# Contents

**1 Introduction** **1**

1.1 An Exemplary Reasoning Problem . . . . . 2

1.2 Themes of this Thesis . . . . . 4

1.3 Structure . . . . . 7

**I Connecting Mental Representations and External Diagrams Through Eye Movement Research** **9**

**2 Mental Representations of Space and Mental Spatial Reasoning** **13**

2.1 Structures Within and Without . . . . . 13

2.2 The Presence and Influence of Spatial Structures . . . . . 24

2.3 Multiple Mental Representations of Space . . . . . 25

**3 Spatial Reasoning with Mental Model, Mental Images and Diagrams** **33**

3.1 Mental Models and Images in Human Spatial Reasoning . . . 33

3.2 Reasoning with Diagrams . . . . . 42

**4 Visual Attention and Eye Movements** **49**

4.1 Visual Attention and Spatial Reasoning . . . . . 49

4.2 Eye Movements and Visual Attention . . . . . 61

**5 Measuring and Analyzing Eye Movements** **67**

5.1 Measuring Eye Movements . . . . . 67

5.2 Analyzing Eye Movements in Spatial Reasoning Tasks . . . . . 72

**6 Eye Movements in Spatial Reasoning and Cooperative Reasoning** **81**

6.1 Eye Movements in Spatial Reasoning . . . . . 81

6.2 Cooperative Issues in Spatial Reasoning . . . . . 103

**II Model-Based Representation of Attention for Human-Computer Cooperation** **107**

**7 Own Approach – Foundations** **109**

7.1 Mental Theories . . . . . 109

7.2 Human Spatial Reasoning with Diagrams in Focus . . . . . 117

7.3 Selected Key Tenets on Mental Representation . . . . . 120

7.4 Matchstick Problem Solving – Pilot Studies . . . . . 127

7.5 Proposed Levels of Problem Abstraction . . . . . 139

**8 A System for Live Model-Based Eye Tracking** **145**

8.1 Aims . . . . . 145

8.2 System Overview . . . . . 153

8.3 Spatial Structures and Attentional Focus . . . . . 162

**9 Methods for Human-Computer Collaboration** **167**

9.1 Live Model-Based Approaches . . . . . 167

9.2 Relating Mental and External Spatial Structures . . . . . 170

9.3 Capturing Attentional Foci . . . . . 172

9.4 Complementing Reasoning Faculties . . . . . 174

**10 Perspectives for Design and Significance of Approach** **179**

10.1 Architectural Diagrammatic Design Problems . . . . . 179

10.2 Human-Computer Interaction & Attention in Design . . . . . 185

**11 Conclusions and Outlook on Future Work** **191**

11.1 Summary . . . . . 191

11.2 Conclusions and Contributions . . . . . 192

11.3 Future Work . . . . . 193

**References** **197**
