Acknowledgments for the Fourth Edition —— VII

Acknowledgments for the First to Third Editions —— IX

Preface —— XXVII

Chapter 1
Primer on Derivatives —— 1
What Are Derivatives? —— **1**
Who Buys and Sells Derivatives? —— **2**
Where Are Derivative Contracts Bought and Sold? —— **2**
Two Major Types of Derivatives —— **3**
Forward Contracts —— **3**
Option Contracts —— **4**
Forward Contracts —— **4**
Long Forward in Action —— **5**
Short Forward in Action —— **6**
Options —— **7**
Call Options —— **7**
Put Options —— **8**
American versus European Options —— **9**
Examples of Puts and Calls in Action —— **9**
Using a Long Call —— **9**
Using a Short Call —— **11**
Using a Long Put —— **11**
Using a Short Put —— **12**
4,000 Years of Derivatives —— **13**
Conclusions —— **14**
Risk Notepad 1.1: OTC-traded versus Exchange-Traded Derivatives —— 14
Review Questions —— **17**
Bibliography —— **18**

Chapter 2
Employee Stock Options —— 19
ESOs: A Major Pillar of Executive Compensation —— **20**
Why Do Companies Use ESOs? —— **21**
Aligning Incentives —— **21**
Hiring and Retention —— **21**
Adjusting Compensation to Employee Risk Tolerance Levels —— **22**
Employee Tax Optimization —— **23**

Bibliografische Informationen

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

Cash Flow Optimization — 23
Cash Flow Effects at Issuance — 24
Cash Flow Effects at Exercise or Expiration — 24
Option Valuation Differences and Human Resource Management — 25
Problems with ESOs — 35
Employee Motivation — 37
The Share Price of "Good Companies" — 37
Motivating Undesired Behaviors — 38
Improving Performance — 38
Absolute Versus Relative Performance — 39
Possible Solutions to Employee Stock Option Problems — 39
Premium-Priced Stock Options — 39
Index Options — 40
Restricted Shares — 43
Omnibus Plans — 43
Conclusions — 43
Review Questions — 44
Bibliography — 45

Chapter 3
Roche Holding: The Company, Its Financial Strategy, and Bull Spread Warrants — 49
Roche Holding AG: Transition from a Lender to a Borrower — 50
Loss of the Valium Patent in the United States — 50
Rapid Increase in Costs, Market Growth, and Industry Consolidation — 51
Roche's Unique Capital Structure — 51
Limitations on Using Hybrid Debt Instruments — 52
Roche Brings in a Leader and Replaces Its Management Committee — 53
A New Financial Strategy — 53
Build an Acquisition War Chest by Borrowing at Opportune Times — 54
Minimize Cash Outflows by Borrowing with Hybrid Debt Issues — 54
Prune Divisions and Sell Off Dead Wood to Increase Cash Flows — 55
Reduce Dividends to Increase Cash Flows — 55
Improve Roche's Financial Transparency and Stock Market Profile — 56
Roche's 1991 Bull Spread Issue — 56
Why Did Roche Choose Long-Term, Dollar-Denominated Debt? — 56
Details of the Bull Spread Issue — 57
Risk Notepad 3.1: What Are the Differences Between Warrants and Options? — 58
Target Investor Group — 59
Analysis of the Bull Spread's Return to Investors — 59
Analyzing the Return to Bond Holders — 61

Analyzing the Return to Warrant Holders — **62**
Implications: Share Prices at or below CHF 7,000 on May 16, 1994 — **63**
Implications: Share Prices at or above CHF 10,000 on May 16, 1994 — **64**
Implications: Share Prices between CHF 7,000 and CHF 10,000 on May 16, 1994 — **65**
The Foreign Exchange Risk of Roche's Warrants — **66**
Analyzing the Return to Bondholders and Warrant Holders (i.e., Bond Cum Warrants) — **67**
The Foreign Exchange Risk of the Bond cum Warrants — **68**
Analyzing the Bull Spread Issue from Roche's Side — **68**
Comparing the Costs of the Bull Spread Issue to a Straight Issue — **69**
Risk Notepad 3.2: Calculation of the Weighted Average Return on Roche's Bond Cum Warrants — 70
What Are the Sources of Capital Market Imperfections? — **72**
A Few Last Words about Arbitraging Capital Markets — **73**
Roche's Bull Spread Issue: The Result — **74**
Conclusions — **75**
Review Questions — **77**
Bibliography — **78**

Chapter 4
The Three Amigos and Their Strategy — 79
Developing and Implementing a Speculation Strategy: A Conversation — **80**
A Deeper Look at the Three Amigos' Strategy — **89**
Why Getty's Share Price Would Not Fall — **89**
Why Getty's Share Price Had Not Already Increased — **90**
Wealth Preservers — **90**
Zealous Speculators — **91**
New Buyers: Raiders and "Arbs" — **91**
Option Dealers — **91**
Step by Step: The Three Amigos' Speculation Strategy — **92**
Step 1: The Speculators — **92**
Step 2: The Dealers — **93**
Step 3: Wealth Preservers — **94**
Step 4: Repo Credit Market — **94**
Step 5: The Three Amigos and Other Speculators — **94**
Put–Call Parity — **95**
Another Look at the Three Amigos' Speculative Strategy — **96**
Are Options Always Efficiently Priced? — **98**
What Happened to the Three Amigos' Trade? — **99**
Conclusions — **99**

Review Questions — 100
Bibliography — 101

Chapter 5
Metallgesellschaft AG — 102
Metallgesellschaft: Evolution of the Company and Its Product Lines — 102
Energy Derivatives at MGRM — 103
Energy Markets on a Roller Coaster — 104
Rising Energy Prices and Backwardation — 105
Falling Energy Prices and Contango — 105
Risk Notepad 5.1: What Is the Difference between Contango and Backwardation? — 106
MGRM'S Innovative Energy Derivative Products — 107
MGRM's Embedded Options — 109
Hedging MGRM's Forward Energy Exposures — 110
Payoff Profile of a Short Forward Position — 110
The Ideal Hedge Was Not Available — 111
Physical Storage Hedge — 112
Stack-and-Roll Hedge — 112
Cash Flow Effects of a Stack-and-Roll Hedge — 114
Scenario #1: The Price of Oil Falls and Basis Falls for Two Consecutive Months — 116
July 1993 — 116
August 1993 — 116
September 1993 — 117
Summary: August and September — 118
Stack-and-Roll Hedge Ratios — 119
MG Calls It Quits — 120
MGRM Butts Heads with NYMEX and the CFTC — 121
MGRM'S Profitability: It's All in How You Account for It — 122
MGRM'S Credit Rating — 122
The Effects of an Itchy Trigger Finger — 123
Was MGRM Hedging or Speculating? — 123
Corporate Governance Issues — 124
Conclusions — 125
Review Questions — 126
Bibliography — 126

Chapter 6
Swaps that Shook an Industry — 128
P&G's Motivation for the Swaps — 129
Motives for the U.S. Dollar–Denominated Interest Rate Swap — 130

Motives for the German Mark–Denominated Interest Rate Swap — 131
Motives for Using the Over-the-Counter Market — 131
The U.S. Dollar–Denominated Swap — 132
Plain Vanilla Swap — 132
P&G's Gamble: The Speculative Side-Bet — 133
Viewing P&G's Speculative Side-Bet as a Short Call Option — 134
Risk Notepad 6.1: Security Yield versus Price — 136
The Effect of Rising U.S. Interest Rates — 137
Losses on P&G's U.S. Dollar Interest Rate Swap — 141
German Mark-Denominated Interest Rate Swap — 143
The Suit against Banker's Trust — 145
Risk Notepad 6.2: Value at Risk — 147
The P&G-BT Settlement — 147
How Did BT Fare after the Swaps? — 148
P&G-BT from an Investor's Perspective — 149
The Landmark P&G-BT Court Opinion — 150
Major Legal Issues — 150
An Unusual Court Opinion — 151
Summary of the Court Opinion — 152
Disclosure Reform after P&G-BT — 153
Should Corporate Treasuries Be Profit Centers? — 153
Conclusions — 154
Review Questions — 155
Appendix 6.1: What Is an Interest Rate Swap? — 155
Bibliography — 157

Chapter 7
Orange County — 159
Robert Citron and the Orange County Board of Supervisors — 159
The Orange County Investment Pool — 162
The Major Risks Facing Assets in the OCIP Portfolio — 164
Credit Risk — 164
Market Risk — 165
Liquidity Risk — 166
OCIP's Assets and Funding Sources — 166
Structured Notes — 166
Risk Notepad 7.1: Other Assets in the OCIP Portfolio — 168
Fixed-Income Securities — 169
OCIP's Funding Sources — 170
Reverse Repurchase Agreements — 170
Leveraging the OCIP Portfolio — 171
Effects of Leverage on OCIP's Return — 173

OCIP's Rising Returns: Effects of Falling Interest Rates — **174**
OCIP's Return Stabilizes: 1993 — **175**
OCIP's Returns Plummet: 1994—Effects of Rising Interest Rates — **176**
The Consequences — **177**
Market Risk Causes Liquidity Risk — **178**
Government Paralysis — **179**
Citron Resigns — **179**
Lack of Liquidity Leads to Bankruptcy — **179**
Fire Sale of the OCIP Portfolio — **180**
Monday-Morning Quarterbacking — **180**
Was Orange County Truly a Derivative-Related Failure? — **180**
Was Orange County Really Bankrupt? — **182**
Was Orange County Insolvent? — **182**
Was Orange County Really Illiquid? — **182**
Was It a Mistake to Liquidate the OCIP Portfolio? — **183**
Could the Debacle Have Been Predicted? — **184**
Sentences, Blame, and Reform — **185**
Robert Citron — **185**
Other Players: Matthew Raabe and Merrill Lynch — **186**
Stealth Supervision: Shared Blame — **187**
Governance Reforms — **188**
Lessons Learned from Orange County — **188**
Safety, Liquidity, and High Yield Are an Impossible Combination — **188**
If You Can't Explain It, Don't Do IT — **189**
Conclusions — **189**
Review Questions — **190**
Bibliography — **190**

Chapter 8
Barings Bank PLC — 192
Barings Bank PLC — **192**
Nick Leeson: From London to Jakarta to Singapore — **193**
What Was Leeson Supposed to Be Doing at BFS? — **194**
Risk Notepad 8.1: What Are Stock Indices and Stock Index Futures Contracts? — 196
Five Eights Account — **196**
Risk Notepad 8.2: Errors Accounts — 197
Leeson's Trading Strategy: Doubling — **199**
Risk Notepad 8.3: Doubling — 200
Funding Margin Calls — **201**
Funding Source #1: Increasing Commission Income by Offering Deals at Non-Market Prices — **202**

Funding Source #2: Using the Financial Resources of Barings as His Cash Cow — **202**
Funding Source #3: Booking Fictitious Trades and Falsifying Records — **203**
Funding Source #4: Selling Options — **204**
Risk Notepad 8.4: Leeson's Most Flagrant Falsification Scheme — 204
Net Profit/loss Profile of Leeson's Exposures — **206**
Leeson's Long Futures Positions — **206**
Leeson's Short Straddles — **207**
Profit/loss Profile: Combining *One* Short Straddle and *One* Long Futures Contract — **209**
Profit/loss Profile: Combining a Long Futures Position and "Numerous" Short Straddles — **210**
Massive Purchases of Nikkei 225 Futures Contracts — **211**
Beyond Irony: The Barings Failure in a Broader Time Frame — **212**
A Bank for a Pound — **213**
Aftermath of the Barings Failure — **215**
How Could Barings Have Caught Leeson Sooner? — **215**
Conclusions — **218**
Review Questions — **220**
Bibliography — **220**

Chapter 9
Long-Term Capital Mismanagement — 222
Risk Notepad 9.1: What Is a Hedge Fund? — 223
LTCM: The Company — **224**
The LTCM Business — **224**
The Principals — **224**
LTCM'S Investment Strategy — **226**
Identify Small Market Imperfections — **226**
Use a Minimum of Equity Capital — **227**
The Effects of Leverage on Risk and Return — **229**
Elevate Risks to Relatively High but Controlled Levels — **230**
Diversification — **230**
Value at Risk (VaR) — **230**
Secure Long-Term Funding — **231**
Charge Hefty Fees — **232**
LTCM'S Impressive Performance: 1994–1997 — **233**
LTCM'S Contributions to Efficient Markets — **236**
Why and How LTCM Failed — **236**
Catalyst #1: Exogenous Macroeconomic Shocks — **237**
U. S. and Global Yield Spreads Widen — **237**
Global Events that Spurred Yield-Spread Changes — **237**

Asian Tiger Crisis of 1997 — **237**
Russian Default — **238**
Volatile Political and Economic Climate — **239**
Risk Notepad 9.2: What Is Contagion? — 239
Catalyst #2: Endogenous Shocks — **240**
Value at Risk Analysis Gone Awry — **241**
Model Risk — **241**
Catalyst #3: Feedback Shocks — **242**
Aggressive Marking to Market — **243**
Clearing Services and Legal Uncertainties — **243**
A Ray of Sunshine: LTCM's Credit Line — **244**
The Beginning of the End — **244**
The Fed, Warren Buffett, and the Rescue of LTCM — **245**
Risk Notepad 9.3: Another Look at Warren Buffett's Offer for LTCM — 247
Conclusions and Lessons — **249**
Be Careful What You Wish For — **249**
Beware of Model Risk — **249**
All for One and "1" for All — **250**
Leverage Is a Fair-Weather Friend — **250**
Financial Transparency Is the First Step in Meaningful Reform — **251**
In the Long Run, Bet on Global Financial Market Efficiency — **251**
You Can't Float Without Liquidity — **251**
Some Things Are Worth Doing for the *Greater Good* — **252**
Epilogue — **252**
What Happened to the Principals, Creditors, Investors, and Consortium? — **252**
The Principals and Employees — **253**
Creditors and Investors — **253**
The Consortium — **253**
Review Questions — **254**
Appendix 9.1: Primer on LTCM's Major Trades and Financial Instruments — 255
Appendix 9.2: UBS and the LTCM Warrant Deal — 258
Bibliography — **261**

Chapter 10
Amaranth Advisors LLC — 263
Amaranth Advisors LLC — **263**
Natural Gas Markets — **265**
Amaranth's Natural Gas Trading Strategy and Performance: 2005–2006 — **268**
2005: Using Long Calls to Bet on the Weather — **268**
2006: Using Futures and Spreads to Bet on the Weather — **269**

Amaranth's Directional Bets: Short Futures Positions — 270
Risk Notepad 10.1: Measuring Natural Gas and Putting Amaranth's Positions into Perspective — 272
Amaranth's Relative Value Bets: Long and Short Spread Positions — 273
Risk Notepad 10.2: Primer on Spread Trades — 274
Amaranth Seeks to Unwind Its Positions — 275
2007: Follow the Money — 278
Follow the Lawsuits — 279
What Caused Amaranth's Catastrophic Losses? — 279
Inadequate Risk Management Practices — 279
Lack of Liquidity — 281
Huge Open Positions in Natural Gas Futures Contracts — 282
Net Investor Withdrawals — 282
Competitors' Reactions to Amaranth's Financial Crisis — 283
Extraordinarily Large Movements in Market Prices — 283
Explosion or Implosion? Who Got Hurt? — 284
Questions Remaining after Amaranth's Fall — 285
Did the Futures Markets Function Effectively? — 286
Did Amaranth Dominate the Natural Gas Futures Markets? — 286
Did Amaranth Engage in Excessive Speculation? — 288
Did Amaranth Commit Regulatory Arbitrage? — 289
Did Amaranth Manipulate the Price of Natural Gas? — 291
CFTC versus FERC — 292
What Is Price Manipulation? — 292
Manipulating Price Spreads by Affecting Storage — 293
Risk Notepad 10.3: A Tale of Two Hedge Funds — 293
Manipulating Prices by Playing One Exchange Off Another — 295
Price Manipulation on February 24, 2006? — 296
Price Manipulation on April 26, 2006? — 296
Issues Relating to the Price Manipulation Charges against Amaranth — 297
Do Speculators Stabilize or Destabilize Prices? — 297
Does Futures Speculation Affect the Underlying's Price? — 297
Did Amaranth's Large Open Interest Affect Futures Prices? — 298
Other Doubts about the Price Manipulation Cases against Amaranth — 298
What Happened to the CFTC and FERC Suits? — 299
Conclusions — 300
Review Questions — 301
Bibliography — 301

Chapter 11
Société Générale and Rogue Trader Jérôme Kerviel — 303
Société Générale (SocGen) — **303**
Jérôme Kerviel (JK) — **303**
Back, Middle, and Front Office Jobs at SocGen — **304**
Arbitraging Turbo Warrants — **304**
What Are Plain Calls and Puts? — **305**
What Are Turbo Warrants? — **305**
Primer: Hedging Purchases and Sales of Turbo Warrants to Customers — **306**
Primer on Arbitraging Turbo Warrants — **307**
How JK Built His Mountainous Positions — **310**
JK's Fraudulent Methods — **314**
Gaining Unauthorized Access to SocGen's Computer Systems — **314**
Using Contract Cancellations and Modifications to Mask Positions and Risks — **315**
Entering Pairs of Offsetting Trades at Artificial Prices — **315**
Posting Intra-monthly "Provisions" — **316**
Exploiting Supervisor Turnover — **316**
Navigating SocGen's Dysfunctional Risk Management System — **316**
Using Process Time Lags to Avoid Detection — **317**
Using Net Positions to Hide Enormous Gross Positions — **317**
Exploiting Unrealized (versus Realized) Profits — **317**
Playing the Law of Averages — **317**
Reluctance to Take Vacations — **318**
Using "Technical Counterparties" for Trades — **318**
Dealing with Middle Office and Back Office Inquiries — **318**
How JK Was Caught — **318**
Paying the Piper — **320**
Did SocGen Know about JK's Fictitious Trades? — **321**
Network Incentives: Why Did JK Go Undetected for So Long? — **322**
SocGen's Bonus Incentives — **324**
Doubling Strategies, Prospect Theory, and Survival Theory — **324**
Prospect and Survival Theory — **326**
SocGen's Risk Management Reforms — **326**
Conclusions — **327**
Review Questions — **328**
Bibliography — **329**

Chapter 12
AIG: Two Roads to Ruin — 330
AIG: The Company — **331**
AIG-INV — **332**
AIGFP — **332**
Securitization: MBS, ABS, CDOs, and MBOs — **333**
AIGFP's Credit Derivative Portfolios — **335**
AIGFP's Two Arbitrage Portfolios — **335**
AIGFP's Two Regulatory Portfolios — **336**
Major Keys to AIGFP's Initial Success — **336**
AIG's Chief Regulators — **337**
What Went Wrong? — **338**
AIG's Credit Protection Exposures — **339**
The Sources of AIGFP's Liquidity Problems — **341**
Risk Measures — **343**
Securities Lending at AIG — **343**
AIG's Risky Securities Lending Operations — **346**
AIG's Bailout — **348**
What If AIG Was Allowed to Fail? — **353**
Regulatory Capital Risks — **353**
AIG's Insurance Affiliates' Risks — **353**
Contagion Risks — **354**
Criticisms of the AIG Bailout — **354**
Postscript — **355**
Conclusions — **356**
Review Questions — **358**
Risk Notepad 12.1: Primer on Credit Derivatives — 359
Hedging — **361**
Speculating or Locking in a Fixed Return — **362**
Glossary: 12.1: Abbreviations — 363
Bibliography — **363**

Chapter 13
JPMorgan Chase and the "London Whale" — 365
JPMorgan & Company, the CIO, and the SCP — **366**
JPM and JPM Bank — **366**
The CIO — **367**
The SCP — **368**
The SCP Timeline — **369**
Risk Notepad 13.1: What Are Risk-Weighted Assets? — 371
Risk Notepad 13.2: What Are the Basel Accords? — 372

What Went Wrong at the SCP? — 373
Mistake #1: Ignoring the SCP's Strategic Purpose — 373
Mistake #2: A Failed Trading Strategy — 374
Risk Notepad 13.3: What is the Difference between Investment-Grade and Non-Investment-Grade Securities? — 376
Short-Term Front Leg — 376
Long-Term Back Leg — 377
Gearing Problems — 377
The SCP Created Arbitrage Opportunities — 377
Results of the SCP's Two-Legged Strategy — 378
Mistake #3: Disregarding JPM Bank's Internal and External Risk Measures — 379
Risk Notepad 13.4: The SCP's Five Major Risk Measures — 380
Risk Notepad 13.5: Basel II.5 Accord's Four New Risk Measures — 381
Mistake #4: Manipulating JPM Bank's Risk Metrics — 382
Where Were the internal controllers? — 383
Where Were Federal Regulators? — 383
Data Manipulation — 383
Mistake #5: Publicly Misrepresenting the SCP's Financial Condition — 384
Risk Notepad 13.6: What Is the Volcker Rule? — 384
Dysfunctional Regulation — 385
Conclusions — 386
Aftermath — 387
Risk Notepad 13.7: Aftermath — 388
Review Questions — 389
Appendix 13.1: Abbreviations List — 389
Appendix 13.2: Alphabetical List of the Main "London Whale" Decision Makers and Players — 390
Appendix 13.3: Markit Group Limited — 391
Appendix 13.4: A Rosetta Stone for Understanding Markit Group's Credit Indices and Abbreviations — 391
Bibliography — 392

Chapter 14
Greensill Capital's Supply-Chain Debacle: A Fintech Mirage — 393
Section I: Lex Greensill, Greensill Capital (U.K.), and Greensill Bank — 394
Lex Greensill — 394
Greensill Capital Pty. Ltd., Greensill Capital (U.K.), and Greensill Bank — 396
A Deeper Look at Greensill Capital (UK) — 397
Greensill Capital (U.K.), the NHS, PEPS, and Earnd — 397
Greensill Capital (U.K.) and British Government Coronavirus Loan Support — 399

Deterioration of Greensill Capital (U.K.)'s Loan Portfolio — 399
Greensill Capital (U.K.)'s Electronic Platform and Use of Artificial Intelligence — 400
A Deeper Look at Greensill Bank — 402
Section II: Factoring, Reverse Factoring, and Future Factoring — 403
Main Attributes of Factoring, Reverse Factoring, and Future Factoring — 403
Accounts Receivable Factoring (Accounts Receivable Financing) — 404
Risk Notepad 14.1: A Pre-Factoring Check List — 405
Reverse Factoring (Supply-Chain Financing) — 407
Risk Notepad 14.2: Hiding Debt Using Supply-Chain Financing — 408
Future Factoring ("Future Accounts Receivable Financing") — 410
Section III: Securitization, Special Purpose Vehicles, and Trade Credit Insurance — 411
Risk Notepad 14.3: Special Purpose Vehicles (SPVs) — 415
Risk Notepad 14.4: Insuring Greensill's Securitized Invoices — 415
Section IV: Greensill Capital's Spiderweb of Financial Interconnections — 416
Risk Notepad 14.5: Ponzi Schemes — 417
Primary Sources of Greensill Capital's Funds — 417
Major Shareholders — 417
Wealthy Private Investors — 417
General Atlantic — 419
SoftBank Group Corporation — 419
Major Investors in Greensill SPV's Invoices — 420
SoftBank Group Corporation — 420
Global Asset Management Holding AG (GAM) — 421
Credit Suisse (CS) — 422
Risk Notepad 14.6: Credit Suisse and Greensill Capital: An Independent Review — 423
Greensill Bank — 424
Primary Uses of Greensill Capital's Funds — 426
General Atlantic — 426
SoftBank — 427
GFG Alliance (GFG) — 427
Bluestone Coal Corporation — 429
Greensill Bank — 430
Section V: Greensill Capital's Use of Future Factoring and Maturity Transformation — 430
Future Factoring — 430
Maturity Transformation — 431
Section VI: Political Influence and the Role It Played in Sculpting Greensill Capital — 433

David Cameron: British Prime Minister (2010–16) — 433
Julie Bishop: Australian Minister for Foreign Affairs (2013–18) — 434
David Blunkett: British Home Secretary (2015–21) — 435
Section VII: Why Did It Take So Long to Spot Greensill Capital's Lending Risks? — 435
Section VIII: Three Macroeconomic Events Propelling Greensill Capital's Rise and Fall — 437
The Great Recession — 437
European Sovereign Debt Crisis — 439
COVID-19 Pandemic — 439
How These Macroeconomic Events Affected Greensill Capital — 441
Section IX: Conclusions — 441
Postscript — 444
Review Questions — 444
Appendix 1: Guide to the Abbreviations Used in This Chapter — 446
Bibliography — 447

Chapter 15
Archegos Capital Management: A Total Return Swap Catastrophe — 450
Section I: The Downfall of Archegos Capital Management — 451
Risk Notepad 15.1: What Are Prime Brokers? — 452
Risk Notepad 15.2: What Is a Family Office? — 453
Total Return Swaps — 454
Risk Notepad 15.3: Key Terms in a Total Return Swap — 455
A Basic TRS Example — 456
TRS Cash Flows — 457
Year 0—Contract Initiation — 457
Year 1 — 458
Year 2 — 458
Year 3 — 459
Risk Notepad 15.4: What Is Margin? — 459
Hedging TRS Transactions — 460
Sung Kook ("Bill") Hwang, Tiger Asia, and Tiger Asia Management — 461
Hong Kong Securities and Futures Commission Investigation — 462
Investigations by the U.S.–SEC and U.S. Attorney's Office for the District of New Jersey — 464
Archegos Capital Management — 466
Risk Notepad 15.5: What Is Centralize Clearing and Why Is It Important? — 467
Risk Notepad 15.6: What Is the Paradox of Leverage? — 470
Risk Notepad 15.7: What Is the Paradox of Diversification? — 471
Bill Hwang's Trial — 472

The Black Art of Market Manipulation — **473**
Market Manipulation: A Case Study Involving GSX Techedu — **474**
Archegos: Struggling to Survive — **476**
Why Did It Take So Long to Spot Archegos' Excessive Positions? — **478**
Conclusions — **479**
Review Questions — **480**
Section II: The Anatomy of a Financial Disaster: A Deep Dive into Credit Suisse's Blunders with Archegos — **481**
Archegos' Relationship with Credit Suisse: 2019–23 — **482**
Risk Notepad 15.8: CS's Lines of Defense against Risk — 483
Two Requests to Reduce Margins — **484**
Static versus Dynamic Margining — **485**
Risk Notepad 15.9: Static versus Dynamic Margining: A Numerical Example — 487
Risk Notepad 15.10: CS's Major Risk Measures — 488
CS's Reaction to Archegos' Violations — **490**
August 2020 to December 2020 — **490**
January 2021 to March 2021 — **491**
