1 Introduction 1
2 The journey from MDGs to SDGs 2
3 Conceptualising the role of an enabling environment in achieving the SDGs 3
  3.1 Significance of an enabling environment for aid effectiveness and sustainable development 4
  3.2 The enabling environment necessary to achieve the SDGs 6
4 Where are the resources? Financing the SDGs 8
  4.1 Domestic resources for implementing the 2030 Agenda 9
    4.1.1 Role of domestic resource mobilisation: public sector 9
    4.1.2 Domestic private resources for sustainable development 10
  4.2 External financing for sustainable development 11
    4.2.1 External concessional financing 12
    4.2.2 South-South Cooperation: development cooperation from non-DAC donors 13
    4.2.3 External private (concessional) financing for sustainable development 14
    4.2.4 Increased funding for climate change 15
    4.2.5 International private (non-concessional) financing for sustainable development 15
    4.2.6 Blended finance and public private partnerships 17
5 Implementing the 2030 Agenda: the case of Pakistan 18
  5.1 The enabling environment in the context of Pakistan 20
  5.2 The recent socio-economic situation in Pakistan 22
  5.3 Domestic resource mobilisation in Pakistan 24
  5.4 The role of ODA in the implementation of the 2030 Agenda in Pakistan 25
  5.5 Foreign direct investment in Pakistan and its importance for sustainable development 27
  5.6 The role of FDI in the 2030 Agenda: the case of CPEC in Pakistan 28
6 Conclusions: the strong link between an enabling environment and the potential for resource availability and mobilisation 31
