# Table of Contents

1 Description .................................................. 1
   1.1 Terminology ........................................... 1
   1.2 Definition ............................................. 8
   1.3 Epidemiology .......................................... 10
      1.3.1 Prevalence Rates of ASD ............................. 10
   1.4 Course and Prognosis .................................. 12
      1.4.1 Trajectory of ASD ................................. 13

2 Theories and Models of ASD .................................. 17
   2.1 Early Theories and Models of ASD .................... 17
      2.1.1 Leo Kanner ........................................ 17
      2.1.2 Psychoanalytical Perspective ..................... 18
      2.1.3 Biological Models ................................ 18
      2.1.4 Neurological Bases of ASD ....................... 19
      2.1.5 Social, Cognitive, and Neuropsychological Theories 19
      2.1.6 The Recent Past: ASD Classification ............. 20

3 Diagnosis and Treatment Indications ...................... 22
   3.1 Assessment of Core Symptoms .......................... 22
      3.1.1 Screening Measures ................................ 23
      3.1.2 Diagnostic Measures ............................... 23
   3.2 Assessment of Associated Symptoms ................... 29
      3.2.1 Cognitive Functioning ................................ 29
      3.2.2 Language Functioning ................................ 29
      3.2.3 Adaptive Functioning ................................ 30
      3.2.4 Comorbid Disorders and Symptoms ................... 30
   3.3 Assessment in the Presence of Multiple Disabilities 31
   3.4 Assessment of Change ................................... 31
   3.5 Differential Diagnosis .................................. 32
      3.5.1 Cognitive Functioning ................................ 32
      3.5.2 Language Functioning and Communication Disorders 32
      3.5.3 Developmental Delays ................................ 33
      3.5.4 Other Psychological Disorders ..................... 34
   3.6 Comorbidities and Associated Conditions ............. 35
      3.6.1 Psychiatric and Developmental Disorders ........... 35

4 Treatments for Core and Associated Symptoms of ASD .... 41
   4.1 Methods of Treatment ................................... 41
      4.1.1 Psychosocial Interventions ......................... 42
      4.1.2 Pharmacological Treatment Models ................. 42
      4.1.3 Approach to Review of Treatment Methods ........ 42
      4.1.4 Comprehensive Treatment Programs for Early Childhood Education .......... 43
