# Table of Contents

List of Reviewers .................................................................................................................. 1

## Plenary Sessions

Dynamics and Diversity: Exploring European and Transnational Perspectives on Digital Humanities Research Infrastructures  
*Moulin, Claudine* ............................................................................................................. 9

Embracing a Distant View of the Digital Humanities  
*Shimoda, Masahiro* ......................................................................................................... 11

## Pre-conference Workshops

### Digital Methods in Manuscript Studies

*Brockmann, Christian; Wangchuk, Dorji* ................................................................. 15

### Introduction to Stylomatic Analysis using R

*Eder, Maciej; Rybicki, Jan* ............................................................................................. 16

### NeDiMAH workshop on ontology based annotation

*Eide, Øyvind; Ore, Christian-Emil; Rahtz, Sebastian* ..................................................... 18

### Service-oriented Architectures (SOAs) for the Humanities: Solutions and Impacts

*Hinrichs, Erhard; Neuroth, Heike; Wittenburg, Peter* ...................................................... 20

### Here and There, Then and Now – Modelling Space and Time in the Humanities

*Isaksen, Leif; Day, Shawn; Andresen, Jens; Hyvönen, Eero; Mäkelä, Eetu* ....................... 22

### Crowdsourcing meaning: a hands-on introduction to CLÉA, the Collaborative Literature Exploration and Annotation Environment

*Petris, Marco; Gius, Evelyn; Schüch, Lena; Meister, Jan Christoph* ............................... 24

### Learning to play like a programmer: web mash-ups and scripting for beginners

*Ridge, Mia* ..................................................................................................................... 25

### Introduction to Distant Reading Techniques with Voyant Tools, Multilingual Edition

*Sinclair, Stéfan; Rockwell, Geoffrey* .............................................................................. 26

### Towards a reference curriculum for the Digital Humanities

*Thaller, Manfred* ........................................................................................................ 27

### Free your metadata: a practical approach towards metadata cleaning and vocabulary reconciliation

*van Hooland, Seth; Verborgh, Ruben; De Wilde, Max* .................................................... 28

## Panels

### Text Analysis Meets Text Encoding

*Bauman, Syd; Hoover, David; van Dalen-Oskam, Karina; Piez, Wendell* ....................... 33

### Designing Interactive Reading Environments for the Online Scholarly Edition

*Blandford, Ann; Brown, Susan; Dobson, Teresa; Faisal, Sarah; Fiorentino, Carlos; Frizzera, Luciano; Gaiacmetti, Alejandro; Heller, Brooke; Ilovan, Mihaela; Michura, Piotr; Nelson, Brent; Radzikowska, Milena; Rockwell, Geoffrey; Ruecker, Stan; Sinclair, Stéfan; Sondheim, Daniel; Warwick, Claire; Windsor, Jennifer* .......................................................... 35

Bibliografische Informationen  
http://d-nb.info/1024545237
Developing the spatial humanities: Geo-spatial technologies as a platform for cross-disciplinary scholarship

Bodenhamer, David; Gregory, Ian; Ell, Paul; Hallam, Julia; Harris, Trevor; Schwartz, Robert

Prosopographical Databases, Text-Mining, GIS and System Interoperability for Chinese History and Literature

Bol, Peter Kees; Hsiang, Jieh; Fong, Grace

Future Developments for TEI ODD

Cummings, James; Rahtz, Sebastian; Burnard, Lou; Bauman, Syd; Gaiffe, Bertrand; Romary, Laurent; Bański, Piotr

Compiling large historical reference corpora of German: Quality Assurance, Interoperability and Collaboration in the Process of Publication of Digitized Historical Prints

Geyken, Alexander; Gloning, Thomas; Stäcker, Thomas

Computational models of narrative structure

Löwe, Benedikt; Fisseni, Bernhard; León, Carlos; Bod, Rens

Approaches to the Treatment of Primary Materials in Digital Lexicons: Examples of the New Generation of Digital Lexicons for Buddhist Studies

Nagasaki, Kiyonori; Tomabechi, Toru; Wangchuk, Dorji; Takahashi, Koichi; Wallman, Jeff; Muller, A. Charles

Topic Modeling the Past

Nelson, Robert K.; Mimno, David; Brown, Travis

Facilitating Research through Social-Document Networks

Pitti, Daniel; Simon, Agnès; Vitali, Stefano; Arnold, Kerstin

Digital Humanities as a university degree: The status quo and beyond

Thaller, Manfred; Sahle, Patrick; Clavaud, Florence; Clement, Tanya; Fiormonte, Domenico; Pierazzo, Elena; Rehbein, Malte; Rockwell, Geoffrey; Schreibman, Susan; Sinclair, Stéfan

Papers

Exploring Originality in User-Generated Content with Network and Image Analysis Tools

Akdag Salah, Alkim Almila; Salah, Albert Ali; Douglass, Jeremy; Manovich, Lev

Patchworks and Field-Boundaries: Visualizing the History of English

Alexander, Marc

Developing Transcultural Competence in the Study of World Literatures: Golden Age Literature Glossary Online (GALGO)

Alonso Garcia, Nuria; Caplan, Alison

Trees of Texts – Models and methods for an updated theory of medieval text stemmatology

Andrews, Tara Lee; Macé, Caroline

Mapping the Information Science Domain

Arazy, Ofer; Ruecker, Stan; Rodríguez, Omar; Giacometti, Alejandro; Zhang, Lu; Chun, Su
Words made Image. Towards a Language-Based Segmentation of Digitized Art Collections
Armaselu, Florentina ........................................................................................................ 91

HisDoc: Historical Document Analysis, Recognition, and Retrieval
Baechler, Micheal; Fischer, Andreas; Najj, Nada; Ingold, Rolf; Bunke, Horst; Savoy, Jacques ......................................................................................................................... 94

Research infrastructures for Digital Humanities: The local perspective
Bärenfänger, Maja; Binder, Frank ........................................................................................ 97

Pelagios: An Information Superhighway for the Ancient World
Barker, Elton; Simon, Rainer; Isaksen, Leif ...................................................................... 99

Putting TEI Title to use – generating a database resource from a printed dictionary or reference type publication
Barnes-Rasmussen, Michael ............................................................................................. 102

Digital Humanities in the Classroom: Introducing a New Editing Platform for Source Documents in Classics
Beaulieu, Marie-Claire; Almas, Bridget ........................................................................... 105

DiaView: Visualise Cultural Change in Diachronic Corpora
Beavan, David .................................................................................................................. 107

Catch + Release: Research and Creation of a Digital New Media Exhibition in the Context of a Cultural and Heritage Museum
Beer, Ruth ....................................................................................................................... 109

Opportunity and accountability in the ‘eResearch push’
Bellamy, Craig ................................................................................................................ 111

Connecting European Women Writers. The Selma Lagerlöf Archive and Women Writers Database
Bergenmar, Jenny; Olsson, Leif-Jöran ............................................................................... 113

Stylometric Analysis of Chinese Buddhist texts: Do different Chinese translations of the ‘Gandhavyuha’ reflect stylistic features that are typical for their age?
Bingenheimer, Marcus; Hung, Jen-Jou; Hsieh, Cheng-en ............................................. 115

Information Extraction on Noisy Texts for Historical Research
Blanke, Tobias; Bryant, Michael; Speck, Reto; Kristel, Conny ........................................ 117

Modeling Gender: The ‘Rise and Rise’ of the Australian Woman Novelist
Bode, Katherine ............................................................................................................... 119

Contextual factors in literary quality judgments: A quantitative analysis of an online writing community
Boot, Peter ....................................................................................................................... 121

Violence and the Digital Humanities Text as Pharmakon
Bradley, Adam James ....................................................................................................... 123

Towards a bibliographic model of illustrations in the early modern illustrated book
Bradley, John; Pigney, Stephen ...................................................................................... 124

Automatic Mining of Valence Compounds for German: A Corpus-Based Approach
Brock, Anne; Henrich, Verena; Hinrichs, Erhard; Versley, Yannick ................................. 126
Networks of networks: a critical review of formal network methods in archaeology through citation network analysis and close reading

Brughmans, Tom .................................................................................................................. 129

On the dual nature of written texts and its implications for the encoding of genetic manuscripts

Brüning, Gerrit; Henzel, Katrin; Pravida, Dietmar ................................................................ 131

Automatic recognition of speech, thought and writing representation in German narrative texts

Brunner, Annelen .................................................................................................................. 135

Bringing Modern Spell Checking Approaches to Ancient Texts – Automated Suggestions for Incomplete Words

Büchler, Marco; Kruse, Sebastian; Eckart, Thomas ................................................................ 137

Designing a national ‘Virtual Laboratory’ for the humanities: the Australian HuNI project

Burrows, Toby Nicolas ......................................................................................................... 139

Beyond Embedded Markup

Buzzetti, Dino; Thaller, Manfred ........................................................................................ 142

Myopia: A Visualization Tool in Support of Close Reading

Chaturvedi, Manish; Gannod, Gerald; Mandell, Laura; Armstrong, Helen; Hodgson, Eric ................................................................................................................................. 148

Translation Arrays: Exploring Cultural Heritage Texts Across Languages

Cheesman, Tom; Thiel, Stephan; Flanagan, Kevin; Zhao, Geng; Ehrmann, Alison; Laramee, Robert S.; Hope, Jonathan; Berry, David M ........................................................................................................... 151

Constructing a Chinese as Second Language Learner Corpus for Language Learning and Research

Chen, Howard ...................................................................................................................... 154

Social Curation of large multimedia collections on the cloud

Chong, Dazhi; Coppage, Samuel; Gu, Xiangyi; Maly, Kurt; Wu, Harris; Zubair, Mohammad ................................................................................................................................. 155

Sounding for Meaning: Analyzing Aural Patterns Across Large Digital Collections

Clement, Tanya; Auvil, Loretta; Tcheng, David; Capitanu, Boris; Monroe, Megan; Goel, Ankita ................................................................................................................................. 158

The Programming Historian 2: A Participatory Textbook

Crymble, Adam H.; MacEachern, Alan; Turkel, William J ................................................................................................................................. 162

Multilingual and Semantic Extension of Folk Tale Catalogues

Declerck, Thierry; Lendvaui, Piroska; Darányi, Sándor ................................................................ 163

Digital Language Archives and Less-Networked Speaker Communities

Dobrin, Lise M ..................................................................................................................... 167

Language Documentation and Digital Humanities: The (DoBeS) Language Archive

Drude, Sebastian; Trilsbeek, Paul; Broeder, Daan ................................................................ 169

The potential of using crowd-sourced data to re-explore the demography of Victorian Britain

Duke-Williams, Oliver William ............................................................................................ 173

Experiments in Digital Philosophy – Putting new paradigms to the test in the Agora project

Hrachovec, Herbert; Carusi, Annamaria; Huentelmann, Raphael; Pichler, Alois; Antonio, Lamarra; Cristina, Marras; Alessio, Piccioli; Lou, Burnard

Information Discovery in the Chinese Recorder Index

Hsiang, Jieh; Kong, Jung-Wei; Sung, Allan

Complex Network Perspective on Graphic Form System of Hanzi

Hu, Jiajia; Wang, Ning

A Computer-Based Approach for Predicting the Translation Time Period of Early Chinese Buddhism Translation

Hung, Jen-Jou; Bingenheimer, Marcus; Kwok, Jieli

Bridging Multicultural Communities: Developing a Framework for a European Network of Museum, Libraries and Public Cultural Institutions

Innocenti, Perla; Richards, John; Wieber, Sabine

Ptolemy’s Geography and the Birth of GIS

Isaksen, Leif

Tracing the history of Noh texts by mathematical methods. Validating the application of phylogenetic methods to Noh texts

Iwata, Yoshimi

Computing and Visualizing the 19th-Century Literary Genome

Jockers, Matthew

Using the Google Ngram Corpus to Measure Cultural Complexity

Juola, Patrick

Katelnikoff, Joel

Evaluating Unmasking for Cross-Genre Authorship Verification

Kestemont, Mike; Luyckx, Kim; Daelemans, Walter; Crombez, Thomas

Literary Wikis: Crowd-sourcing the Analysis and Annotation of Pynchon, Eco and Others

Ketzan, Erik

Social Network Analysis and Visualization in ‘The Papers of Thomas Jefferson’

Klein, Lauren Frederica

VariaLog: how to locate words in a French Renaissance Virtual Library

Lay, Marie Hélène

DeRiK: A German Reference Corpus of Computer-Mediated Communication

Lemnitzer, Lothar; Beißwenger, Michael; Ermakova, Maria; Geyken, Alexander; Storrer, Angelika

Estimating the Distinctiveness of Graphemes and Allographs in Palaeographic Classification

Levy, Noga; Wolf, Lior; Dershowitz, Nachum; Stokes, Peter
Academic Research in the Blogosphere: Adapting to New Opportunities and Risks on the Internet
Littauer, Richard; Winters, James; Roberts, Sean; Little, Hannah; Pleyer, Michael; Benzon, Bill ................................................................. 268

Feeling the View: Reading Affective Orientation of Tagged Images
Liu, Jyi-Shane; Peng, Sheng-Yang .......................................................... 270

Characterizing Authorship Style Using Linguistic Features
Lucic, Ana; Blake, Catherine ................................................................. 273

Investigating the genealogical relatedness of the endangered Dagon languages
Moran, Steven; Prokic, Jelena ............................................................... 276

Landscapes, languages and data structures: Issues in building the Placenames Database of Ireland
Mechura, Michal Boleslav ..................................................................... 278

Interoperability of Language Documentation Tools and Materials for Local Communities
Nakhimovsky, Alexander; Good, Jeff; Myers, Tom ................................ 280

Content Creation by Domain Experts in a Semantic GIS System
Nakhimovsky, Alexander; Myers, Tom ................................................. 283

From Preserving Language Resources to Serving Language Speakers: New Prospects for Endangered Languages Archives
Nathan, David John .............................................................................. 286

Retrieving Writing Patterns From Historical Manuscripts Using Local Descriptors
Neumann, Bernd; Herzog, Rainer; Solth, Arved; Bestmann, Oliver; Scheel, Julian ...... 288

Distractorless Authorship Verification
Noecker Jr., John; Ryan, Michael ........................................................ 292

Cataloguing linguistic diversity: Glottolog/Langdoc
Nordhoff, Sebastian; Hammarström, Harald ........................................ 296

Geo-Temporal Interpretation of Archival Collections Using Neatline
Nowviskie, Bethany; Graham, Wayne; McClure, David; Boggs, Jeremy; Rochester, Eric ................................................................. 299

Enriching Digital Libraries Contents with SemLib Semantic Annotation System
Nucci, Michele; Grassi, Marco; Morbidoni, Christian; Piazza, Francesco .................. 303

The VL3: A Project at the Crossroads between Linguistics and Computer Science
Nuñez, Camelia Gianina; Mavillard, Antonio Jiménez .................................. 306

‘Eric, you do not humble well’: The Image of the Modern Vampire in Text and on Screen
Opas-Hänninen, Lisa Lena; Hettel, Jacqueline; Toljamo, Tuomo; Seppänen, Tapio .......... 308

Electronic Deconstruction of an argument using corpus linguistic analysis of its on-line discussion forum supplement
O’Halloran, Kieran Anthony .................................................................. 310

Citygram One: Visualizing Urban Acoustic Ecology
Park, Tae Hong; Miller, Ben; Shrestha, Ayush; Lee, Sangmi; Turner, Jonathan; Marse, Alex .............................................................................. 313
Towards Wittgenstein on the Semantic Web
   Pichler, Alois; Zöllner-Weber, Amélie ................................................................. 318

Uncovering lost histories through GeoStoryteller: A digital GeoHumanities project
   Rabina, Debbie L.; Cocciolo, Anthony ................................................................. 322

Workflows as Structured Surfaces
   Radzikowska, Milena; Ruecker, Stan; Rockwell, Geoffrey; Brown, Susan; Frizzera, Luciano; INKE Research Group ...................................................... 324

Code-Generation Techniques for XML Collections Interoperability
   Ramsay, Stephen; Pytlik-Zillig, Brian ................................................................. 327

Uncertain Date, Uncertain Place: Interpreting the History of Jewish Communities in the Byzantine Empire using GIS
   Rees, Gethin Powell ................................................................. 329

Code sprints and Infrastructure
   Reside, Doug; Fraistat, Neil; Vershbow, Ben; van Zundert, Joris Job ...................................................... 331

Digital Genetic Criticism of RENT
   Reside, Doug ................................................................. 333

On the Internet, nobody knows you’re a historian: exploring resistance to crowdsourced resources among historians
   Ridge, Mia ................................................................. 335

Formal Semantic Modeling for Human and Machine-based Decoding of Medieval Manuscripts
   Ritsema van Eck, Marianne Petra; Schomaker, Lambert ...................................................... 336

The Swallow Flies Swiftly Through: An Analysis of Humanist
   Rockwell, Geoffrey; Sinclair, Stéfan ................................................................. 339

   Rodriguez, Nuria; Baca, Murtha; Albrezzi, Francesca; Longaker, Rachel ...................................................... 342

Intertextuality and Influence in the Age of Enlightenment: Sequence Alignment Applications for Humanities Research
   Roe, Glenn H.; The ARTFL Project ................................................................. 345

Engaging the Museum Space: Mobilising Visitor Engagement with Digital Content Creation
   Ross, Claire Stephanie; Gray, Steven; Warwick, Claire; Hudson Smith, Andrew; Terras, Melissa ...................................................... 348

Aiding the Interpretation of Ancient Documents
   Roued-Cunliffe, Henriette ................................................................. 351

The Twelve Disputed ‘Federalist’ Papers: A Case for Collaboration
   Rudman, Joseph ................................................................. 353

Writing with Sound: Composing Multimodal, Long-Form Scholarship
   Sayers, Jentery ................................................................. 357

Intra-linking the Research Corpus: Using Semantic MediaWiki as a lightweight Virtual Research Environment
   Schindler, Christoph; Ell, Basil; Rittberger, Marc ...................................................... 359

Author Consolidation across European National Bibliographies
Freire, Nuno ..................................................................................... 450

XXVIII
Historical Events Versus Information Contents – A Preliminary Analysis of the National Geographic Magazine
Fujimoto, Yu ................................................................. 453

‘Tejiendo la Red HD’ – A case study of building a DH network in Mexico
Galina, Isabel; Priani, Ernesto; López, José; Rivera, Eduardo; Cruz, Alejandro ............. 456

Adaptive Automatic Gesture Stroke Detection
Gebre, Binyam Gebrekidan; Wittenburg, Peter ......................................................... 458

Towards a Transnational Multilingual Caribbean Digital Humanities Lab
Gil, Alexander .............................................................. 462

NUScholar: Digital Methods for Educating New Humanities Scholars
Graff, Ann-Barbara; Lucas, Kristin; Blustein, James; Gibson, Robin; Woods, Sharon ...... 463

Latent Semantic Analysis Tools Available for All Digital Humanities Projects in Project Bamboo
Hooper, Wallace Edd; Cowan, Will; Jiao, David; Walsh, John A. ................................. 465

Machine Learning for Automatic Annotation of References in DH scholarly papers
Kim, Young-Min; Bellot, Patrice; Faath, Elodie; Dacos, Marin ................................... 467

An Ontology-Based Iterative Text Processing Strategy for Detecting and Recognizing Characters in Folktales
Koleva, Nikolina; Declerck, Thierry; Krieger, Hans-Ulrich ........................................ 470

Integrated multilingual access to diverse Japanese humanities digital archives by dynamically linking data
Kuyama, Takeo; Batjargal, Biligsaikhan; Kimura, Fuminori; Maeda, Akira ..................... 473

Linguistic concepts described with Media Query Language for automated annotation
Lenkiewicz, Anna; Lis, Magdalena; Lenkiewicz, Przemyslaw ..................................... 477

Virtual Reproduction of Gion Festival Yamahoko Parade
Li, Liang; Choi, Woong; Nishiura, Takanobu; Yano, Keiji; Hachimura, Kozaburo .......... 480

Complex entity management through EATS: the case of the Gascon Rolls Project
Litta Modignani Picozzi, Eleonora; Norrish, Jamie; Monteiro Vieira, Jose Miguel .......... 483

TextGrid Repository – Supporting the Data Curation Needs of Humanities Researchers
Lohmeier, Felix; Veentjer, Ubbo; Smith, Kathleen M.; Söiring, Sibylle ......................... 486

RIgeo.net – A Lab for Spatial Exploration of Historical Data
Loos, Lukas; Zipf, Alexander .............................................................................. 488

Automatic Topic Hierarchy Generation Using Wordnet
Monteiro Vieira, Jose Miguel; Brey, Gerhard .............................................................. 491

Hypotheses.org, une infrastructure pour les Digital Humanities
Muscinesi, Frédérique ......................................................................................... 494

TXSTEP – an integrated XML-based scripting language for scholarly text data processing
Ott, Wilhelm; Ott, Tobias; Gasperlin, Oliver .............................................................. 497
