Contents

1 Introduction
   1.1 Structure of the Thesis ........................................ 7
   1.2 System Overview .................................................. 8

2 Multi Channel Signal Processing .................................... 11
   2.1 Discrete-Time Signal Model ...................................... 12
   2.2 Generation and Measurement of Room Impulse Responses ..... 15
   2.3 Properties of Multi-Channel Signals ......................... 16
      2.3.1 Simple Recording Model .................................. 17
      2.3.2 Artificial Multi Channel Signals ....................... 17
      2.3.3 Coherence between the Channels ......................... 18
   2.4 Linear Prediction ............................................... 19
      2.4.1 Single Channel Linear Prediction ....................... 19
      2.4.2 Determination of Optimal Filter Coefficients .......... 21
      2.4.3 Stability at the decoder ................................ 22
   2.5 Performance Limit ............................................... 22
      2.5.1 Sequential Optimization .................................. 25
      2.5.2 Joint Optimization ......................................... 27
      2.5.3 Comparison Between Sequential and Joint Optimization 29
## 2.6 A Flexible Structure for Multi Channel Linear Prediction

- 2.6.1 Signals and Variables .. 36
- 2.6.2 Stepwise Statistical Regression .. 39
- 2.6.3 Stepwise Correlation-based Regression .. 40
- 2.6.4 Relation to Matching Pursuit .. 41
- 2.6.5 Packet Losses .. 42
- 2.6.6 Interpretation as Generalized Long Term Prediction .. 42
- 2.6.7 Simulation Example .. 43

## 2.7 Conclusions .. 44

## 3 Outer Stage — Preconditioning and Enhancement

- 3.1 Including the Acoustic Environment .. 48
- 3.2 Channel Mixing .. 49
  - 3.2.1 Fixed Approaches .. 49
  - 3.2.2 Adaptive Approaches .. 51
- 3.3 Beamforming .. 53
  - 3.3.1 Determination of the Reception Characteristic in the Near Field .. 53
  - 3.3.2 Numerical Optimization .. 56
  - 3.3.3 Performance Example .. 57
- 3.4 Receiver-side Enhancement .. 60
  - 3.4.1 Speech Transmission Index .. 63
  - 3.4.2 Measured and Simulated Room Impulse Responses .. 64
  - 3.4.3 Postfilter Design .. 67
  - 3.4.4 Measurements .. 68
  - 3.4.5 Results .. 72
- 3.5 Conclusion .. 73
## 4 Inner Stage – Predictive Multi Channel Coding
