Editorial
623 Cardiovascular Protection by Natural Products
Catherina Caballero-George

Reviews
624 Managing Hypertension by Polyphenols
Salvador Fernández-Arroyo, Jordi Camps,
Javier A. Menendez, Jorge Joven

630 Marine and Soil Derived Natural Products:
A New Source of Novel Cardiovascular Protective
Agents Targeting the Endothelin System
Nadir Planes, Catherina Caballero-George

637 Plants and Their Bioactive Compounds with
the Potential to Enhance Mechanisms of Inherited
Cardiac Regeneration
Zhen Zhou, Dianbin Li, Hua Zhou, Xiaoli Lin, Censing Li,
Mingfeng Tang, Zhou Feng, Ming Li

648 Effects of the Olive Tree Leaf Constituents on
Myocardial Oxidative Damage and Atherosclerosis
Panagiotis Efentakis, Efstathios K. Iliodromitis, Emmanuel
Mikros, Anastasia Papachristodoulou, Nikolaos Dagres,
Alexios-Leandros Skaltsounis, Ioanna Andreadou

Original Papers
655 The Natural Olive Constituent Oleuropein
Induces Nutritional Cardioprotection in Normal
and Cholesterol-Fed Rabbits: Comparison with
Preconditioning
Ioanna Andreadou, Dimitra Benaki, Panagiotis Efentakis,
Sofia-Iris Bibli, Alkistis-Ioanna Milioni, Anastasia
Papachristodoulou, Anastasia Zoga, Alexios-Leandros
Skaltsounis, Emmanuel Mikros, Efstathios K. Iliodromitis

664 Influence of Extra Virgin Olive Oil on Blood
Pressure and Kidney Angiotensinase Activities
in Spontaneously Hypertensive Rats
Ana Belén Villarejo, Manuel Ramírez-Sánchez,
Ana Belén Segarra, Magdalena Martínez-Cañamero,
Isabel Prieto

667 Modulation of Calcium Signaling of Angiotensin AT1,
Endothelin ETα, and ETβ Receptors by Silibinin,
Quercetin, Crocin, Diallyl Sulfides, and Ginsenoside
Rb1
Ruba Bahem, Anja Hoffmann, Arnaud Azonpi,
Catherina Caballero-George, Patrick Vanderheyden
Cardioprotective Potential of Irish Macroalgae: Generation of Glycine Betaine and Dimethylsulfonio-propionate Containing Extracts by Accelerated Solvent Extraction

Juan Valverde, Maria Hayes, Pádraig McLoughlin, Dilip K. Rai, Anna Soler-Vila
