Table of contents

Part I: Preliminaries

Chapter 1: Description of the topic and state of the art

1.1 Description of the topic: Sort of a lot of size and type nouns

1.1.1 Size noun constructions

1.1.2 Type noun constructions

1.2 State of the art: reference grammars and theoretically-oriented literature on size and type nouns

1.2.1 Discussions of SNs in the literature

1.2.2 Discussions of TNs in the literature

1.2.3 Conclusions: a joint treatment of SN- and TN-constructions

Chapter 2: A cognitive-functional constructional framework for the English NP

2.1 Requirements of a framework for SN- and TN-constructions

2.1.1 Halliday’s systemic-functional approach

2.1.2 Langacker (1991): A radical functional account underpinned by dependency

2.1.3 McGregor’s semiotic grammar: Syntactic combinatorics in the NP

2.1.4 Conclusion: An eclectic functional model of the NP

2.2 A constructional framework of the English NP

2.2.1 Elaborating the functional model: SN- and TN-patterns as partially filled constructions

2.2.2 Background: From idioms to Construction Grammar
2.2.3 CxG as a family of constructional approaches: General tenets 63
2.2.4 A construction grammar approach to SN- and TN-patterns 68

2.3 Conclusion: A dynamic model of the NP
for SN- and TN-constructions 78

Chapter 3: Grammaticalization, delexicalization and subjectification in SN- and TN-constructions 79

3.1 Grammaticalization, synchronic variation and emergent grammar 79

3.2 Grammaticalization: Changing perspectives 80
  3.2.1 A morphology-based approach to grammaticalization 82
  3.2.2 Criticism of Lehmann’s parameters and semantico-pragmatic approaches to grammaticalization 83
  3.2.3 A construction-based approach to grammaticalization 86
  3.2.4 Criticism of grammaticalization research 91
  3.2.5 Discussion and conclusion 92

3.3 Grammaticalization of SN- and TN-constructions:
  From source to target construction 93

3.4 Factors at work in the grammaticalization of SN- and TN-constructions 94
  3.4.1 Reanalysis and analogy 96
  3.4.2 Semantic changes, layering and persistence, (inter)subjectification 103
  3.4.3 Decategorialization: A positive interpretation 111
  3.4.4 Paradigmaticization: A dynamic interpretation 113
  3.4.5 Syntactic extension 113
  3.4.6 Coalescence and phonetic erosion 115
  3.4.7 Frequency 116
  3.4.8 Cyclical processes of renewal 117
  3.4.9 Lexicalization and grammaticalization 118

4.8.2 Introduction to the data and methodological issues 217
4.8.3 Quantitative and qualitative data analysis 218
4.8.4 Discussion and conclusion 228

4.9 Synchronic layering of SN-constructions 229

Chapter 5: Small SN-constructions 234

5.1 Introduction: Similarities and differences between regular SNs and SSNs as sets of meso-constructions 234
5.2 Description of the corpus data and methodological issues 238
5.3 Hoffmann (2004): Frequency and analogy in low-frequency complex prepositions 240
5.4 Polarity sensitive contexts in SSN-constructions 243
5.5 Individual discussions of SSN-constructions 245
  5.5.1 Bit of 248
  5.5.2 Positive polarity SSNs 252
  5.5.3 Negative polarity SSNs 254
5.6 Discussion and conclusions 263

Chapter 6: TN-constructions 270

6.1 Introduction 270
6.2 Description of the synchronic data sets 273
6.3 Classification of NP-internal TN-uses and extended uses 274
  6.3.1 Head use construction 275
  6.3.2 Quantifier construction 281
  6.3.3 Modifier uses 284
  6.3.4 Postdeterminer use 292
  6.3.5 Qualifying use 307
  6.3.6 Discourse marker use 317
6.3.7 Marker of onomatopoeia and quoted speech and thought 319
6.3.8 Ambivalent contexts 320
6.3.9 Conclusion: Synchronic layering of TN-constructions and comparison with S(S)N-constructions 326
6.4 Register analysis of the functions of TN-constructions 331
6.5 Diachronic case study of sort(s), kind(s) and type(s) 335
   6.5.1 Introduction 335
   6.5.2 Data sets and methodology 336
   6.5.3 Nominal constructions with type nouns 337
   6.5.4 Diachronic paths of change and chronology 345
   6.5.5 Summary 353
6.6 Conclusion 355
