

I Basic Principles

1	Introduction	2	5.1	Interaction between Innate and Specific Immunity	20
1.1	Dermatology and the Skin	2	A.	Mechanical Barriers.	20
A.	Dermatology	2	B.	Innate Immunity	20
B.	Frequency of Skin Diseases	2	C.	Specific Immunity	20
C.	Functions of the Skin.	2	5.2	Organs of the Immune System	22
2	Embryology and Anatomy	4	A.	Organs of the Immune System	22
2.1	Embryology and the Epidermis	4	5.3	Cells of the Immune System: Overview	24
A.	Embryology	4	A.	Development of Immune Cells	24
B.	The Epidermis.	4	B.	Antigen-presenting Cells	24
C.	The Basement Membrane Zone	4	C.	Granulocytes and Mast Cells.	24
2.2	Adnexal Structures	6	D.	Natural Killer Cells.	24
A.	The Adnexal Glands.	6	5.4	T Cells	26
B.	Temperature Control.	6	A.	T-cell Development and Function	26
2.3	The Dermis	8	B.	Interaction between Antigen-presenting Cells and T Cells.	26
A.	The Dermis.	8	5.5	T-cell Differentiation: T_{H17} and Regulatory T Cells	28
B.	Extracellular Matrix Components	8	A.	T_{H17} and Regulatory T Cells.	28
2.4	The Hair, Nails, and Subcutaneous Fat	10	B.	T_{H17} Cells	28
A.	Hair Development and Structure	10	C.	Regulatory T Cells.	28
B.	The Hair Cycle	10	5.6	B Cells	30
C.	Types of Hair	10	A.	Development and Function of B Cells	30
D.	Nail Development and Structure	12	5.7	Important Mediators of the Immune System	32
E.	Subcutaneous Fat	12	A.	Cytokines	32
3	Biochemistry	14	B.	Chemokines	32
3.1	Keratin	14	C.	Surface Molecules	32
A.	Keratinization	14	5.8	Intolerance Reactions	34
B.	Structural Correlates of the Epidermis.	14	A.	Immediate Reaction (Type I).	34
C.	Patterns of Keratinization	14	B.	Cytotoxic Reaction (Type II).	34
3.2	Melanin	16	C.	Immune-complex Reaction (Type III).	34
A.	Melanocytes.	16	D.	Delayed Reaction (Type IV)	34
B.	Melanogenesis.	16	5.9	Type I Reaction: Immediate Hypersensitivity	36
C.	Defects in Melanocytes.	16	A.	IgE Production.	36
D.	Skin Color and Type.	16	B.	Effector Mechanisms: Immediate Phase	36
E.	Approach to Pigmented Lesions.	16	C.	Effector Mechanisms: Late Phase, Persistent Inflammation.	36
4	Physiology	18	5.10	Type II and Type III Reactions	38
4.1	Cutaneous Sensation	18	A.	Type II Reaction (Immunoglobulin-mediated Cytotoxicity)	38
A.	Cutaneous Innervation	18	B.	Type III Reaction (Immune-complex Reaction).	38
B.	The Neuronal Basis of Pruritus.	18			
C.	Sympathetic Nerves.	18			
5	Immunology	20			

10.7 Nonsteroidal Anti-inflammatory Agents and Dapsone	88	10.16 Miscellaneous Topical Agents	116
A. Nonsteroidal Anti-inflammatory Agents	88	A. Antiperspirants	116
B. Dapsone	88	B. Medications for Disturbances of Pigmentation	116
10.8 Cytostatic Agents	90	C. Skin Cleansers and Protective Agents	116
A. Indirect Inhibition of DNA Function	90	11 Physical Modes of Therapy	118
B. Direct DNA Interactions	92	11.1 Phototherapy	118
C. Molecular Therapy	92	A. Ultraviolet Radiation	118
D. Topical Use	92	B. Principles of Phototherapy	118
10.9 Antibacterial Agents	94	C. UVB Phototherapy	118
A. Patient-Bacteria Interactions	94	D. UVA and UVA ₁ Phototherapy	120
B. Site of Action	94	E. Photochemotherapy	120
C. Mechanisms of Action and Resistance	94	11.2 Photodynamic Therapy, Radiation Therapy, and Cryotherapy	122
D. Classes of Antibiotics	94	A. Photodynamic Therapy	122
E. Topical Antibiotics	100	B. Radiation Therapy	122
F. Disinfectants	100	C. Cryotherapy	122
10.10 Antimycotic Agents	102	11.3 Laser Therapy	124
A. Inhibitors of Ergosterol Synthesis	102	A. Principles of Laser Therapy	124
B. Pyridones	102	B. Nonspecific Coagulation	124
C. Inhibitors of Cell Wall or DNA Synthesis	102	C. Semi-selective Lasers	124
D. Polyene Antibiotics	102	D. Selective Photothermolysis	124
10.11 Antiviral Agents	104	E. Vaporization and Ablation	124
A. Mechanisms of Action	104	F. Intense Pulsed Light	124
B. Antiviral Agents in HIV/AIDS	106	12 Operative Dermatology	126
10.12 Antiparasitic Agents	108	12.1 General Aspects and Techniques	126
A. Acaricides/Insecticides	108	A. General Aspects	126
B. Repellents	108	B. Operative Techniques	126
C. Anthelmintic Agents	108	12.2 Aesthetic Dermatology	130
10.13 Retinoids	110	A. Botulinum Toxin A	130
10.14 Antihistamines and Antipruritic Agents	112	B. Fillers	130
A. Antihistamines	112	C. Peeling	130
B. Antipruritic Agents	112	D. Laser Skin Resurfacing	130
10.15 Keratolytics and Antiproliferative Agents	114	E. Dermabrasion	132
A. Keratolytics	114	F. Lip Augmentation	132
B. Antiproliferative Agents	114	G. Lifting	132
		H. Thermal Lifting	132
		I. Liposuction	132
		J. Cosmetic Vein Surgery	132
		K. Plastic-reconstructive Surgery	132

IV Dermatologic Diseases

13 Dermatologic Examination	136	13.2 Types of Lesions	138
13.1 History and Symptoms	136	A. Primary Lesions	138
A. History	136	B. Secondary Lesions	138
B. Symptoms	136	C. Features of Lesions	138
C. Signs (Physical Findings)	136		

13.3 Erythroderma	140	14.8 Lichen Planus	162
A. Definition	140	A. Pathogenesis	162
B. Pathophysiology	140	B. Clinical Features	162
C. Etiology	140	C. Histology	162
D. Clinical Features	140	D. Differential Diagnosis	162
E. Diagnostic Approach	140	E. Course	162
F. Therapy	140	F. Therapy	162
		G. Variants	162
14 Inflammatory Diseases of the Epidermis	142	14.9 Graft Versus Host Disease	164
14.1 Dermatitis and Eczema	142	A. Pathogenesis	164
A. Epidemiology	142	B. Clinical Features	164
B. Clinical Features	142	C. Histopathology	164
C. Histopathology	142	D. Course	164
D. Differential Diagnosis	142	E. Therapy	164
E. Therapy	142	14.10 Pruritus and Prurigo	166
14.2 Allergic Contact Dermatitis	144	A. Pruritus	166
A. Definition	144	B. Localized Pruritus	166
B. Epidemiology	144	C. Prurigo	166
C. Pathogenesis	144	D. Therapy	166
D. Clinical Features	144	14.11 Pemphigus	168
E. Diagnosis and Therapy	144	A. Epidemiology	168
14.3 Irritant Contact Dermatitis and Other Types of Dermatitis ...	146	B. Pathogenesis	168
A. Definition	146	C. Clinical Features	168
B. Epidemiology	146	D. Histopathology and Immunofluorescence	168
C. Pathogenesis	146	E. Course	168
D. Clinical Features	146	F. Therapy	168
E. Therapy	146	15 Inflammatory Diseases of the Dermal–Epidermal Junction	170
F. Other Types of Dermatitis	146	15.1 Pemphigoid Diseases and Dermatitis Herpetiformis	170
14.4 Atopic Dermatitis, Allergic Rhinitis, and Asthma	148	A. Pathogenesis	170
A. Atopic Dermatitis	148	B. Clinical Features	170
B. Allergic Rhinoconjunctivitis	150	C. Histopathology and Immunofluorescence	172
C. Asthma	152	D. Course	172
14.5 Psoriasis	154	E. Therapy	172
A. Epidemiology and Subtypes	154	F. Dermatitis Herpetiformis	172
B. Pathogenesis	154	16 Genetic Diseases of the Dermal–Epidermal Junction	174
C. Histopathology	154	16.1 Epidermolysis Bullosa	174
D. Clinical Features	154	A. Definition	174
E. Course	156	B. Pathogenesis	174
F. Therapy	156	C. Clinical Features	174
14.6 Seborrheic Dermatitis and Reactive Arthritis	158	D. Therapy	174
A. Seborrheic Dermatitis	158	14.7 Pityriasis Lichenoides, Pityriasis Rosea, and Pityriasis Rubra Pilaris	160
B. Reactive Arthritis	158	A. Pityriasis Lichenoides	160
14.7 Pityriasis Lichenoides, Pityriasis Rosea, and Pityriasis Rubra Pilaris	160	B. Pityriasis Rosea	160
A. Pityriasis Lichenoides	160	C. Pityriasis Rubra Pilaris	161
B. Pityriasis Rosea	160		
C. Pityriasis Rubra Pilaris	161		

17	Inflammatory Diseases of the Dermis	176	18	Inflammatory Diseases of the Subcutaneous Fat	198
17.1	Urticaria, Angioedema, and Anaphylaxis	176	18.1	Panniculitis	198
A.	Pathogenesis	176	A.	Overview	198
B.	Clinical Features	176	B.	Clinical Types	198
C.	Histopathology	178	C.	Lipoatrophy and Lipodystrophy	198
D.	Diagnostic Approach	178	19	Genetic Diseases of the Connective Tissue	200
E.	Therapy	178	19.1	Disorders of Collagen and Elastin	200
17.2	Erythema Multiforme, Figurate Erythemas, and Nodose Erythemas	180	A.	Ehlers–Danlos Syndrome	200
A.	Erythema Multiforme	180	B.	Marfan Syndrome	200
B.	Figurate Erythemas	180	C.	Cutis Laxa	200
C.	Nodose Erythemas	180	D.	Pseudoxanthoma Elasticum	200
17.3	Dermatomyositis	182	20	Genetic Diseases of the Epidermis	202
A.	Pathogenesis	182	20.1	Disorders of Keratinization	202
B.	Clinical Features	182	A.	Ichthyoses	202
C.	Histopathology	182	B.	Palmoplantar Keratodermas	202
D.	Differential Diagnosis	182	C.	Dyskeratotic-acantholytic Disorders	204
E.	Course	182	D.	Follicular Keratoses	204
F.	Therapy	182	E.	Porokeratoses	204
17.4	Systemic Sclerosis, Morphea, and Lichen Sclerosus et Atrophicus	184	F.	Erythrokeratodermas	205
A.	Systemic Sclerosis	184	20.2	Mosaicism	206
B.	Morphea	186	A.	Mosaicism	206
C.	Lichen Sclerosus et Atrophicus	186	B.	Epigenetic Mosaicism	206
17.5	Lupus Erythematosus	188	C.	Genomic Mosaicism	206
A.	Chronic Cutaneous or Discoid Lupus Erythematosus	188	D.	Acquired Dermatoses in Blaschko Lines	206
B.	Subacute Cutaneous Lupus Erythematosus	188	20.3	Epidermal Nevii	208
C.	Systemic Lupus Erythematosus	190	A.	Epidermal Nevii	208
D.	Course	190	B.	Special Types	208
E.	Therapy	190	C.	Epidermal Nevus Syndromes	208
17.6	Diseases with Eosinophilia	192	D.	Solitary Lesions	208
A.	Hyper eosinophilic Syndrome	192	21	Tumors of the Epidermis	210
B.	Eosinophilic Cellulitis	192	21.1	Benign Epidermal Tumors	210
C.	Eosinophilic Fasciitis	192	A.	Seborrheic Keratosis	210
D.	Granuloma Faciale	192	B.	Acanthosis Nigricans	210
E.	Eosinophilic Pustular Folliculitis	192	C.	Confluent and Reticulated Papillomatosis (Gougerot–Carteaud Disease)	210
17.7	Noninfectious Granulomatous Diseases	194	D.	Clear Cell Acanthoma	210
A.	Sarcoidosis	194	21.2	Cysts and Adnexal Tumors	212
B.	Granuloma Annulare	196	A.	Cysts	212
C.	Necrobiosis Lipoidica	196	B.	Adnexal Tumors	212
D.	Rheumatoid Nodule	196	21.3	Malignant Adnexal Tumors and Paget Disease	214
E.	Foreign Body Granuloma	197	A.	Malignant Adnexal Tumors	214
			B.	Paget Disease	214
			C.	Extramammary Paget Disease	215

21.4 Basal Cell Carcinoma	216	23 Hematopoietic Tumors	240
A. Basal Cell Carcinoma	216	23.1 Cutaneous Lymphomas	240
B. Nevroid Basal Cell Carcinoma Syndrome (Gorlin-Goltz syndrome)	218	A. Definition and Classification	240
21.5 Squamous Cell Carcinoma and Metastases	220	B. Epidemiology	240
A. Carcinomata In Situ	220	C. Pathogenesis	240
B. Squamous Cell Carcinoma	222	D. Parapsoriasis	240
C. Variants of Squamous Cell Carcinoma	224	E. Mycosis Fungoides	240
D. Skin Metastases	224	F. Sézary Syndrome	242
22 Tumors of the Dermis and Subcutis	226	G. Other Cutaneous T-cell Lymphomas	242
22.1 Benign Tumors of Fat and Connective Tissue	226	H. Cutaneous B-cell Lymphomas	242
A. Benign Tumors of Fat	226	I. Pseudolymphoma	242
B. Benign Tumors of Connective Tissue	226	23.2 Mast Cell Disorders	244
22.2 Other Benign Soft-tissue Tumors	228	A. Introduction	244
A. Leiomyoma	228	B. Mastocytoma	244
B. Rhabdomyoma	228	C. Urticaria Pigmentosa	244
C. Osteoma	228	D. Telangiectasia Macularis Eruptive Perstans	244
D. Chondroma	228	E. Systemic Mastocytosis	244
22.3 Soft-tissue Sarcomas	230	23.3 Histiocytoses and Leukemia	246
A. Dermatofibrosarcoma Protuberans	230	A. Langerhans Cell Disease	246
B. Other Cutaneous Sarcomas	230	B. Sinus Histiocytosis with Massive Lymphadenopathy	246
22.4 Vascular Malformations	232	C. Juvenile Xanthogranuloma	248
A. Capillary Malformations	232	D. Other Macrophage Disorders	248
B. Venous Malformations	232	E. Leukemia	248
C. Lymphatic Malformations	232	24 Disorders of Melanocytes and Pigmentation	250
D. Arteriovenous Malformations	232	24.1 Vitiligo and Albinism	250
E. Therapy	232	A. Vitiligo	250
F. Acroangiodermatitis	232	B. Albinism	250
G. Glomus Tumor	232	C. Piebaldism	251
22.5 Hemangiomas and Other Benign Vascular Tumors	234	24.2 Melanotic Spots and Melanocytic Nev	252
A. Infantile Hemangioma	234	A. Melanotic Spots	252
B. Pyogenic Granuloma	234	B. Melanocytic Nev	252
C. Eruptive Angioma	235	24.3 Melanoma	256
22.6 Malignant and Other Vascular Tumors	236	A. Definition	256
A. Kaposi Sarcoma	236	B. Epidemiology	256
B. Angiosarcoma	236	C. Pathogenesis	256
C. Other Vascular Tumors	236	D. Clinical Features	256
22.7 Neural Tumors	238	E. Histopathology	258
A. Benign Neural Tumors	238	F. Differential Diagnosis	258
B. Merkel Cell Carcinoma	238	G. Diagnostic Approach	258
		H. Prognosis	258
		I. Therapy	260

25	Diseases of the Vascular System . . .	262	27	Cutaneous Signs of Systemic Diseases	28
25.1	Vasculitis and Purpura	262	27.1	Amyloidosis and Hyalinosis	28
A.	Definition	262	A.	Pathogenesis	28
B.	Classification	262	B.	Systemic Amyloidosis	28
C.	Large-vessel Vasculitis	262	C.	Cutaneous Amyloidosis	28
D.	Mid-sized-vessel Vasculitis	262	D.	Hyalinosis	28
E.	Small-vessel Vasculitis	262	27.2	Diabetes Mellitus	28
F.	Leukocytoclastic Vasculitis	262	A.	Overview	28
G.	Therapy	264	B.	Cutaneous Infections	28
H.	Septic Vasculitis	264	C.	Diabetes-associated Dermatoses	28
I.	Thromboangiitis Obliterans	264	D.	Diabetic Neurovascular Disease	28
J.	Purpura	264	E.	Complications of Therapy	28
K.	Pigmented Purpuric Dermatoses	264	27.3	Endocrine Disorders	28
L.	Antiphospholipid Syndrome	266	A.	Pituitary Gland	28
M.	Livedo Vasculitis	266	B.	Thyroid Gland	28
N.	Pyoderma Gangrenosum	266	C.	Parathyroid Glands	28
O.	Behçet Disease	266	D.	Adrenal Glands	28
25.2	Diseases of Veins	268	E.	Pancreas	28
A.	Anatomy and Physiology	268	F.	Polyendocrine Diseases	28
B.	Chronic Venous Insufficiency	268	27.4	Gammopathies and Cryoglobulinemia	28
C.	Thrombophlebitis	270	A.	Gammopathy	28
D.	Deep Vein Thrombosis	270	B.	Clinical Disorders	28
26	Diseases of Adnexal Structures . . .	272	C.	Gammopathy-associated Diseases	28
26.1	Acne	272	27.5	Hepatic and Renal Diseases	29
A.	Epidemiology and Pathogenesis	272	A.	Cutaneous Signs of Hepatic Disease	29
B.	Clinical Features	272	B.	Cutaneous Signs of Specific Liver Diseases	29
C.	Therapy	272	C.	Cutaneous Signs of Renal Failure/ Dialysis	29
26.2	Rosacea	274	D.	Cutaneous Diseases with Renal Involvement	29
A.	Epidemiology and Pathogenesis	274	27.6	Gastrointestinal Diseases	29
B.	Clinical Features	274	A.	Cutaneous Signs of Gastrointestinal Disease	29
C.	Therapy	274	B.	Cutaneous Signs of Gastrointestinal Malignancy	29
26.3	Diseases of the Sweat Glands . . .	276	C.	Inflammatory Bowel Disease	29
A.	Primary Hyperhidrosis	276	27.7	Metabolic Diseases	29
B.	Secondary Hyperhidrosis	276	A.	Disorders of Lipid Metabolism	29
C.	Hypohidrosis and Anhidrosis	276	B.	Gout	29
D.	Chromhidrosis and Bromhidrosis	276	C.	Hemochromatosis	29
E.	Inflammatory Diseases	276	D.	Calcification	29
26.4	Diseases of the Hair	278	E.	Fabry Disease	29
A.	Alopecia	278	27.8	Neurologic Diseases	29
B.	Hair Shaft Anomalies	278	A.	Neuropathic Skin Damage	29
C.	Hypo- and Hypertrichosis	278	B.	Neurocutaneous Diseases	29
D.	Hirsutism	278	27.9	Paraneoplastic Disorders	29
26.5	Diseases of the Nails	280	A.	Cutaneous Signs of Internal Malignancy	29
A.	Changes in the Nail Plate	280	B.	Obligate Paraneoplastic Markers	29
B.	Changes in Nail Color	280	C.	Possible Paraneoplastic Markers	29
C.	Genetic Nail Anomalies	280			
D.	Tumors of Nail Region	280			

28	Skin Diseases in Different Stages of Life	300	32.3	Other Viruses	324
28.1	Skin Diseases in Infancy	300	A.	Pox Viruses	324
A.	Unique Features of Infantile Skin	300	B.	Picornia Viruses	324
B.	Skin Diseases in Infancy	300	C.	Classic Viral Infections of Childhood	326
28.2	Skin Diseases during Pregnancy	302	D.	Other Viral Exanthems	326
A.	Physiologic Skin Changes	302	33	Bacterial Diseases	328
B.	Dermatoses of Pregnancy	302	33.1	Staphylococci and Streptococci	328
C.	Infections in Pregnancy	302	A.	Impetigo	328
28.3	Skin Diseases in the Elderly	304	B.	Folliculitis, Furuncle, and Carbuncle	328
A.	Skin Aging	304	C.	Staphylococcal Scalded Skin Syndrome	328
B.	Features of Aging Skin	304	D.	Erysipelas	328
C.	Diseases of Aging Skin	304	E.	Other Deep Infections	330
29	Adverse Drug Reactions	306	F.	Other Infections	330
29.1	Adverse Drug Reactions	306	G.	Toxic Shock Syndromes	330
A.	Overview	306	H.	Scarlet Fever	330
B.	Severe Skin Reactions	306	33.2	Corynebacteria and Other Gram-positive Bacteria	332
C.	Classic Drug Reactions	306	A.	Corynebacteria	332
D.	Unique Drug Reactions	308	B.	Other Gram-positive Bacteria	332
30	Genodermatoses	310	33.3	Gram-negative Bacteria and Bites	334
30.1	Neurocutaneous Genodermatoses	310	A.	Gram-negative Folliculitis	334
A.	Neurofibromatosis	310	B.	Whirlpool Dermatitis	334
B.	Tuberous Sclerosis	310	C.	Gram-negative Toe-web Infection	334
C.	Ataxia-telangiectasia	311	D.	Cat Scratch Disease	334
30.2	Light-sensitive Genodermatoses	312	E.	Yersiniosis	334
A.	Porphyria	312	F.	Clostridia Infections	334
B.	Xeroderma Pigmentosum	312	G.	Bite Injuries	334
30.3	Cancer-associated Genodermatoses	314	33.4	Borrelia and Other Spirochetes	336
A.	Cancer-associated Syndromes	314	A.	Lyme Borreliosis	336
31	Psychocutaneous Diseases	316	B.	Other Spirochetal Infections	336
31.1	Psychocutaneous Diseases	316	33.5	Mycobacteria	338
A.	Primary Psychiatric Disorders	316	A.	Skin Tuberculosis in Anergic Patients	338
B.	Psychosomatic Disorders	316	B.	Skin Tuberculosis in Patients with Normal Resistance	338
C.	Secondary Psychiatric Disorders	316	C.	Leprosy	338
32	Viral Diseases	318	D.	Atypical Mycobacteria	340
32.1	Human Papillomaviruses	318	34	Fungal Diseases	342
A.	Clinical Features	318	34.1	Dermatophytes	342
B.	Therapy	318	A.	Tinea Capitis	342
32.2	Human Herpes Viruses	320	B.	Tinea Barbae	342
A.	Herpes Simplex Virus	320	C.	Tinea Pedis and Manus	342
B.	Varicella Zoster Virus	320	D.	Tinea Corporis and Faciei	342
C.	Epstein-Barr Virus	322	E.	Tinea Inguinalis	342
D.	Cytomegalovirus	322	F.	Tinea Unguium	342
E.	Human Herpes Virus 6	322	G.	Special Variants	342
F.	Human Herpesvirus 8	322			

34.2 Yeasts	346	D. Syphilis in HIV	364
A. Malassezia	346	E. Diagnostic Approach	366
B. Candida	346	F. Therapy	366
C. Therapy	348	36.3 Other Venereal Diseases	368
34.3 Subcutaneous and Systemic Mycoses	350	A. Lymphogranuloma Venereum	368
A. Subcutaneous Mycoses	350	B. Chancroid	368
B. Systemic Mycoses	350	C. Granuloma Inguinale	368
35 Parasitic Diseases	352	37 HIV/AIDS	370
35.1 Protozoa	352	37.1 HIV/AIDS	370
A. Leishmaniasis	352	A. Epidemiology	370
B. Trichomoniasis	352	B. Pathogenesis	370
C. Amebiasis	352	C. Clinical Classification	370
35.2 Worms	354	D. Viral Infections	370
A. Cutaneous Larva Migrans	354	E. Fungal Infections	372
B. Cercarial Dermatitis	354	F. Bacterial Infections	372
C. Subcutaneous Dirofilariasis	354	G. Cancers	372
D. Onchocerciasis	354	H. Dermatoses	374
E. Schistosomiasis	354	I. Diagnostic Approach	374
35.3 Arthropods	356	J. Therapy	374
A. Pediculosis	356	38 Environmental Diseases	376
B. Cimicosis	356	38.1 Nutritional Disorders	376
C. Pulicosis	356	A. Nutritional Requirements	376
D. Tungiasis	356	B. Malnutrition	376
E. Myiasis	356	C. Eating Disorders	376
F. Caterpillar Dermatitis	356	D. Zinc	376
G. Scabies	358	E. Iron	378
H. Demodicosis	358	F. Copper	378
I. Accidental Parasitic Mites	358	G. Vitamins	378
J. Ticks	359	38.2 Photodermatoses	380
36 Sexually Transmitted Diseases ...	360	A. Overview	380
