

|  |     |
|--|-----|
| Table of contents.....   | III |
| List of abbreviations .....  | V   |
| 1. Introduction .....  | 1   |
| 1.1 Acute Lymphoblastic Leukemia .....   | 1   |
| 1.2 Genetic and genomic study of B-cell precursor acute lymphoblastic leukemia ..... | 1   |
| 1.3 MicroRNAs .....  | 4   |
| 1.4 MicroRNAs in B-cell precursor acute lymphoblastic leukemia .....                 | 7   |
| 1.5 MicroRNA cluster miR-497~195 .....   | 8   |
| 1.6 The NOD/SCID mouse model in the study of ALL .....                               | 9   |
| 1.7 Aim .....  | 11  |
| 2. Materials and Methods .....   | 12  |
| 2.1 Materials.....   | 12  |
| 2.1.1 Standard laboratory equipment.....   | 12  |
| 2.1.2 Cell culture .....   | 12  |
| 2.1.3 Cloning and lentiviral transduction .....                                      | 13  |
| 2.1.4 Flow cytometry and mouse model .....   | 13  |
| 2.1.5 Analyses of DNA and RNA .....  | 14  |
| 2.1.6 Chemicals .....  | 14  |
| 2.1.7 Instruments .....  | 15  |
| 2.1.8 Softwares .....  | 15  |
| 2.2 Methods .....  | 16  |
| 2.2.1 Cell culture .....   | 16  |
| 2.2.2 MiRNA overexpression .....   | 16  |
| 2.2.3 Flow cytometry-based assessment of cell growth and viability.....              | 18  |
| 2.2.4 Xenograft model.....   | 18  |
| 2.2.5 Analysis of the transcriptome.....   | 20  |

|   |           |
|---|-----------|
| 2.2.6 Statistical methods.....  | 22        |
| <b>3. Results .....</b>   | <b>25</b> |
| 3.1 Small RNA expression profiling of BCP-ALL xenograft samples .....                     | 25        |
| 3.2 Expression of miR-497~195 in BCP-ALL.....   | 28        |
| 3.3 Expression of miR-497~195 is associated with promoter methylation.....                | 33        |
| 3.4 The miR-497~195 cluster regulates genes involved in cell proliferation....            | 35        |
| 3.5 MiR-497~195 effects on BCP-ALL cell lines <i>in vitro</i> and <i>in vivo</i> .....    | 37        |
| 3.6 Transduction of BCP-ALL xenograft samples .....                                       | 39        |
| 3.7 Overexpression of miR-497~195 impairs engraftment of BCP-ALL<br>xenograft cells ..... | 41        |
| 3.8 Impact of miR-497~195 overexpression on BCP-ALL transcriptome .....                   | 45        |
| <b>4. Discussion .....</b>  | <b>47</b> |
| <b>5. Summary .....</b>   | <b>54</b> |
| 5.1 Summary.....  | 54        |
| 5.2 Riassunto (Abstract in Italian).....  | 56        |
| <b>References .....</b>   | <b>58</b> |
| <b>Acknowledgements .....</b>   | <b>78</b> |
| <b>Statutory declaration .....</b>  | <b>79</b> |
