# Table of Contents

**Welcome** 1

**Sponsors and Exhibitors** 2

*The International Society for Respiratory Science e.V.* 4

**Table of Contents** 5

**Information on the Venue** 7

**Overall Program** 9

**Detailed Program** 11

**Plenary Talks** 19

**Symposia** 30

- *Recent advances on the functional and evolutionary morphology of the respiratory apparatus* 30
- *Chemosensory organs and surviving hypoxia* 50
- *Recent insights into function and control of animal respiration* 62
- *Respiratory adaptations across thermal clines* 84
- *The combined use of respirometry and stable isotope tracking in comparative studies of fuel use and energetics* 102

**Contributed Talk** 118

**Poster Contributions** 120

**Workshop: Future directions of Respiratory Physiology & Neurobiology** 133

**Index to Authors** 134
