Symbol List .....	III
Abstract .....	VII
<b>1 Introduction .....</b>	<b>1</b>
<b>2 Research background .....</b>	<b>4</b>
2.1 one-dimensional (1D) Carbon nanostructures (CNs) .....	4
2.2 Polymer-like nanostructures (PNs) prepared at low temperature .....	6
2.3 Goals of this thesis .....	11
<b>3 Experimental Methods.....</b>	<b>12</b>
3.1 Catalyst preparation .....	13
3.1.1 <i>Sol-gel route</i> .....	13
3.1.2 <i>Precipitation-decomposition route</i> .....	14
3.1.3 <i>Bulky metal route</i> .....	14
3.1.4 <i>Other routes</i> .....	15
3.2 Nanostructures synthesis.....	16
3.3 Characterization .....	18
3.3.1 <i>Morphology characterization</i> .....	18
3.3.2 <i>Structure characterization</i> .....	18
3.3.3 <i>Property evaluation</i> .....	19
<b>4 Fundamental investigations of catalytic CVD growth of polymer nanostructure at low temperature.....</b>	<b>21</b>
4.1 Structural characterization and growth mechanism.....	21
4.2 Kinetics process of the growth.....	27
4.3 Catalyst evolution .....	33
4.4 Size effect.....	39
<b>5 Morphology control of multi-branched carbon nanostructures via facet-selective catalytic growth .....</b>	<b>45</b>
5.1 Basic idea .....	45
5.2 Realization .....	47
5.3 Characterization .....	49

---

5.4 Modeling.....	52
5.5 Summary.....	56
<b>6 VFS growth with aid of other transition metal catalysts.....</b>	<b>58</b>
6.1 Fe catalyzed nanostructure-growth at low temperature.....	58
6.1.1 <i>Experimental facts</i> .....	58
6.1.2 <i>Discussion</i> .....	63
6.1.3 <i>Summary</i> .....	68
6.2 Ni catalyzed nanostructure-growth at low temperature.....	69
6.2.1 <i>Bulky Ni catalyzed growth</i> .....	69
6.2.2 <i>Growth catalyzed by individual Ni nanoparticle (Sol-Gel route)</i> .....	75
6.2.3 <i>Growth catalyzed by individual Ni nanoparticle (Nanopowder route)</i> .....	78
6.3 The adoptability of VFS mechanism.....	98
<b>7 Applications and prospects.....</b>	<b>100</b>
7.1 Applications as optical absorber.....	102
7.2 Applications as energy materials.....	107
7.3 In-situ doped CNs.....	110
7.4 Two-dimensional (2D) nanostructures.....	112
<b>8 Conclusions.....</b>	<b>115</b>
<b>9 References.....</b>	<b>119</b>
