CONTENTS

1 Introduction 4

2 Environmental consideration of biomethane production – Sustainability 6

3 Production of biogas 11

4 Biomethane production and transport 13
   4.1 Biogas purification 13
   4.2 Process of carbon dioxide removal 14
   4.3 Exhaust gas treatment 21
   4.4 Structure of the German natural gas grid 22
   4.5 Biogas conditioning and feed-in installations 23
   4.6 Safety of installations 25

5 Possibilities for use of biomethane 26
   5.1 Biomethane utilisation 26
   5.2 Biomethane trading and record keeping 28

6 Legislative framework and economic efficiency 29
   6.1 Legislative framework 29
   6.2 Technical regulations 33
   6.3 Contract structures and project arrangements 35
   6.4 Economic efficiency 38

7 Annex 41
   7.1 General notice on matters of law 41
   7.2 Further information 41
   7.3 List of illustrations 42
   7.4 List of tables 42
   7.5 List of literature 42
   7.6 List of abbreviations 46
   7.7 Units of measurement used 47
