List of Figures	xxiii
List of Tables	xxvii
Abbreviations & Acronyms	xxxi
1. Introduction	1
1.1 Foreword.....	1
1.2 Motivation	4
1.3 Aims & Objectives	5
1.4 Methodology.....	6
1.4.1 Managing Complexity	6
1.4.2 Methods & Data Used	7
1.5 Overview of the Thesis	9
2. Rare Earth Elements	11
2.1 Definitions	11
2.1.1 The Group of Rare Earth Elements (REE).....	11
2.1.2 The Terms “Rare” & “Earth”.....	12
2.1.3 Classifications of the REE.....	12
2.2 Geology of REE	13
2.2.1 Mineralogy	13
2.2.2 Major Deposit Classes	14
2.3 From Obscurity to Fame	14
2.4 Applications of REE.....	18
2.5 Rare Earths in Numbers.....	22
2.5.1 World Production.....	22
2.5.2 World Consumption	24
2.5.3 Data Availability & Accuracy.....	25
3. Rare Earths Industry	27
3.1 Global Rare Earth Resources.....	27
3.1.1 Australia	31
3.1.2 Brazil	31
3.1.3 Canada	32
3.1.4 China.....	33

3.1.5 Greenland	35
3.1.6 India.....	35
3.1.7 Kenya	36
3.1.8 Kyrgystan.....	36
3.1.9 Madagascar	36
3.1.10 Namibia	36
3.1.11 Russia	37
3.1.12 South Africa	37
3.1.13 Sweden	37
3.1.14 Turkey	37
3.1.15 United States of America	38
3.2 Technical Reports & Feasibility Studies	40
3.2.1 Preliminary & Prefeasibility Studies for REE Mining Projects	40
3.2.2 General Reporting Practices in Feasibility Studies	45
3.3 The Market of Rare Earth Elements.....	48
3.3.1 Analysis of the Market	48
3.3.2 Policies & Strategies	50
3.3.3 Broken REE Supply Chain	53
3.3.4 Environmental Impacts & Legislation Issues	55
3.4 The Need to Improve the REE-Mining Evaluation Process.....	56
4. Setting of Parameters & Evaluation of Boundary Conditions	59
4.1 Rare Earth Mining Evaluation	59
4.2 Setting of Mining Evaluation Input Parameters.....	61
4.2.1 Physical & Geologic Characteristics.....	61
4.2.2 Geomechanical Properties	61
4.2.3 Technical & Operational Factors	62
4.2.4 Environmental, Health & Safety Conditions	63
4.2.5 Economic Parameters & Financial Strategy.....	65
4.2.6 Social & Political Concerns	67
4.2.7 Classification of Evaluation Criteria for REE Mining.....	68
4.3 Setting of Mining Methods for Consideration	70
4.3.1 Surface Mining Methods	71
4.3.1.1 Surface Mechanical Mining Methods.....	71
4.3.1.2 Surface Aqueous Mining Methods	72
4.3.2 Underground Mining Methods.....	73
4.3.2.1 Unsupported Underground Mining Methods	73
4.3.2.2 Supported Underground Mining Methods	74
4.3.2.3 Caving Mining Methods	76
4.3.3 Transition from Surface to Underground Mining Operations.....	76

5. Techniques & Methods Used in the Assessment Tool	77
5.1 Setting the Mining Evaluation Toolkit	77
5.2 Decision Making Methods.....	77
5.2.1 Literature Review	78
5.2.2 Description of AHP.....	83
5.2.3 Implementation of AHP in the Assessment Tool	85
5.3 Mining Method Selection (MMS) Schemes.....	86
5.3.1 Qualitative & Quantitative Ranking Systems	86
5.3.2 Description of the Numerical Ranking Process	87
5.3.3 Implementation of the Numerical Process in the Assessment Tool	88
5.4 Maptek Vulcan	89
6. Description of the Assessment Tool for the Mineability of REE Deposits	91
6.1 General Structure of the Assessment Tool	91
6.2 First Stage: Early Evaluations.....	92
6.2.1 Evaluation of Basic Boundary Conditions	92
6.2.2 Early Mining Method Indications	95
6.2.3 REE Marketability & Pricing	96
6.2.4 Production Rate & Life of Mine	97
6.3 Second Stage: Preliminary Evaluations	99
6.3.1 Preliminary Evaluation of Mining Methods.....	99
6.3.2 Initial Capital & Mining Cost Evaluations	102
6.4 Third Stage: Basic Assessments.....	105
6.4.1 Basic Evaluation of Mining Methods.....	105
6.4.2 Assessments for the Most Suitable Mining Methods	107
6.4.3 Cost Calculations	108
6.4.4 Initial Cut-Off-Grade Calculations	110
6.4.5 Mineable Reserves, Production Rate & Life of Mine.....	112
6.5 Fourth Stage: Final Decisions	113
6.5.1 Decision on Mining Method & Method Variation.....	113
6.5.2 Determination of Costs, Cash Flows & Discount Rates.....	113
6.5.3 Sensitivity Analysis.....	120
6.5.4 Mine Strategy Optimisation.....	122
6.5.5 Proceeding to a Feasibility Study & Investment Decisions	129
7. Case Studies.....	133
7.1 Evaluation of Potential REE Projects.....	133
7.2 Case Study: Bokan Mountain REE Project.....	135
7.2.1 Project Description	135
7.2.2 Geological Setting & Mineralisation	136

7.2.3	Early Evaluation Stage	137
7.2.3.1	Mineral Resources & Block Model	137
7.2.3.2	Environmental Concerns.....	139
7.2.3.3	Political Stability & Social Licence.....	140
7.2.3.4	Metallurgical Tests & Processing Development	140
7.2.3.5	REE Marketability & Pricing	142
7.2.3.6	Early Mining Method Indications.....	147
7.2.3.7	Initial Production Rate & Life of Mine Evaluations	147
7.2.4	Preliminary Evaluation Stage	148
7.2.4.1	Preliminary Mining Method Selection	148
7.2.4.2	Initial Capital & Mining Cost Evaluations.....	150
7.2.5	Basic Assessments	152
7.2.5.1	Basic Mining Method Selection	152
7.2.5.2	Project Planning & Requirements.....	154
7.2.5.3	Capital & Mining Cost Calculations	158
7.2.5.4	Initial Cut-Off-Grade Calculations.....	159
7.2.5.5	Mineable Reserves, Production Rates & Life of Mine Calculations	160
7.2.6	Final Decisions.....	162
7.2.6.1	Mining Method & Method Variation Selection	162
7.2.6.2	Determination of Costs, Cash Flows & Discount Rates	166
7.2.6.3	Sensitivity Analysis	167
7.2.6.4	Mine Strategy Optimisation	169
7.2.6.5	Investment Decisions	171
7.3	Case Study: Lofdal REE Project	172
7.3.1	Project Description	172
7.3.2	Geological Setting & Mineralisation	174
7.3.3	Early Evaluation Stage	176
7.3.3.1	Mineral Resources & Block Model	176
7.3.3.2	Environmental Concerns.....	178
7.3.3.3	Political Stability & Social Licence	180
7.3.3.4	Metallurgical Tests & Processing Development	181
7.3.3.5	REE Marketability & Pricing	183
7.3.3.6	Early Mining Method Indications.....	186
7.3.3.7	Initial Production Rate & Life of Mine Evaluations	186
7.3.4	Preliminary Evaluation Stage	187
7.3.4.1	Preliminary Mining Method Selection	187
7.3.4.2	Initial Capital & Mining Cost Evaluations.....	189
7.3.5	Basic Assessments	191
7.3.5.1	Basic Mining Method Selection	191
7.3.5.2	Project Planning & Requirements.....	193

7.3.5.3 Capital & Mining Cost Calculations	199
7.3.5.4 Initial Cut-Off-Grade Calculations.....	202
7.3.5.5 Mineable Reserves, Production Rates & Life of Mine Calculations	203
7.3.6 Final Decisions.....	204
7.3.6.1 Mining Method & Method Variation Selection	204
7.3.6.2 Determination of Costs, Cash Flows & Discount Rates	207
7.3.6.3 Sensitivity Analysis	210
7.3.6.4 Mine Strategy Optimisation	211
7.3.6.5 Investment Decisions	216
8. Concluding Remarks, Discussion & Further Work	217
8.1 The Big Picture.....	217
8.2 The Final Discussion	218
8.3 Further Work & Continuation of Research	219
Bibliography	221
Appendix A: AHP Tabulations.....	255
A.1 Tables for Pairwise Comparisons	255
Appendix B: Bokan Mountain REE Project Data	259
B.1 Pairwise Comparisons of Parameters for the Bokan Mountain REE project.....	259
B.2 Rankings of the Mining Methods for the Bokan Mountain REE project	262
B.3 Detailed Cost Summaries for the Bokan Mountain REE Project	268
Appendix C: Lofdal REE Project Data	273
C.1 Pairwise Comparisons of Parameters for the Lofdal REE project	273
C.2 Rankings of the Mining Methods for the Lofdal REE project.....	276
C.3 Detailed Cost Summaries for the Lofdal REE Project.....	282
Electronic Supplement	287
