Content

Introduction ........................................................................................................ 9

1 Pre-graduate Preparation ............................................................................. 13
   1.1 The Teaching Profession in Contemporary Society ........................... 13
   1.2 View of the Teaching Profession from an International Perspective 16
   1.3 Teachers’ Qualification Pre-requisites in Countries of the European Union ................................. 20
   1.4 Pre-graduate Education of Teachers in the Slovak Republic .......... 21
   1.5 Studies with a Pedagogical Focus at Slovak Universities .............. 26

2 Supervised Teaching Practice for University Students in Pre-graduate Preparation of Teachers – Theory and Reality 35
   2.1 Supervised Teaching Practice – Theoretical Outline ......................... 35
   2.2 The Goal, Functions and Tasks of Supervised Teaching Practice ...... 39
   2.3 The Subjects and the Environment of Supervised Teaching Practice 42
   2.4 The Realisation of Supervised Teaching Practice and Its Types ...... 53
   2.5 Factors Influencing the Realisation of Supervised Teaching Practice .......................................................................................... 63
   2.6 Supervised Teaching Practice Student Portfolio .............................. 65

3 Personality of a University Student in Supervised Teaching Practice ........................................................................................................... 79
   3.1 Personality of a University Student versus His or Her Physical, Psychological and Sociological Maturity ......................................................... 79
   3.2 Taxonomies of University Students in Contemporary Theory .......... 89
   3.3 Personality of a University Student in Contemporary Legislation ... 100
4 Experimental Verification of a Serious Game ........................................ 103

4.1 Theoretical Outline of the Experimental Method and Additional
Methods for Collecting Information ................................................. 103

4.2 A Serious Game from the Perspective of the Factor Rotation
Technique in a Quasi-Experiment .................................................. 112

4.2.1 Causality and Hypotheses of the Quasi-Experiment ............. 112

4.2.2 Methods and Subjects in the Process of Realizing the
Quasi-Experiment ........................................................................ 113

4.2.3 The Analysis and Interpretations of the Quasi-
Experiment's Findings .................................................................. 116

4.2.4 The Quasi-Experiment's Results ........................................ 120

5 Analysis of Supervised Teaching Practice Using SWOT ........... 123

5.1 Theoretical Pre-requisites of the SWOT Analysis ................. 123

5.2 Interpretation of Collected Answers through the SWOT
Analysis No. 1 .............................................................................. 126

5.2.1 Strengths ............................................................................. 126

5.2.2 Opportunities ...................................................................... 127

5.2.3 Weaknesses ........................................................................ 127

5.2.4 Threats ............................................................................... 128

5.3 Interpretation of Collected Answers Using the SWOT Analysis
No. 2 ............................................................................................ 129

5.3.1 Strengths ............................................................................. 129

5.3.2 Opportunities ...................................................................... 130

5.3.3 Weaknesses ........................................................................ 131

5.3.4 Threats ............................................................................... 131

5.4 Discussion ................................................................................ 132

5.5 The SWOT Analyses Results .................................................. 136
