3 Supply Chain Management Research

Abstract

3.1 Introduction

3.2 Characteristics of literature reviews

3.2.1 Secondary literature reviews and review taxonomy

3.2.2 Tertiary literature reviews and evaluation criteria

3.2.3 Dimensions of analysis and content categories of this literature review

3.3 The literature review approach of this study

3.4 The current state of literature reviews in supply chain management research

3.4.1 Taxonomic classification of selected systematic literature reviews in supply chain management research

3.4.2 Critical analysis of the search strategy of selected systematic literature reviews in supply chain management research

3.4.3 Content classification of selected literature reviews in supply chain management research

3.5 Research agenda for future literature reviews in supply chain management research

3.5.1 Taxonomic and methodological lessons learned

3.5.2 Thematic implications for future research on supply chain management

3.6 Limitations of the literature review

3.7 Conclusions

References

4 Research on the Organization of Purchasing

Abstract

4.1 Introduction

4.2 The literature review approach of this study

4.2.1 Methodological background

4.2.2 Conceptual framework

4.2.3 Descriptive analysis

4.3 Thematic analysis on the organization of purchasing

4.3.1 Structural characteristics of the purchasing organization

4.3.2 Determinants of the purchasing organization

4.3.2.1 Organizational characteristics

4.3.2.2 Product characteristics

4.3.2.3 Purchase situation

4.3.2.4 Company-external (environmental) factors

4.3.3 Purchasing organization as a contextual variable

4.3.4 Structural types of the purchasing organization in private institutions

4.3.4.1 Sourcing teams
4.3.4.2 Commodity management ........................................................................... 101
4.3.4.3 International procurement offices ............................................................. 102
4.3.4.4 Cooperative sourcing .................................................................................. 102
4.3.4.5 Typologies of organizational models ......................................................... 103
4.3.5 Structural types of the purchasing organization in public institutions ........ 104
  4.3.5.1 Sourcing teams ......................................................................................... 105
  4.3.5.2 Commodity management .......................................................................... 105
  4.3.5.3 Intergovernmental cooperative sourcing ..................................................... 105
  4.3.5.4 Typologies of organizational models .......................................................... 106
4.3.6 Performance impact of the purchasing organization ..................................... 107
4.4 Research agenda and directions for future research on the organization of purchasing .................................................................................................................. 109
  4.4.1 Structural characteristics and determinants of the purchasing organization ... 109
  4.4.2 Structural types of the purchasing organization in private institutions ........ 110
  4.4.3 Structural types of the purchasing organization in public institutions .......... 110
  4.4.4 Performance impact of the purchasing organization ...................................... 111
  4.4.5 Theoretical research on the organization of purchasing ............................ 112
4.5 Limitation of the literature review .................................................................. 114
  4.5.1 Limitations of the conceptual framework .................................................... 114
  4.5.2 Limitations of the research methodology ..................................................... 115
4.6 Conclusions ...................................................................................................... 115
