CHAPTER I 13
General Introduction: Structure, function and absorption of vitamin E

CHAPTER II 41
A fast and validated method for the determination of malondialdehyde in fish liver using high performance liquid chromatography with a photodiode array detector

CHAPTER III 60
Dietary alpha tocopherol affects tissue vitamin E and malondialdehyde levels but does not change antioxidants enzymes and fatty acid composition in farmed Atlantic salmon (Salmo salar L.)

CHAPTER IV 83
Concluding remarks

APPENDIX 89
