Raffaela Baechler and Guido Seiler
Introduction — 1

Raffaela Baechler
Inflectional complexity of nouns, adjectives and articles
in closely related (non-)isolated varieties — 15

Kurt Braunmüller
On the origins of complexity: evidence from Germanic — 47

Katharina Ehret and Benedikt Szmrecsanyi
An information-theoretic approach to assess linguistic complexity — 71

Jacopo Garzonio
On complexity of interrogative syntax in Northern Italian dialects — 95

Johanna Nichols
Complex edges, transparent frontiers: grammatical complexity
and language spreads — 117

Daniel Schreier
A true split? Typological and sociolinguistic considerations
on contact intensity effects — 139

Peter Trudgill
The sociolinguistics of non-equicomplicity — 159
