Contents

Modeling and Simulation of Network Aspects for Distributed Cyber-Physical Energy Systems ........................................... 1
Ilge Akkaya, Yan Liu, Edward A. Lee

A Service-Oriented, Cyber-Physical Reference Model for Smart Grid ......................................................... 25
Muhammad Umer Tariq, Santiago Grijalva, Marilyn Wolf

Real Time Modeling and Simulation of Cyber-Power System ................................................................. 43
Ceeman B. Vellaithurai, Saugata S. Biswas, Ren Liu, Anurag Srivastava

Cyber Physical Approach to HVDC Grid Control ......................................................... 75
Lars Nordström, Davood Babazadeh

Smart Buildings in the Smart Grid: Contract-Based Design of an Integrated Energy Management System ......................................................... 103
Mehdi Maasoumy, Pierluigi Nuzzo, Alberto Sangiovanni-Vincentelli

Jiayi Jiang, Sandip Roy, Juhua Liu, Vaibhav Donde

Cyber Security of Smart Grid Communications: Risk Analysis and Experimental Testing ......................................................... 169
Giovanna Dondossola, Roberta Terruggia

Reliable and Scalable Communication for the Power Grid ......................................................... 195
Christopher Zimmer, Frank Mueller

Biologically Inspired Hierarchical Cyber-Physical Multi-agent Distributed Control Framework for Sustainable Smart Grids ......................................................... 219
Jin Wei, Deepa Kundur

Cyber-Physical Security Testbed for Substations in a Power Grid ......................................................... 261
Junho Hong, Ying Chen, Chen-Ching Liu, Manimaran Govindarasu
Cyber-Attacks in the Automatic Generation Control .......................... 303
Maria Vrakopoulou, Peyman Mohajerin Esfahani, Kostas Margellos,
John Lygeros, Göran Andersson

Intrusion Detection for CPS Real-Time Controllers ............................ 329
Christopher Zimmer, Balasubramany Bhat, Frank Mueller, Sibin Mohan

Against Data Attacks on Smart Grid Operations: Attack Mechanisms
and Security Measures ............................................................. 359
Jinsub Kim, Lang Tong

Author Index ........................................................................... 385
