|------------------------------------------------------------------------------------------------|-------|
| Preface .....                                                                                  | vii   |
| Introduction .....                                                                             | xiii  |
| Deterring the Drinking Driver .....                                                            | xiii  |
| The Research Designs .....                                                                     | xvii  |
| Overview of the Chapters .....                                                                 | xviii |
| Chapter 1 Drinking Drivers and the Criminal Justice System .....                               | 1     |
| Ways of Studying Drinking and Driving in the Context of the<br>Criminal Justice System .....   | 2     |
| Drinking and Driving as Crime .....                                                            | 6     |
| Who Is the Drinking Driver? .....                                                              | 11    |
| Summary .....                                                                                  | 20    |
| Chapter 2 A Model of the Deterrence Process .....                                              | 22    |
| Deterrence Theory and the Deterrence Doctrine .....                                            | 22    |
| Deterrence, Human Rationality, and Drinking and Driving .....                                  | 31    |
| Measuring Deterrence: Gibbs' "Fundamental Problem" .....                                       | 44    |
| Elaborating the Deterrence Model for Random Breath Testing .....                               | 47    |
| Elaboration of the Deterrence Model for the Study of Penalties<br>and Reconviction Rates ..... | 60    |
| Summary .....                                                                                  | 69    |
| Chapter 3 The Evidence for Deterrence .....                                                    | 71    |
| Perceptual Research .....                                                                      | 72    |
| General Deterrence of the Drinking Driver .....                                                | 82    |
| Studies of Penalties and Reconvictions .....                                                   | 94    |
| Summary .....                                                                                  | 104   |
| Chapter 4 Random Breath Testing in Australia .....                                             | 105   |
| Trends in Road Safety .....                                                                    | 106   |
| Alcohol Use and Drink-Driving in Australia .....                                               | 107   |
| Random Breath Testing .....                                                                    | 109   |
| RBT Boots and All: Tasmania and New South Wales .....                                          | 113   |
| Summary .....                                                                                  | 124   |

|                  |                                                                                                                                              |     |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter 5</b> | <b>The Random Breath Test Study: Research Questions and Method</b> .....                                                                     | 126 |
|                  | The Research Questions .....                                                                                                                 | 126 |
|                  | Method .....                                                                                                                                 | 129 |
|                  | Statistical Analysis .....                                                                                                                   | 143 |
| <b>Chapter 6</b> | <b>Results of the Random Breath Test Study</b> .....                                                                                         | 147 |
|                  | Descriptive Analysis of the April Data .....                                                                                                 | 148 |
|                  | The Effects of Police Testing: An Area-Level Analysis .....                                                                                  | 154 |
|                  | The Relationship Between Exposure to RBT and Perceptions of the Chances of Being Randomly Tested and Arrested for Drinking and Driving ..... | 160 |
|                  | Influences on Arrest Certainty: Towards a Parsimonious Model. Modifications to Travel and Drinking Behaviors in the April Survey .....       | 162 |
|                  | Reasons for Not Drinking and Driving: Fear Versus Conscience. The Longitudinal Study: February and April Compared .....                      | 167 |
|                  | Drink-Driving Between February and April .....                                                                                               | 178 |
|                  | Perceptions and Evaluations of Penalty Severity .....                                                                                        | 184 |
|                  | Summary of Main Results .....                                                                                                                | 192 |
|                  |                                                                                                                                              | 194 |
|                  |                                                                                                                                              | 196 |
| <b>Chapter 7</b> | <b>The Penalties Study: Research Questions and Method</b> ...                                                                                | 201 |
|                  | The Research Questions .....                                                                                                                 | 202 |
|                  | The Design of the Penalties Study .....                                                                                                      | 203 |
|                  | Relative and Perceived Severity of Penalty .....                                                                                             | 207 |
|                  | Environmental Factors .....                                                                                                                  | 213 |
|                  | A Typology of Convicted Offenders .....                                                                                                      | 214 |
| <b>Chapter 8</b> | <b>Results of the Penalties Study</b> .....                                                                                                  | 216 |
|                  | Marginal Specific Deterrence: Recidivism Rates and Relative Severity of Penalties .....                                                      | 216 |
|                  | A Typology of the Convicted Drinking Driver .....                                                                                            | 220 |
|                  | Implications of the Penalties Study for the Deterrence Model ...                                                                             | 229 |
| <b>Chapter 9</b> | <b>Implications of the Research</b> .....                                                                                                    | 233 |
