

Table of contents

Preliminary remarks	I
List of abbreviations	I
List of publications	III
Conferences	IV
Declaration of contribution as co-author	V
Summary	VI
Zusammenfassung	IX
Chapter 1	1
General introduction	1
1 Red juice as functional foods	1
2 Red berry fruits	3
3 Red berry juices	12
4 Production of red berry juice	15
5 Ultrasound	26
6 Aims of the thesis	33
References	35
Chapter 2	47
Effects of Ultrasound on the Enzymatic Degradation of Pectin	47
1 Introduction	49
2 Materials and methods	52
3 Results and discussion	58
4 Conclusions	78
References	80

Chapter 3	87
Interactions of Anthocyanins with Pectin and Pectin Fragments in Model Solutions	87
1 Introduction	89
2 Materials and methods	90
3 Results and discussion	95
Supporting information	107
References	111
Chapter 4	117
Concluding remarks	117
1 Ultrasound-assisted enzymatic maceration	118
2 Anthocyanin-pectin complexation in red berry juices: a perspective at the molecular level	127
References	137
Acknowledgment/Danksagung	141
Curriculum Vitae	142
