

Contents

Part One: Introduction

Chapter 1: The History of Geology in Turkey	1
Chapter 2: The Geological Literature of Turkey	3

Part Two: Historical Geology

Chapter 3: Crystalline Basement Rocks	5
Istranca Massif	5
Menderes Massif	7
Kirsehir Massif	9
Bitlis Massif	10
Kaz Dag Massif	11
Ulu Dag Massif	11
Alanya-Anamur Massif	12
Summary	12
Chapter 4: Infracambrian and Cambrian	13
The Infracambrian and Cambrian in Southwest and South Anatolia	13
The Infracambrian and Cambrian in Southeast Anatolia	14
Summary	14
Chapter 5: Ordovician	15
The Ordovician of Kocaeli	15
The Ordovician in the Remainder of Northwest Anatolia	16
The Ordovician in West Anatolia	17
The Ordovician in Southwest and South Anatolia	17
The Ordovician in Southeast Anatolia	17
Summary	17
Chapter 6: Silurian	18
The Silurian of Kocaeli	19
The Silurian in the Remainder of Northwest Anatolia	19
The Silurian of West Anatolia	20
The Silurian of Southwest and South Anatolia	20
The Silurian in Southeast Anatolia	20
Summary	20
Chapter 7: Caledonian Tectogenesis	21
The Caledonian Tectogenesis in Northwest Anatolia	22
The Calodonian Tectogenesis in South and Southeast Anatolia	22
Summary	22
Chapter 8: Devonian	23
The Devonian at Istanbul and on Kocaeli	23
The Devonian in the Remainder of Northwest Anatolia	24
The Devonian in West Anatolia	24
The Devonian in Middle, Southwest, and South Anatolia	24
The Devonian in Southeast Anatolia	25
The Devonian in East Anatolia	25
Summary	25
Chapter 9: Carboniferous	27
The Carboniferous of Istanbul and Kocaeli	27
The Carboniferous of Zonguldak-Amasra-Azdavay	28
The Carboniferous in West Anatolia	29
The Carboniferous in Middle Anatolia	29
The Carboniferous in Southwest and South Anatolia	30
The Carboniferous in Southeast Anatolia	30
The Carboniferous in East Anatolia	30
Summary	30
Chapter 10: Permian	32
The Permian in North Anatolia	33
The Permian in Middle Anatolia	33
The Permian in South and Southeast Anatolia	34
Summary	34

Chapter 11:	Variscan Tectogenesis and Metamorphism	36
	The Variscan Tectogenesis in North Anatolia	36
	The Variscan Tectogenesis in Middle Anatolia	38
	The Variscan Tectogenesis in South and Southeast Anatolia	40
	Summary	40
Chapter 12:	Triassic	40
	The Triassic in West Anatolia	41
	The Triassic in Northwest Anatolia	42
	The Triassic in Middle Anatolia	42
	The Triassic in South Anatolia	42
	Western Taurus	42
	Eastern Taurus and Antitaurus	43
	The Triassic in Southeast Anatolia	43
	Summary	43
Chapter 13:	Jurassic	45
	The Jurassic in Northeast Anatolia and Thracia	45
	The Liassic and Dogger in Northeast Anatolia	45
	The Malm in Northeast Anatolia	46
	The Jurassic in Thracia	47
	The Jurassic in Middle Anatolia	48
	Shelf Regions	48
	Ophiolite Troughs	48
	The Jurassic in West and South Anatolia	49
	West Anatolian Coast	49
	Western Taurus	49
	Eastern Taurus	50
	The Jurassic in Southeast Anatolia	50
	Summary	50
Chapter 14:	Cretaceous	52
	The Cretaceous in Thracia	53
	The Cretaceous in North Anatolia	53
	The Cretaceous in Middle Anatolia	54
	Shelf Environments	54
	Ophiolite Troughs	55
	The Cretaceous in South Anatolia	57
	Western Taurus	57
	Eastern Taurus	57
	The Cretaceous in Southeast Anatolia	58
	Summary	59
Chapter 15:	Tertiary	61
	The Early Tertiary in Thracia	61
	The Paleocene and Eocene in North Anatolia	63
	The Paleocene and Eocene in Middle Anatolia	65
	The Paleocene and Eocene in South Anatolia	66
	Western Taurus	66
	Eastern Taurus	67
	The Paleocene and Eocene in Southeast Anatolia	67
	The Oligocene in Anatolia	68
	The Northern and Southern Coast	68
	Middle Anatolia	69
	The Neogene in Thracia and the Environments of the Straits	70
	The Neogene in North Anatolia	71
	The Neogene in Middle Anatolia	71
	Western Portion	72
	Eastern Portion	72
	The Neogene in South Anatolia	73
	Western Taurus	73
	Eastern Taurus	74
	The Neogene in Southeast Anatolia	74
	Summary	75
Chapter 16:	Quaternary	78
	The Quaternary on the Mainland	78
	The Early Pleistocene	78

	The Middle and Late Pleistocene	79
	The Holocene	81
	The Quaternary Volcanism	81
	The Quaternary along the Coasts of Turkey	82
	The Black Sea Coast	82
	The Straits	82
	The Aegean Sea Coast	83
	The Levantine Sea Coast	83
	Summary	83
Chapter 17:	Alpidic Tectogenesis and Metamorphism	84
	Alpidic Geosynclines	84
	Miogeosynclines	84
	Normal Eugeosynclines	84
	Ophiolite Eugeosynclines	84
	Alpidic Tectogenesis	87
	Early Alpidic Tectogeneses	87
	Middle Alpidic Tectogeneses	88
	Young Alpidic Tectogeneses	89
	Late Alpidic Tectogeneses	94
	Alpidic Regional Metamorphism	95
	Facies Series of the Barrow Type	95
	Lawsonite-Glaucophane Facies Series	96
Chapter 18:	Recent Crustal Movements	97
	Epigenetic Processes	97
	Earthquakes	97
Chapter 19:	Magmatism	101
	Magmatic Rocks and Mineral Deposits	101
	The Cryptozoic and Paleozoic	101
	The Mesozoic	102
	The Paleogene	103
	The Neogene-Quaternary	104
	Thermal Springs	105
	Summary	105
 <i>Part Three: The Geotectonic Position of Turkey</i>		
Chapter 20:	Seas Surrounding Turkey	108
	The Black Sea	108
	The Northern and Central Aegean Sea	109
	The Southern Aegean Sea and Levantine Sea	111
Chapter 21:	The Geotectonic Classification of Turkey	113
	The Geotectonic Classification in the Paleozoic	113
	Variscan Mountain Connections	114
	Alpidic Geotectonic Units	115
	Alpidic Mountain Connections	118
Chapter 22:	Some Geotectonic Problems of Turkey	119
	The Ophiolite Zones and Plate Tectonics	119
	The Ophiolite Zones as Rift Structures	122
	The Holocene Tectonic Stress Conditions	126
