the Endocervix**

| 5.1. | Introduction |
| 5.2. | Types of Malignant Invasive Lesions of the Endocervix |
| 5.3. | Invasive Endocervical Adenocarcinoma |
| 5.3.1. | Early Invasive Adenocarcinoma |
| 5.3.2. | Mucinous Adenocarcinoma |
| 5.3.2.1. | Endocervical Type Adenocarcinoma of the Endocervix |
| 5.3.2.2. | Intestinal Variant |
| 5.3.2.3. | Signet-Ring Cell Variant |
| 5.3.2.4. | Minimal Deviation Variant |
| 5.3.3. | Villoglandular Adenocarcinoma |
| 5.3.4. | Endometrioid Adenocarcinoma of the Cervix |
| 5.3.5. | Clear-Cell Adenocarcinoma |
| 5.3.6. | Serous Adenocarcinoma |
Chapter 6

Endometrial Hyperplasias

6.1. Introduction
6.2. Clinical Features
6.3. Pathophysiology
6.4. Histopathology: WHO Classification
6.5. Multicentric European Study on Endometrial Hyperplasia
6.6. Diagnosis of Endometrial Hyperplasia
6.7. Differential Diagnosis of Endometrial Hyperplasias
6.8. Endometrial Intraepithelial Neoplasia
   6.8.1. Concept
   6.8.2. Clinical Features
   6.8.3. Diagnosis
   6.8.4. Management of EIN
6.9. Current Status of Cytopathology of Endometrial Hyperplasias
6.10. Practical Considerations
6.11. Cytopathology of Endometrial Hyperplasias: The Jiménez-Ayala Classification
   6.11.1. Endometrial Hyperplasia
6.11.2. Endometrioid Neoplasm
6.12. References

Chapter 7

Endometrial Adenocarcinoma: Current Status and Future of Prevention and Early Diagnosis

7.1. Introduction
7.2. Current Status of the Prevention and Early Diagnosis of Endometrial Adenocarcinoma
   7.2.1. Increasing Incidence
   7.2.2. Pathogenesis
   7.2.3. High-Risk Population
   7.2.4. High-Risk Factors
   7.2.5. Diagnostic Methods for Endometrial Screening Program
      7.2.5.1. Techniques of Endometrial Cytology
      7.2.5.2. Histological Techniques
      7.2.5.3. New Gynecological Methods
   7.2.6. Histopathology of EmA: Grading
   7.2.7. Cytopathological Grading of EmA
      7.2.7.1. Low-Grade Adenocarcinoma (Well Differentiated)
      7.2.7.2. High-Grade Adenocarcinoma (Poorly Differentiated)
   7.2.8. Liquid-Based Preparation
7.3. Future of Prevention and Early Diagnosis
   7.3.1. Challenges in Detection of Endometrial Malignant Lesions
      7.3.1.1. Assessment of High-Risk Population
Chapter 8

Cytopathology of Ovarian Lesions: The Intraoperative Approach

8.1. Introduction
8.2. Histology and Cytology of Ovarian Lesions
8.2.1. Epithelial-Stromal Ovarian Tumors
8.2.1.1. Serous Carcinomas
8.2.1.2. Psammomacarcinoma
8.2.1.3. Serous Borderline Tumors
8.2.1.4. Mucinous Carcinoma
8.2.1.5. Mucinous Borderline Tumor
8.2.1.6. Endometrioid Tumors
8.2.1.7. Clear Cell Carcinoma
8.2.1.8. Benign Brenner Tumor
8.2.2. Metastatic Tumors
8.2.2.1. Metastasis from Colon and Rectum
8.2.2.2. Krukenberg Tumors
8.2.3. Non-Neoplastic Cysts
8.2.3.1. Endometriotic Cysts
8.2.3.2. Corpus Luteum Cyst
8.2.4. Sex Cord-Stromal Tumors
8.2.4.1. Granulosa-Stromal Cell Tumor
8.2.4.2. Typical and Luteinized Thecoma
8.2.5. Germ Cell Tumors
8.2.5.1. Dysgerminoma
8.3. Performance of Intraoperative Cytology
8.4. Advantages and Limitations
8.5. Conclusions
References

Chapter 9

Glandular Lesions of the Vulva

9.1. Histology of the Vulva
9.2. Diagnosis of Vulvar Lesions
9.3. Concept of Vulvar Cancer
9.4. Terminology for Reporting Vulvar Cytology
9.5. Cytopathology of Glandular Tumors of the Vulva
9.5.1. Paget Disease
9.5.2. Bartholin Gland Carcinoma
9.5.3. Tumors Arising from Specialized Anogenital Mammary-Like Glands
9.5.3.1. Papillary Hidradenoma
9.5.3.2. Adenocarcinomas and Other Tumors Arising from Specialized Anogenital Mammary-Like Glands
9.5.4. Other Benign Tumors
9.5.5. Other Malignant Tumors
9.5.6. Secondary Tumors
9.6. Cytodiagnosis of Vulvar Lesions
