

Ambient Spline Approximation on Manifolds

Ambiente Spline-Approximation auf Mannigfaltigkeiten

Zur Erlangung des Grades eines Doktors der Naturwissenschaften (Dr. rer. nat.)
genehmigte Dissertation von M.Sc. Sonja Odathuparambil aus Frankfurt a.M.

Tag der Einreichung: 20. Mai 2016, Tag der Prüfung: 13. Juli 2016

August 2016 — Darmstadt — D 17

1. Gutachten: Prof. Dr. Ulrich Reif
 2. Gutachten: Prof. Dr. Oleg Davydov

Geometrie und Approximation

Contents

| | |
|--|-----------|
| Abstract | 1 |
| Deutsche Zusammenfassung | 2 |
| 1 Introduction | 4 |
| 2 Preliminaries | 9 |
| 2.1 Sobolev Spaces | 9 |
| 2.2 Finite Element Method | 10 |
| 2.3 Intrinsic Differential Operators | 11 |
| 2.4 Second-Order Elliptic Partial Differential Equations | 12 |
| 3 Splines | 13 |
| 3.1 B-Splines | 13 |
| 3.2 Tensor Product Splines | 16 |
| 3.3 Stability and Approximation Power | 17 |
| 4 Ambient B-spline Method | 20 |
| 4.1 Concept of the Method | 21 |
| 4.2 Error Analysis | 25 |
| 4.2.1 Notations and Preliminaries | 25 |
| 4.2.2 Error Estimate | 28 |
| 4.3 Implementation | 33 |
| 4.4 Numerical Examples | 34 |
| 4.5 Higher Codimension | 37 |
| 5 Ambient Signed Distance Method | 39 |
| 5.1 Preliminaries | 40 |
| 5.2 The Embedding PDE | 43 |
| 5.3 Boundary Conditions | 48 |
| 5.4 Finite Element Method | 49 |
| 5.5 Implementation | 52 |
| 5.6 Numerical Results | 55 |
| 5.7 Modification | 58 |
| 6 Ambient Level Set Method | 63 |
| 6.1 Derivation | 64 |
| 6.2 Concept of the Method | 71 |
| 6.3 Implementation | 73 |
| 6.4 Numerical Results | 75 |
| 7 Conclusion | 87 |
