Essays on low-wage employment, employment mobility and state dependence on the German labor market

Inaugural-Dissertation
zur Erlangung des akademischen Grades eines Doktors
der Wirtschafts- und Sozialwissenschaften
(Dr. rer. pol.)
der Friedrich-Alexander-Universität Erlangen – Nürnberg

vorgelegt von
Dipl.-Sozialwirt Alexander Mosthaf
aus Göppingen
Contents

1. Introduction 9
   1.1. Motivation .................................................. 9
   1.2. Organization of the dissertation .......................... 14

2. Low-wage employment versus unemployment: Which one provides better prospects for women? 15
   2.1. Introduction .................................................. 15
   2.2. Data ................................................................ 19
   2.3. Empirical specification ....................................... 22
   2.4. Results ............................................................ 26
   2.5. Conclusions ...................................................... 30
   2.6. Tables to chapter 2 ........................................... 32

3. Do scarring effects of low-wage employment and non-employment differ between levels of qualification? 38
   3.1. Introduction ...................................................... 38
   3.2. Literature and theoretical background .................. 40
   3.3. Empirical specification ....................................... 45
   3.4. Institutional background and data ......................... 51
   3.5. Descriptive statistics .......................................... 54
   3.6. Econometric results .......................................... 56
   3.7. Conclusions ...................................................... 61
   3.8. Tables to chapter 3 ........................................... 63

4
4. Low-wage careers: Are there dead-end firms and dead-end jobs?

4.1. Introduction

4.2. The data

4.3. Research questions and hypotheses

4.4. Descriptive evidence

4.5. Econometric analysis

4.6. Conclusions

4.7. Figures and tables to chapter 4

5. Change in self-efficacy as a source of state dependence in labor market dynamics?

5.1. Introduction

5.2. Data and descriptive statistics

5.3. Empirical specification

5.4. Econometric results

5.5. Conclusions

5.6. Figures and tables to chapter 5

5.7. Appendix to chapter 5

6. Conclusions

A. German summary

B. Do scarring effects of low-wage employment and non-employment differ between levels of qualification? Copy of the paper published in the Scottish Journal of Political Economy

C. Low-wage careers: Are there dead-end firms and dead-end jobs? Copy of the paper published in Zeitschrift für Arbeitsmarktforschung
