

<b>Table of Contents</b>	<b>Page</b>
<b>1 Introduction .....</b>	<b>1</b>
1.1 Background and problem .....	1
1.2 Objective .....	2
1.3 Approach.....	2
<b>2 Literature analysis .....</b>	<b>4</b>
2.1 Defining environmental product innovation .....	4
2.2 Determinants of environmental product innovation .....	5
2.2.1 Regulatory determinants .....	5
2.2.2 Market and technology-related determinants .....	6
2.2.3 Company-specific determinants.....	7
2.3 Defining the digital transformation of production .....	9
2.4 Impacts of the digital transformation of production on the environment .....	9
<b>3 Development of a conceptual framework for the digital transformation of production as a determinant of environmental innovation .....</b>	<b>12</b>
3.1 Potentially enabling effects of the digital transformation of the production environment.....	12
3.1.1 Improved company-internal integration of the innovation process .....	13
3.1.2 Enabling new business models.....	13
3.1.3 Improved company-external integration of the innovation process .....	14
3.2 Conceptual framework .....	15

<b>4</b>	<b>Research method of the empirical analyses.....</b>	<b>17</b>
4.1	Database.....	17
4.2	Methodology.....	17
<b>5</b>	<b>Operationalisation of the variables and model design .....</b>	<b>19</b>
5.1	Dependent variable: Environmental product innovation .....	19
5.2	Explanatory variable.....	20
5.2.1	Digital transformation of the production environment .....	20
5.2.2	Control variables I: Environmental management.....	22
5.2.3	Control variables II: Research and development.....	22
5.2.4	Control variables III: General company characteristics .....	23
<b>6</b>	<b>Evaluating the bivariate analyses.....</b>	<b>27</b>
6.1	Environmental product innovation activity in Germany's manufacturing sector.....	27
6.2	Current state of the digital transformation of the production environment.....	29
6.3	Linking digital transformation and environmental product innovation.....	30
<b>7</b>	<b>Evaluating the multivariate analyses .....</b>	<b>34</b>
7.1	Logistic regression model on generating product innovation and environmental product innovation .....	34
7.2	Assessing the model's accuracy .....	35
7.3	Results of the logistic regression model .....	36
7.3.1	Influence of the digital transformation of the production environment .....	36
7.3.2	Influence of environmental management .....	37
7.3.3	Influence of research and development .....	38
7.3.4	Influence of general company characteristics .....	39

<b>8</b>	<b>Summary: the digital transformation as a factor influencing environmental product innovation .....</b>	<b>40</b>
8.1	Discussion of the empirical results .....	40
8.2	Summary and outlook .....	41
	<b>References .....</b>	<b>44</b>
