

TABLE OF CONTENTS

<u>SUMMARY</u>	9
<u>INTRODUCTION</u>	11
I. Background	11
II. Productivity: concept and measurement	11
III. Structure of the report	12
<u>Chapter I: PRODUCTIVITY: A MATTER OF CONCERN</u>	13
I. Recent developments in industrial productivity	13
II. The rationale for productivity improvement	15
III. Determinants of productivity improvement in industry	17
<u>Chapter II: FACTORS IN PRODUCTIVITY</u>	20
A. INVESTMENT AND CAPITAL ACCUMULATION	20
I. Contribution of capital to labour productivity growth for manufacturing industry as a whole	21
II. Industry analysis of the contribution of capital to labour productivity growth	24
III. Factors influencing the efficiency of capital stock	26
1. Accelerated obsolescence	26
2. The effect of energy prices	27
3. Ageing of the capital stock	27
4. Rationalisation and productivity growth	28
IV. Conclusions	28

	<u>Page</u>
B. AUTOMATION OF PRODUCTION	29
I. Computer-aided manufacturing	30
II. The role of industrial robots	33
III. The impact of robots on productivity	35
IV. Conclusions on automated equipment	37
C. MANAGEMENT QUALITY	38
I. Production management: breakthroughs versus incremental improvements	39
II. Management's time horizon: long term versus short term	42
III. Labour-management relations	45
IV. Conclusions	47
D. LABOUR QUALITY	48
I. General education	48
II. Occupational training	49
III. Conclusions	49
IV. Special issue: employment effects of productivity increase; the trade-off between short-term labour shedding and longer term employment opportunities	50
E. PRODUCT QUALITY	51
I. The notion of product quality and its implications	52
II. The magnitude of the productivity impact of product quality	53
III. Factors in quality improvement	54
1. Management	54
2. Small group activities	56
IV. Conclusions	56

	<u>Page</u>
<u>Chapter III: GOVERNMENTAL POLICIES REGARDING PRODUCTIVITY</u>	58
I. The rationale for productivity improvement policies	58
II. Respective roles of public and private sectors	60
1. Government involvement in R&D and innovation	60
2. Legislation and regulations	61
3. Public sector productivity	62
4. The relationship between the private and the public sectors role	63
III. National policies and programmes	63
1. Norway	65
2. Canada	66
3. United States	68
IV. Conclusions	68
