Foreword 9

1 Using Layers to Make Global and Selective Adjustments 15
1.1 Reasons for Using Layer Techniques 16
1.2 The Photoshop Layers Concept 18
1.3 Layers Panel 19
1.4 The Layers Panel Icons 23
1.5 Changing Layer Opacity 25
1.6 Blending Modes 26
1.7 Sample Layer-Based Processing Workflow 30
1.8 Using Fill Layers 35
1.9 Understanding Different Color Models 38
1.10 Some General Thoughts on Image Optimization 40
1.11 Best Practices When Working with Layers 42

2 Editing Images Using Adjustment Layers 45
2.1 Adjustment Layer Basics 46
2.2 Adjustment Layers Overview 50
2.3 An Example of a Curves Adjustment Layer 52
2.4 Selective Color Corrections Using Hue/Saturation 57
2.5 Converting an Image to Black-and-White Using Adjustment Layers 62
2.6 The Color Splash Technique 65
2.7 Adjusting Saturation Using the Vibrance Setting 67
2.8 Optimizing Skin Tones Using Color Balance 70
2.9 Adjusting the Mood of an Image Using Photo Filters 72
2.10 Color Lookup 74
2.11 Split Toning Using a Gradient Map 76
2.12 Image Analysis Using Adjustment Layers 79
2.13 General Considerations when Working with Adjustment Layers 83

3 Working with Layer Masks 85
3.1 Making Selective Adjustments Using Layer Masks 86
3.2 Simple Masks 89
3.3 Using Masks Multiple Times 91
3.4 From a Selection to a Mask and Back 94
3.5 Selection Tools Overview 96
3.6 Making Selections Using the Magic Wand, Magnetic Lasso, and Quick Selection Tools 97
3.7 Quick Mask Mode 99
3.8 Selecting and Masking Using the Color Range Command 100
