

TABLE OF CONTENTS

	Page:
LIST OF FIGURES _____	XIV
LIST OF TABLES _____	XVI
LIST OF ABBREVIATIONS _____	XXI
LIST OF VARIABLES _____	XXIIIV
LIST OF NATIONAL CODES _____	XXIV
CHAPTER 1 INTRODUCTION _____	1
1.1 Motivation _____	1
1.2 Outline of the dissertation _____	4
CHAPTER 2 GLOBALISATION, TRADE AND ICT _____	6
2.1 Aspects of globalisation _____	6
2.1.1 Globalisation defined _____	6
2.1.2 Waves of globalisation _____	7
2.1.3 Intensified trade _____	8
2.1.4 Reduced trade costs _____	8
2.1.4.1 Transport costs _____	9
2.1.4.1.1 Roads and railways _____	9
2.1.4.1.2 Shipping _____	9
2.1.4.1.3 Air transport _____	11
2.1.4.2 Time costs of transport _____	11
2.1.4.3 Communication and information costs _____	12
2.1.5 IT – a global general purpose technology _____	14
2.1.6 New organisational forms _____	14
2.2 Agri-food trade and globalisation _____	15
2.2.1 Trends in global agri-food markets _____	15
2.2.2 Multinational food processing and distribution companies _____	16
2.2.3 Tariffs and non-tariff trade barriers _____	18
2.2.4 Transport of agri-food products _____	20
2.2.4.1 Refrigerated and controlled atmosphere container transport _____	21
2.2.4.2 Temperature controlled air transport _____	23
2.3 ICT and globalisation _____	23

Table of contents

2.3.1	Fixed telephone lines	24
2.3.2	Mobile phones	25
2.3.3	Internet	29
CHAPTER 3 GRAVITY MODELS OF INTERNATIONAL BILATERAL TRADE		34
3.1	Gravity Models: a 'workhorse' of empirical trade analysis	34
3.2	Gravity models and theories of international trade	36
3.3	A selective review of applied gravity models	42
3.3.1	Agricultural and food products in gravity models	42
3.3.2	ICT in gravity models	46
3.3.3	Agri-food trade and ICT in gravity models	49
CHAPTER 4 PRODUCTS, VARIABLES AND DATA SOURCES		53
4.1	Selected products and their product classifications	53
4.2	The markets of the selected products	56
4.2.1	Beef	57
4.2.2	Fish	61
4.2.3	Wheat	63
4.2.4	Rice	66
4.2.5	Rye	68
4.2.6	Oranges	69
4.2.7	Banana	72
4.2.8	Tomatoes	75
4.2.9	Wine	77
4.2.10	Beer	79
4.2.11	Water	81
4.2.12	Cotton	83
4.2.13	Cut flowers	86
4.3	Country selection	88
4.3.1	Evaluation of country selection process for exporting countries	91
4.3.2	Evaluation of country selection process for importing countries	91
4.4	Gravity model variables for analysing bilateral trade flows	91
4.4.1	Country characterising variables	92
4.4.1.1	Economic mass	92
4.4.1.2	Population	94
4.4.1.3	Landlocked countries	95
4.4.1.4	Island countries	95
4.4.2	Country pair characteristics	96
4.4.2.1	Adjacencies	96

4.4.2.2	Language	96
4.4.2.3	Distance and transport costs	97
4.4.2.4	Trade agreements	99
4.4.2.5	Shared history	100
4.4.3	ICT-variables	100
4.4.3.1	Internet access	100
4.4.3.2	Telephones access	102
4.5	Data sources	102
4.5.1	UN Comtrade	102
4.5.2	World Bank	104
4.5.3	ITU	104
4.5.4	Location, language and distance	105
4.5.5	Other sources	106
CHAPTER 5 PANEL DATA ANALYSIS AND ESTIMATION METHODS		108
5.1	Advantages and disadvantages of panel data	108
5.2	Panel data analysis	109
5.3	Hausman-Test	112
5.4	Estimation methods for gravity models	113
5.5	PPML-estimation	116
5.6	Negative binominal regression	117
5.7	Test for overdispersion	118
CHAPTER 6 ESTIMATION AND EMPIRICAL RESULTS		119
6.1	Checking data quality with Benford's Law	119
6.1.1	Benford's Law	119
6.1.2	Results of testing Benford's Law on data	121
6.2	Descriptive analysis of variables used in gravity models	123
6.2.1	Product categories	123
6.2.2	Neighbouring countries and common languages	128
6.2.3	GDP and population	128
6.2.4	Information and communication variables	129
6.2.4.1	Fixed telephone lines	131
6.2.4.2	Mobile phones	132
6.2.4.3	Internet	134
6.2.5	Distances between countries	135
6.3	List of hypotheses	137
6.4	Model specifications	140
6.5	Estimation procedure in STATA	143

Table of contents

6.6	Results of Hausman-tests for choosing between fixed and random effect models	144
6.7	Results of test for overdispersion	145
6.8	Goodness of fit of negative binominal regression	146
6.9	Results: Impact of ICT on trade	147
6.9.1	Influence of ICT variables	147
6.9.2	Influence of ICT variables as a group on trade value	149
6.9.3	Impact of ICT on trade by product information category	150
6.9.3.1	Organized exchange	152
6.9.3.2	Reference price	152
6.9.3.3	Heterogeneous	153
6.9.4	Impact of ICT on trade by product value category	153
6.9.4.1	Primary bulk commodities	155
6.9.4.2	Processed commodities	155
6.9.4.3	Produce and Horticulture	155
6.9.5	Impact of ICT on trade by product clusters	156
6.9.5.1	Cluster I – food & animal	157
6.9.5.2	Cluster II – cereals	157
6.9.5.3	Cluster III – vegetables & fruit	158
6.9.5.4	Cluster IV – beverages	158
6.9.5.5	Cluster V – crude materials	158
6.9.6	Impact of ICT on trade by digit levels	158
6.9.6.1	1-digit	160
6.9.6.2	2-digits	160
6.9.6.3	3-digits	160
6.9.6.4	4-digits	161
6.9.6.5	5-digits	161
6.9.7	Impact of ICT on agri-food trade in importing and exporting countries	161
6.9.8	Comparison of the impact of ICT on trade by specification OLS+1 and negative binominal regression	163
6.9.8.1	Fixed telephone lines	163
6.9.8.2	Mobile phones	165
6.9.8.3	Internet	167
6.9.8.4	Overview	169
6.9.9	Impact of ICT on trade during different time periods	171
6.9.9.1	Comparison of the period 2000 to 2004 with the reference period 1995 to 1999	176

6.9.9.2 Comparison of the period 2005 to 2009 with the reference period 1995 to 1999	177
6.10 Impact of non-ICT model parameters on trade	179
6.10.1 Measures of economic mass	179
6.10.2 Fuel price	181
6.10.3 Dummy variable for 2008	182
6.10.4 Results of estimated models with RE specification	183
6.10.5 Comparison between RE and FE model specification of selected products	184
6.10.5.1 Oranges	188
6.10.5.2 Rice	188
6.10.5.3 Wine	188
6.11 Summary of empirical results	188
CHAPTER 7 DISCUSSION OF RESULTS	190
CHAPTER 8 ENGLISH AND GERMAN SUMMARIES	194
8.1 Summary	194
8.2 Zusammenfassung	197
REFERENCES	203
APPENDIX	232
