Contents

xv Preface
Ebisawa, M. (Sagamihara); Ballmer-Weber, B.K. (Zurich); Vieths, S. (Langen); Wood, R.A. (Baltimore, Md.)

Background
1 Historical Background, Definitions and Differential Diagnosis
Sampson, H.A. (New York, N.Y.)
1 Abstract
1 Historical Background
3 Definitions and Differential Diagnosis
5 Recent History and the Future
7 References

8 Immunological Basis of Food Allergy (IgE-Mediated, Non-IgE-Mediated, and Tolerance)
Kim, E.H.; Burks, W. (Chapel Hill, N.C.)
8 Abstract
8 Introduction
9 IgE-Mediated Food Allergy
11 Non-IgE-Mediated Food Allergy
12 Mixed-Immune Food Reactions
13 Oral Tolerance
14 Conclusion
16 References

18 Food Allergens: Molecular and Immunological Aspects, Allergen Databases and Cross-Reactivity
Lorenz, A.-R.; Scheurer, S.; Vieths, S. (Langen)
18 Abstract
19 Molecular Features of Food Allergens
20 Allergen Families
20 Allergen Databases
22 Class I Food Allergens/Class II Food Allergens
22 Class I Food Allergens
23 Class II Food Allergens
23 Resistance to Food Processing and Digestion
23 Thermal Stability of Allergens
24 Influence of Digestion on Allergic Reaction to Food Allergens
25 Influence of the Food Matrix on Digestion and Allergenicity of Food Allergens
Immunological Features of Food Allergens

T Cell and B Cell Epitopes of Food Allergens

T Cell Epitopes

B Cell Epitopes

Cross-Reactivity

References

Epidemiology: International Point of View, from Childhood to Adults, Food Allergens

Wong, G.W.K. (Hong Kong)

Abstract

Epidemiology of Food Allergy

Reported Food Allergy and Epidemiology Study Methodology

Prevalence of Common Food Allergies

Changing Prevalence of Food Allergy

References

Clinical Aspects

Food Allergy in Childhood (Infancy to School Age)

Bergmann, M.M.; Eigenmann, P.A. (Geneva)

Abstract

Introduction

IgE-Mediated (Immediate-Type) Food Allergy

Food-Induced Urticaria and Anaphylaxis

Food-Dependent Exercise-Induced Anaphylaxis

Oral Allergy Syndrome

Mixed IgE and Non-IgE-Mediated Food Allergy

Atopic Dermatitis and Food Allergy

Eosinophilic Gastroenteropathies (Esophagitis, Gastritis, Enteritis, and Gastroenteritis)

Non-IgE-Mediated Food Allergy

Food Protein-Induced Enterocolitis Syndrome

Food Protein-Induced Proctocolitis

Food Protein-Induced Enteropathy

Heiner Syndrome (Milk-Induced Pulmonary Disease)

Conclusions

References

Food Allergy in Adolescence and Adulthood

Ballmer-Weber, B.K. (Zurich)

Abstract

Introduction

Food Allergies Due to Cross-Reaction with Inhalant Allergens

Birch Pollen-Mediated Food Allergy

Mugwort Pollen-Mediated Food Allergy

Grass, Ragweed, and Plane Pollen-Mediated Food Allergy

Other Cross-Reactive Food Allergies

Allergic Reactions to Foods May Already Occur upon First Consumption

Sensitization to Galactose-Alpha-1,3-Galactose and Allergy to Red Meat

Clinical Symptoms

Local Oral Symptoms

Warning Signs for Impending Systemic Reactions

Food Allergy-Induced Systemic Reactions

Differential Diagnosis of Food Allergy in Adults

Lactose Intolerance
83 Food Antigens
83 Reading of Atopy Patch Test Results
83 Atopy Patch Test for Non-IgE-Mediated Gastrointestinal Allergy
83 Epicutaneous IgE Sensitization and Antigen Absorption via the Skin
84 Future Perspectives
84 References

87 Diagnostic Elimination Diets and Oral Food Provocation
Wood, R.A. (Baltimore, Md.)

87 Abstract
87 Introduction
87 Elimination Diets
88 Oral Challenge Testing
89 Methodology
89 Open Challenges
89 Single-Blind Challenges
90 Double-Blind, Placebo-Controlled Challenges
90 Challenge Settings and Procedures
92 Dosing Strategies
93 Risk and Treatment of Oral Food Challenges
94 Summary
94 References

96 Pharmacological Management of Acute Food-Allergic Reactions
Richards, S.; Tang, M. (Melbourne, Vic.)

96 Abstract
96 Introduction
98 Pharmacological Management of IgE-Mediated, Food-Induced Acute Allergic Reactions
98 Mild to Moderate Reactions
99 Anaphylaxis
99 Adrenaline
101 Adjunctive Therapies
102 Subsequent Management of IgE-Mediated Food-Induced Allergic Reactions
102 Observation
103 Risk Minimisation
103 Pharmacological Management of Non-IgE-Mediated Food-Induced Allergic Reactions
104 Conclusions
104 References

106 Oral Immunotherapy and Potential Treatment
Sato, S.; Yanagida, N.; Ebisawa, M. (Sagamihara)

106 Abstract
106 Introduction
106 Oral Immunotherapy for Food Allergy
106 Efficacy and Safety of Oral Immunotherapy
108 Factors Affecting Safety of Oral Immunotherapy
108 Mechanisms of and Immunologic Responses to Oral Immunotherapy
109 Clinical Use of Oral Immunotherapy
109 Desensitization and Permanent Tolerance
110 Optimal Dose and Duration of Oral Immunotherapy
110 Novel Treatment for Food Allergy
110 Sublingual Immunotherapy
111 Anti-IgE Monoclonal Antibodies (Omalizumab) for Food Allergy
Allergen-Based Food Allergies

114 **Cow's Milk Allergy in Children and Adults**
Fiocchi, A.; Dahdah, L. (Rome); Albarini, M.; Martelli, A. (Milan)

114 Abstract
114 Introduction
114 Epidemiology
115 Pathogenesis
115 Allergens
115 Clinical Manifestations
116 Immediate Reactions
116 Delayed Reactions
117 Diagnosis
117 Clinical Evaluation
117 Diagnostic Tests
117 IgE-Mediated CMA
117 Non-IgE-Mediated CMA
118 Elimination-Challenge Testing
118 Natural History
118 Treatment of Cow's Milk Allergy
118 Avoidance of Cow's Milk Protein
119 Alternative Formulae (Milk Substitutes)
119 Oral Immunotherapy
120 Follow-Up
121 A Very Common Clinical Case
122 Conclusions
122 References

124 **Hen's Egg Allergy**
Urisu, A.; Kondo, Y. (Nagoya); Tsuge, I. (Toyoake)

124 Abstract
124 Introduction
125 Symptoms
126 Allergenic Components of Egg White
126 Allergenic Components of Egg Yolk
126 Diagnosis
127 Natural History
128 Management and Therapy
128 Oral Immunotherapy to Egg Allergy
129 Clinical Case
129 Acknowledgments
129 References

131 **Peanut and Tree Nut Allergy**
Cox, A.; Sicherer, S.H. (New York, N.Y.)

131 Abstract
131 Introduction
131 Epidemiology
132 Clinical Reactions
133 Age of Presentation or First Reaction to Peanut and Tree Nuts
133 Co-Allergy to Peanut and Tree Nuts and Allergy to Multiple Tree Nuts
133 Subsequent Reactions
134 Resolution of Peanut Allergy
134 Resolution of Tree Nut Allergy
134 Peanut and Tree Nut Allergens
134 Peanut
136 Case Study
136 Tree Nut Allergens
138 Hazelnut (Corylus avellana)
138 Walnut (Juglans regia) and Pecan (Carya illinoinensis)
139 Cashew (Anacardium occidentale) and Pistachio (Pistacia vera)
139 Almond (Prunus dulcis)
139 Other Tree Nuts
140 Pathogenesis
140 Conclusion
141 References

145 Grain and Legume Allergy
Ito, K. (Aichi)

145 Abstract
145 Grain (Wheat) Allergies
146 General Description of Wheat Allergens
146 Baker’s Asthma
146 Immediate-Type Food Allergy to Wheat
147 Wheat-Dependent Exercise-Induced Anaphylaxis
147 Allergies to Hydrolyzed Wheat Proteins or Deamidated Gluten
148 Allergies to Other Grains
148 A Case of Successful Oral Immunotherapy for Wheat Allergy
148 Legume (Soybean) Allergies
148 General Description of Legume Allergens
149 Immediate-Type Food Allergy to Soybean
149 Pollen-Related Soybean Allergies
149 Other Legume Allergies
150 Conclusions
150 Acknowledgments
150 References

152 Fish and Shellfish Allergy
Thalayasingam, M.; Lee, B.-W. (Singapore)

152 Abstract
152 Introduction
152 Prevalence
153 Classification of Seafood Species
154 Clinical Manifestations
155 Fish and Shellfish Allergens
157 Allergic Cross-Reactivity
157 Parvalbumin within the Fish Group and Frog
157 Within the Shellfish Group
157 Between Shellfish and Other Arthropods
158 Differential Diagnosis for Fish and Shellfish Allergy
159 Diagnosis
159 Natural History and Treatment

X Contents
### Fruit and Vegetable Allergy

Fernández-Rivas, M. (Madrid)

162 Abstract
162 Introduction
163 Epidemiology
163 Pathogenesis: Allergen Sensitisation
166 Allergens
166 Clinical Symptoms
167 Diagnosis
168 Management
169 References

### Gastrointestinal Food Allergies

Heine, R.G. (Melbourne, Vic.)

171 Abstract
171 Introduction
172 Clinical Presentation
172 Food Protein-Induced Enteropathy
172 Food Protein-Induced Enterocolitis Syndrome
173 Food Protein-Induced Proctocolitis
173 Multiple Food Protein Intolerance of Infancy
174 Food Protein-Induced Gastrointestinal Motility Disorders in Infants and Young Children
174 Gastro-Oesophageal Reflux Disease in Infancy
174 Constipation
175 Infantile Colic
175 Carbohydrate Malabsorption and Food Intolerance
176 Lactose Intolerance/Malabsorption
176 Coeliac Disease
176 Diagnostic Evaluation and Differential Diagnosis
177 Dietary Management
177 Conclusion
178 References

### Atopic Eczema and Food Allergy

Wassmann, A. (Hannover/Hamburg); Werfel, T. (Hannover)

181 Abstract
181 Prevalence and Natural History of Food Allergies in Atopic Eczema
182 Clinical Reaction Patterns to Foods in Patients with Atopic Eczema
183 Allergens
183 Pathogenesis of Food Allergy in Atopic Eczema
183 Epidermal Barrier Dysfunction
184 Gut Barrier Dysfunction
184 Immune Response
185 Diagnosis of Food Allergy in Atopic Eczema
186 In vitro Diagnostics
186 In vivo Diagnostics
186 Skin Tests
187 Oral Food Challenge
188 References
Educational Programmes in Food Allergy

Kugler, C.; Brockow, K. (München); Ring, J. (Davos)

Abstract

Introduction

Individual Dietetic Treatment of Food Allergy

Structured Educational Group Sessions for Patients and Families with Atopic Eczema or Anaphylaxis

Educational Programmes for Atopic Eczema

Educational Programmes for the Control of Atopic Eczema in Children and Adolescents (According to 'Arbeitsgemeinschaft Neurodermitis-Schulung')

Educational Programmes for the Management of Atopic Eczema in Adults ('Arbeitsgemeinschaft Neurodermitis-Schulung für Erwachsene')

Educational Program for Anaphylaxis Patients and Families
