I. CULTIVATING BIOETHICS CULTURES

1. Bioethics: The World and the Vision

Bioethics and the Bioethical Imperative 11
1.1. The Bioethical Imperative 11
1.2. Conceptual Modifications of the Term Bioethics 14
1.3. Biotopes Interconnecting Individuals and Communities 19
1.4. Integrating Visions and Cultures of Global Bioethics 21
We have to make choices 24

2. Cultural Harmonies and Moral Cultures

A merchant fell under the robbers 25
2.1. Love Your Neighbor 25
2.2. What are the Golden Rules? 26
2.3. Nature: Cruel or Harmonious? 28
2.4. Cultures: Suppressing, Liberating, Harmonizing? 30
2.5. Did Socrates Give the Answer? 32
Bioethics Statements: Chennai, Eubios, Rijeka 36

3. The Properties of Bios in Human Specification

The special human heritage 41
3.1. Is our Human Bios Deficient or Incomplete? 41
3.2. Human Properties in Successful Cultivation Practice 45
3.3. Integrating and Cultivating the Eight C Properties and Virtues 51
The little town by the river 53

II. RISKS AND REWARDS IN MANIPULATION

4. Manipulating and cultivating Non-Human and Human Bios

Risks and rewards in manipulation 59
4.1. How to Integrate Expertise and Ethics? 59
4.2. From Indirect Breeding to Direct Manipulation 60
4.3. Patenting Non-human Life? 63
4.4. Creating In-Vitro Flesh 66
4.5. Manipulating and Cultivating Biotopes 68
4.6. Transgenic Animals and Enhanced Humans 71
Ethics towards bios has no borders 75

5. Research on animals for human health benefit

Limits to animal manipulation? 77
5.1. Who should be the ‘Guinea Pig’? 77
5.2. The Seven-R Principles in Animal Research 81
5.3. Research Ethics, Bioethics, Corporate Ethics 84
5.4. Risk Reduction Outline in Animal Research 84
Animal research risk reduction scheme 85

IV. COMPETENCE IN BIOETHICS

10. Cultivating Cyberspace Territories

This is no game, it is the real world! 159
10.1. Populating new Territories in Cyberspace 159
10.2. Instant Equal Access to Previously Privileged Knowledge 162
10.3. Promoting New Cultures in the Care for Health 164
10.4. Meeting Places for Health Communities 166
10.5. Should Cyber Territories Be Regulated? 169

Action guide for E-Health netizens and health care surfers 171

11. Solidarity and Subsidiarity in Healthy Markets

Subsidiarity and solidarity build stable communities 173
11.1. Vested Interests in Modern Health Repair Shops 173
11.2. Replacing Health Repair with Health Care 175
11.3. Basic Health Care Is a Moral and Cultural Obligation 179
11.4. Supplementary Care, Individual Preferences and Finances 180
11.5. Charitable Care for Controversial Services and the Needy 181
11.6. Competent Compassion in Solidarity and Subsidiarity 182

Stakeholders action guides in subsidiarity and solidarity 183

12. Training and Learning in Biocultures

The great way of learning 187
12.1. We learn and train for Life, not for School 187
12.2. Integrated Training for successful Decision Making 189
12.3. Integrating Technology Assessment and Value Assessment 191
12.4. An Alternative Checklist in Health Care Ethics 196
12.5. Preparing for yet Unknown Situations 198
12.6. Conflicts unsolvable in Training and Discourse 202

A Case of professionally unsuccessful service 205

V. BIOPOLITICS AND COLLECTIVE BIOS

13. Companies and Corporations are Living Beings

Corporations are complex adaptable systems of bios 209
13.1. Corporate Bios in integrated Biotopes 209
13.2. The many Faces and Personalities of Corporate Bios 211
13.3. Clinics and Health Care Institutions as Living Beings 213
13.4. Building Healthy and Happy Corporate Bodies 216

Action guides for corporate and political bodies: the clinic 220
14. Diversity and survivability of political bodies

Promoting great harmony

14.1. Political Bodies, Similar but not Identical 221
14.2. Diversity and Adaptability of Political Bodies 224
14.3. Social Bios Changing and Adapting 225
14.4. Diseases and Disorders of Political Bodies 226
14.5. Political Struggles and Gross Happiness Products (GHP's) 230

Societal strength and diversity in political bodies 234

15. Risks to political bodies

Risky roads, rooms, territories 235

15.1. Bios is not without Risk 235
15.2. 21th Century Risk to Cultures of Human Bios 238
15.3. Open Future for Human Biocultures and Political Bodies 246
15.4. Bioethics in Cultivating the Leviathan–Behemoth Struggles 247

Towards a bioethical manifesto? 249
