

Table of Contents

Preface of the Editor	I
Foreword of the Author	III
Abstract	V
Table of Contents.....	VII
List of Figures	XI
List of Tables.....	XII
List of Abbreviations.....	XV
1. Introduction	1
1.1 Problem Statement.....	1
1.2 Need of Study and Motivation.....	3
1.3 Organization of this Thesis.....	6
2. Theoretical Foundations on Entry Mode Decision for Investment in foreign Real Estate Markets	9
2.1 Introduction	9
2.2 Principles of International Real Estate Investments.....	9
2.2.1 Definition and Characteristics of Commercial Real Estate Investments.....	9
2.2.2 Real Estate Investors and their Rationale for Real Estate Investments.....	11
2.2.3 Motivation for and Importance of Investing outside national Boundaries.....	15
2.2.3.1 Lack of Options in Domestic Markets.....	15
2.2.3.2 Portfolio Advantages of International Diversification	17
2.2.4 Overview on Entry Modes.....	20
2.2.5 Value Creation Strategies	23
2.3 Theoretical Foundations of International Real Estate Investment Decisions.....	24
2.3.1 Review of previous Theories in International Decision Making.....	24
2.3.1.1 Theory of Market Imperfections.....	26
2.3.1.2 Theory of Psychic Distance.....	26
2.3.1.3 Transaction Cost Theory	29
2.3.2 The Eclectic Theory and Extensions towards a Model for International Real Estate Investment Decision Theory.....	31
2.3.2.1 The O-L-I Decision Framework.....	31
2.3.2.2 The O-P-L-I Decision Framework	34
2.3.3 Synthesis	37
2.4 Internalization Advantage and Particularities associated with Entry Modes in Real Estate Markets	38
2.4.1 Direct Real Estate Investments.....	39
2.4.1.1 Entry Barriers implied by Market Imperfections	39
2.4.1.2 Importance of Control and Ownership	43
2.4.1.3 Portfolio Considerations.....	44
2.4.2 Indirect Equity Real Estate Investments (unlisted).....	45
2.4.2.1 Access to New Markets and New Products.....	45
2.4.2.2 Portfolio Considerations.....	46
2.4.2.3 Problems with the Separation of Ownership and Control.....	47

2.4.3	Non-Equity Entry Modes	48
2.4.4	Synthesis: Ideal Entry Strategy and Empirical Evidence.....	49
2.5	Concluding Remarks	52
3.	Particularities of Target Market Selection and Determinants of International Real Estate Investments.....	54
3.1	Introduction	54
3.2	Theoretical Foundations and Particularities of Market Selection	54
3.2.1	An Institutional Perspective on Maturity and Transparency.....	54
3.2.2	The ideal Real Estate Asset Allocation Process.....	57
3.2.3	General Particularities of Property Market Performance Data	59
3.2.4	Synthesis: Importance of the Assessment of a Market's Investment Conditions.....	61
3.3	Determinants of a Host's Country Attractiveness for Real Estate Investments and Development of a Conceptual Framework.....	62
3.3.1	Economic Activity.....	62
3.3.2	Real Estate Investment Opportunities.....	63
3.3.3	Depth and Sophistication of Capital Market.....	63
3.3.4	Investor Protection and Quality of Legal Framework.....	64
3.3.5	Administrative Burdens and Regulatory Limitations.....	65
3.3.6	Socio-cultural and Political Environment	66
3.3.7	Synthesis: The Conceptual Framework of Attractiveness	67
3.4	Cross-Country Methods used in International Research to assess the Attractiveness of Countries	68
3.4.1	Qualitative Methods	69
3.4.2	Artificial Intelligence Methods	70
3.4.3	Cross-country Composite Indicators	73
3.4.3.1	Composite Indices and Ratings in Finance Theory.....	75
3.4.3.2	Composite Indices in Real Estate Literature	78
3.4.4	Synthesis: Why another Index?.....	84
3.5	Concluding Remarks	85
4.	Methodology and Research Design.....	86
4.1	Key Hypotheses and Research Framework.....	86
4.1.1	Which are the most important Factors that determine Investment Activity?.....	87
4.1.2	Which Country is the most attractive for Real Estate Investments?.....	88
4.2	Description of the Database	88
4.2.1	Description of the Independent Variables.....	88
4.2.2	Description of the Dependent Variable	92
4.3	Concluding Remarks	94
5.	Empirical Part I: The Importance of Factors determining International Real Estate Investments.....	95
5.1	Introduction	95
5.2	Methodology of Panel Data Analysis.....	95
5.2.1	Motivation for Panel Regression Analysis.....	95
5.2.2	Models of Panel Regression Analysis.....	98
5.2.3	Augmented Panel Regression Analysis.....	102
5.2.4	Multicollinearity Problems.....	105

5.3	Presentation and Interpretation of Results.....	107
5.3.1	Overall Factors Determining Real Estate Investments.....	107
5.3.2	Sub-Level Factors Determining Real Estate Investments	109
5.3.2.1	Sub-Level: Economic Activity	109
5.3.2.2	Sub-Level: Real Estate Investment Opportunities.....	111
5.3.2.3	Sub-Level: Depth and Sophistication of Capital Markets.....	113
5.3.2.4	Sub-Level: Investor Protection and Legal Framework.....	115
5.3.2.5	Sub-Level: Administrative Burdens and Regulatory Limitations	117
5.3.2.6	Sub-Level: Socio-cultural and Political Environment.....	119
5.3.2.7	Sub-Level: Summary of Findings	120
5.4	Limitations of the Model	121
5.5	Concluding Remarks	122
6.	Empirical Part II: Development of the Global REIA Index.....	123
6.1	Introduction	123
6.2	Methodology.....	123
6.2.1	General Requirements for the Construction of Composite Indices	123
6.2.2	Consistency and Reliability of Data	125
6.2.3	Normalization Techniques.....	126
6.2.4	Aggregation Techniques.....	129
6.2.5	Weighting Techniques.....	131
6.2.5.1	Equal Weighting.....	131
6.2.5.2	Factor Analysis.....	133
6.2.5.3	Optimized Multi-Factor Model	137
6.3	Explanatory Power of the Global REIA Index	142
6.3.1	Back-Testing.....	142
6.3.2	Sensitivity Analysis	143
6.3.3	Comparison with Alternative Indices.....	144
6.3.4	Forecasting Capacity	146
6.4	Critical Aspects and Conclusion.....	147
7.	Presentation of the Results of the Global REIA Index and Implications for International Investment Decisions	150
7.1	Introduction	150
7.2	The Global Real Estate Investment Attractiveness Index	150
7.2.1	Global Country Ranking and Regional Patterns of Attractiveness	150
7.2.2	Strengths and Weaknesses on Level 3.....	153
7.3	Dynamics of Real Estate Markets	155
7.3.1	Improvements and Deteriorations of Ranking Positions.....	155
7.3.2	Clustering Stages of Attractiveness	158
7.4	Applications of the Global REIA Index in Praxis	159
7.4.1	Entry Mode Decision.....	159
7.4.2	Development of Model Allocations for an International Investment Program	160
7.4.3	Hurdle-Rates for Emerging Market Entry Decision.....	161
7.5	Concluding Remarks	163
8.	Conclusion	165
	Appendix A: Description of the Data Sample and Sources	167

Appendix B: Correlation Analyses for Panel Regression.....	176
Appendix C: Factor Analyses.....	190
Appendix D: Detailed Tables	207
References	208
Statutory Declaration.....	237
