# Table of Contents

1 Introduction .............................................................................................................. 1  
   1.1 Background ....................................................................................................... 1  
   1.2 Methodology .................................................................................................... 3  

2 From EU directives to national policy instruments .............................................. 4  
   2.1 EU directives and corresponding national policy instruments ................. 4  
   2.2 Selection of key national policy instruments .................................................. 6  
   2.3 Effectiveness of policy instruments .................................................................. 9  
   2.4 Efficiency of policy instruments ..................................................................... 15  
      2.4.1 Cost-benefit assessment ............................................................................. 15  
      2.4.2 Impacts of co-effects on efficiency .............................................................. 17  

3 Expected and observed system context ................................................................. 18  
   3.1 Defining the system context and identification of context factors .............. 18  
   3.2 Impact of expected and observed context factors on the effectiveness and efficiency of policy instruments .......................................................... 20  

4 Expected and observed policy transposition and implementation ................. 22  

5 Explore policy instrument interaction including an analysis of stakeholder behaviour within the application system ......................................................... 25  
   5.1 Overview of the stakeholder system ................................................................. 25  
   5.2 Expected impact of single policy instruments on direct stakeholders' behaviour ......................................................................................................... 26  
   5.3 Expected impact of combined policy instruments on direct stakeholders' behaviour .............................................................................................. 30  
   5.4 Overall assessment: Expected impact of stakeholder interaction in a multi policy instrument environment on the ability to achieve policy objectives ....... 35  

6 Synthesis and Conclusion ....................................................................................... 38
6.1 Conclusions on effectiveness ......................................................... 38
6.2 Conclusions on the impacts of contextual factors, implementation factors and policy interaction ........................................... 39

7 References .................................................................................... 43
