### 1 Introduction

1.1 On tourists, bubbles and protected areas ........................................... 1
1.2 Current state of research and research objectives ............................ 2
1.3 Outline of the dissertation .............................................................. 4

### 2 Tourism development from conceptual perspectives ............................. 6

2.1 The Fordist/post-Fordist dialectic ..................................................... 6
   2.1.1 Fordist modes of production and consumption in tourism .................... 6
   2.1.2 The transition to post-Fordism in the tourism sector ...................... 8
   2.1.3 Post-Fordism, Neo-Fordism and McDonaldization: 
       the tourism industry polyglot .................................................. 10
   2.1.4 Tourism typologies ...................................................................... 13

2.2 Approaches describing spatiotemporal patterns of tourism development ....... 16
   2.2.1 Butler’s TALC concept .................................................................. 16
   2.2.2 Models of spatiotemporal patterns of tourism 
       development in developing countries ............................................. 19

2.3 Interim summary ..................................................................................... 22

### 3 Sustainable tourism, nature-based tourism, and protected areas ........... 24

3.1 The concept of sustainable development and its 
    application in tourism ........................................................................... 24
   3.1.1 Definition and history of sustainable development .......................... 24
   3.1.2 The application of the concept of sustainability in tourism .......... 29
   3.1.3 Definitions, distinctiveness, and interrelatedness of 
       sustainable, nature-based, eco, and mass tourism ......................... 34

3.2 Protected areas and tourism .................................................................... 38
   3.2.1 Historical overview of the development of area protection ............. 38
   3.2.2 Types of protected areas ............................................................. 43
   3.2.2.1 IUCN management categories ................................................... 43
   3.2.2.2 UNESCO’s “Man and the Biosphere” Program .............................. 44
   3.2.2.3 World Heritage Sites ............................................................... 45
   3.2.3 Protected areas and the regional economy ...................................... 46
   3.2.4 Protected areas as destinations and attractions ............................ 46

3.3 Tourist typologies in nature-based tourism .......................................... 51

3.4 Interim summary ..................................................................................... 53
4 Regional contexts: Tourism development, socioeconomic structures and protected areas in the two case study regions

4.1 Selecting the two case study regions

4.2 Mexican case study: regional context

4.2.1 Tourism development in Mexico: historical outline

4.2.2 Socioeconomic profile of Quintana Roo

4.2.3 Spatiotemporal development of tourism in Quintana Roo

4.2.3.1 Cancún

4.2.3.2 Riviera Maya

4.2.3.3 Costa Maya

4.2.4 Biosphere Reserves and other protected areas in Mexico

4.2.5 The Sian Ka'an Biosphere Reserve

4.2.5.1 Overview

4.2.5.2 Physical geography of the Sian Ka'an Biosphere Reserve

4.2.5.3 Human use, particularly tourism

4.2.5.4 Management body

4.3 Moroccan case study: regional context

4.3.1 Tourism development in Morocco: historical outline

4.3.2 Socioeconomic profile of the Souss-Massa region

4.3.3 Spatiotemporal development of tourism in Agadir and its surroundings

4.3.3.1 Agadir

4.3.3.2 Other destinations in the study area

4.3.4 National parks in Morocco

4.3.5 The Souss Massa National Park

4.3.5.1 Overview

4.3.5.2 Physical-geographical aspects

4.3.5.3 Human use, in particular tourism

4.3.5.4 Management body

4.4 Interim summary

5 Methodology

5.1 Conceptual background: Estimating the regional economic impacts of tourism

5.1.1 Selected methods of economic impact analysis

5.1.2 Multiplier models

5.1.3 Input-Output analysis

5.1.3.1 Input-output multipliers

5.1.3.2 Regionalization of input-output tables

5.2 Case study design: visitor surveys in the SKBR and the SMNP

5.2.1 Selection of census points

5.2.2 Seasonal distribution of census days

5.2.3 Application of the methodology during the census days and determination of visitor numbers
5.2.4 Short questionnaires ........................................ 122
5.2.5 Long questionnaires ....................................... 123
5.2.6 Data weighting and evaluation ............................... 125
5.3 Data analysis in the two case study areas .................. 126
  5.3.1 Presentation of visitor numbers, visitor structure, and trip motivations ........ 126
  5.3.2 Analysis of tourist expenditures .......................... 127
  5.3.3 Calculation of regional economic impacts ................ 130
5.4 Interim summary .............................................. 132

6 Results: Sian Ka'an Biosphere Reserve ......................... 133
  6.1 General data on visitation in the SKBR ...................... 133
    6.1.1 Visitor data of the Comisión Nacional de Áreas Naturales Protegidas .......... 133
    6.1.2 Number of visitors, evolution since 1996, and seasonal distribution .......... 133
    6.1.3 Origin of visitors ..................................... 136
    6.1.4 Sociodemographic visitor data and average length of stay in the SKBR .......... 137
  6.2 Biosphere reserve affinity and travel motivations of visitors in the SKBR .......... 139
    6.2.1 Biosphere reserve affinity ................................ 139
    6.2.2 Nature affinity ........................................... 141
  6.3 Visitor segmentation and daily expenditures in the SKBR ....................... 143
    6.3.1 Segmentation of visitors in the SKBR according to origin and length of stay .... 143
    6.3.2 Expenditures of local/external day-trippers/overnight visitors in the SKBR .... 144
    6.3.3 Expenditures of local/external day-trippers/overnight visitors in the SKBR survey area 147
    6.3.4 Segmentation of visitors in the SKBR according to patterns of trip organization 150
    6.3.5 Expenditures of independent, customized, and package tourists in the SKBR 151
    6.3.6 Expenditures of independent, customized, and package tourists in the SKBR survey area 152
    6.3.7 Biosphere reserve affinity, nature affinity and spending behavior in the SKBR 155
  6.4 Economic impacts of tourism in the SKBR .................. 156
    6.4.1 Tourist gross turnover ................................... 156
    6.4.2 Regional economic impacts ............................... 156
  6.5 Intermediate discussion: visitation, expenditures and regional economic impacts in the SKBR 158
7 Results: Souss-Massa National Park .................................................. 160
  7.1 General data on visitation in the SMNP ...................................... 160
    7.1.1 Number of visitors and seasonal distribution ..................... 160
    7.1.2 Origin of visitors .................................................... 161
    7.1.3 Sociodemographic visitor data and average length of stay in the SMNP .................................................. 163
  7.2 National park affinity and travel motivations of visitors in the SMNP ................................................................. 165
    7.2.1 National park affinity ................................................ 165
    7.2.2 Nature-affinity ...................................................... 167
  7.3 Visitor segmentation and daily expenditures in the SMNP .......... 168
    7.3.1 Segmentation of visitors to the SMNP according to origin and length of stay ...................................................... 168
    7.3.2 Expenditures of local/external day-trippers/overnight visitors in the SMNP .......................................................... 169
    7.3.3 Expenditures of local/external day-trippers/overnight visitors in the SMNP survey area ........................................... 171
    7.3.4 Segmentation of visitors in the SMNP according to patterns of trip organization ...................................................... 173
    7.3.5 Expenditures of independent, customized and package tourists in the SMNP .......................................................... 175
    7.3.6 Expenditures of independent, customized, and package tourists in the SNNP survey area ............................................ 176
    7.3.7 National park affinity, nature affinity and spending behavior in the SMNP ............................................................. 178
  7.4 Economic impacts of tourism in the SMNP ................................. 178
    7.4.1 Tourist gross turnover ................................................ 178
    7.4.2 Regional economic impacts ........................................... 179
  7.5 Intermediate discussion: visitation, expenditures and regional economic impacts in the SMNP ........................................... 181

8 Conclusion ...................................................................................... 183
  8.1 Synthesis: Tourism in protected areas in proximity to Fordist mass tourist bubbles ......................................................... 183
  8.2 Management implications ....................................................... 184
  8.3 Toward a product-based typology for nature-based tourism ....... 186
  8.4 Implications for future research ................................................ 190
