List of exhibitors - 15 -

Objective of the conference
Prof.-Dr.-Ing. Michael Sterner, University of Applied Sciences, Regensburg, Germany - 17 -

System integrator PtG – what is necessary to bring PtG forward at European level?
Annegret-CI. Agricola, German Energy Agency (dena), Berlin, Germany - 19 -

Power-to-Gas – ready to roll out?

PtG: Contribution to and necessity for the success of the German energy transition
Marcel Keiffenheim, Greenpeace Energy eG, Hamburg, Germany - 23 -

Closing the carbon cycle via CO2 capture from air and PtG/PtL
Dominique Kronenberg, Climeworks AG, Zurich, Switzerland - 25 -

Regulatory framework for PtG in Germany – challenges and opportunities
Andreas Müller, Bundesnetzagentur, Bonn, Germany - 29 -

Power-to-Liquid

Start of operation of the world's first Power-to-Liquid demo plant for diesel and other products in Dresden
Christian von Olshausen, Sunfire GmbH, Dresden, Germany - 41 -

Scaling up: Critical success factors for Power-to-Liquids methanol
Benedikt Stefánsson, Carbon Recycling International, Reykjavik, Iceland
Practical experience and implementation

AREVA's hydrogen-based energy storage system – the example of Myrte: - 45 -
a multi-use solution for a decentralized energy supply
Csaba Marton, AREVA GmbH, Erlangen, Germany

Setting up a hydrogen infrastructure based on PtG at Energiepark Mainz - 49 -
Dr. Manfred Waidhas, Hydrogen Solutions, Siemens AG, Erlangen, Germany

2MW Power-to-Gas project in Ontario providing regulation services - 55 -
Rob Harvey, Director, Energy Storage, Hydrogenics Corp., Mississauga, Canada

Project BioPower2Gas – First biological methanation plant used for biofuel production - 57 -
Thomas Heller, MicrobEnergy GmbH, Schwandorf, Germany

Industrial synthesis units for power-to-gas / power-to-liquid - 63 -
John Bøgild Hansen, Haldor Topsoe A/S, Lyngby, Denmark

Closing Remarks
Prof- Dr.-Ing. Michael Sterner, University of Applied Sciences, Regensburg, Germany
