

II. Table of Content

1. Kurzzusammenfassung	1
2. Abstract.....	3
3. Introduction	5
4. State of the Art	9
4.1. Pathways of Oxazolidinone Synthesis	9
4.1.1. Combination reactions.....	9
4.1.2. Cyclization reactions	12
4.1.3. Conversion reactions.....	13
4.2. Literature known catalysts for the reaction of epoxide with isocyanate towards oxazolidinone.....	14
5. Motivation and Objectives	17
6. Results and Discussion	19
6.1. General remarks on chemicals and analytical techniques used	20
6.1.1. Chemicals and model system.....	20
6.1.2. Analytical techniques.....	21
6.1.2.1. Infrared spectroscopy	21
6.1.2.2. Nuclear magnetic resonance spectroscopy.....	25
6.2. Tetrabutyl ammonium halides and trihalides by addition of iodine	27
6.2.1. Study on the synthesis of oxazolidinones catalyzed by tetra- <i>n</i> -butyl ammonium halides	27
6.2.2. Study on the synthesis of oxazolidinones catalyzed by tetrabutyl ammonium halides with addition of iodine.....	36
6.2.3. Interim concluding summary on TBAX and TBAX/I ₂ catalysis.....	41
6.3. Polymer sheet synthesis.....	43
6.3.1. Experimental setup.....	43
6.3.2. Results and discussion on polymer sheet synthesis	44
6.3.3. Mechanical and thermal properties of the polyoxazolidinone materials.....	54
6.3.4. Interim concluding summary on TBAX/I ₂ polymer sheet synthesis.....	58
6.4. Triphenylantimony and iodine.....	60

6.4.1.	Results and discussion on experiments performed.....	60
6.4.2.	Interim concluding summary on $\text{Ph}_3\text{Sb}/\text{I}_2$ catalysis	66
7.	Summary.....	67
8.	Experimental section	73
8.1.	Materials and methods	73
8.1.1.	Materials	73
8.1.2.	Instruments and data treatment.....	73
8.2.	General reactions procedures and instructions.....	74
8.2.1.	OCGE and MDI coupling reactions.....	74
8.2.1.1.	Epoxide MDI coupling reactions using tetra-n-butyl ammonium halides (Cl, Br, I)	74
8.2.1.2.	Epoxide MDI coupling reactions using tetra-n-butyl ammonium halides (Cl, Br, I) with iodine	75
8.2.2.	BADGE and MDI polymer sheet synthesis	76
8.2.2.1.	Preparation of the catalyst mixture $\text{TBAX} + \text{I}_2$	76
8.2.2.2.	Synthesis of oxazolidinone isocyanurate polymer sheets from BADGE and MDI catalyzed by $\text{TBAX} + \text{I}_2$	77
8.2.3.	Triphenylantimony iodine.....	79
8.2.3.1.	General reaction procedure 6: OCGE MDI coupling reactions catalyzed by triphenylantimony and iodine	79
9.	Literature.....	81
10.	Appendix.....	87
10.1.	Reaction details from DFT level calculations on Triphenylantimony and iodine ..	87
10.1.	Hazardous Material.....	92
10.2.	List of Figures	95
10.3.	List of Schemes	97
10.4.	List of Tables	98
11.	Danksagung.....	101
12.	Eidesstattliche Versicherung	103
