# Table of Contents

0 EXECUTIVE SUMMARY 5

1 INTRODUCTION 10
  1.1 Aim of the study 10
  1.2 Concept of food losses 10
  1.3 Concept of food value chain 11

2 METHODOLOGY 14

3 CASSAVA 17
  3.1 Cassava in Nigeria 17
  3.2 Cassava value chains
    3.2.1 Cassava production 22
    3.2.2 Cassava processing 22
    3.2.3 Cassava marketing 28
  3.3 Quantitative and qualitative analysis of losses in the cassava value chain
    3.3.1 Incidence of losses in the cassava value chain 28
    3.3.2 Quantification of losses in the cassava value chain 31
    3.3.3 Monetary quantification of losses in the cassava value chain 33

4 MAIZE 37
  4.1 Maize in Nigeria 37
  4.2 Value chains of maize grain and green maize
    4.2.1 Maize production 41
    4.2.2 Processing of maize into feed 42
    4.2.3 Maize marketing 43
  4.3 Quantitative and qualitative analysis of losses in the maize value chain
    4.3.1 Incidence of losses in maize value chain 43
    4.3.2 Quantification of losses in maize value chain 45
    4.3.3 Monetary quantification of losses in the maize value chain 47
    4.3.4 Maize storage facilities in the study areas 51

5 BY-PRODUCTS ALONG THE MAIZE AND CASSAVA VALUE CHAINS 52

6 OPTIONS FOR REDUCING FOOD LOSSES 53
  6.1 Technology 53
  6.2 Organisation of farmers along the value chain 53
  6.3 Infrastructure 54
  6.4 Human capacity development 55
  6.5 Credit policy 55
  6.6 Handling and processing policy 55
  6.7 Costs and benefits of intervention options 55
  6.8 Actors and Partners with potential roles in the control of post-harvest losses 56
