The Nature of the Problem	1
Strategies for Preventing Suicide	4
Reducing Access to Lethal Agents	8
The Research Plan	10
The Ethics of Preventing Suicide	11
Conclusions	12
<i>2. Detoxification of Domestic Gas</i>	15
Detoxification in England and Wales (Study 1)	16
Detoxification in Scotland and the Netherlands (Study 2)	26
Detoxification in the United States (Study 3)	33
Conclusions	35
<i>3. The Toxicity of Car Exhaust</i>	37
Car Exhaust Suicides in the United States (Study 4)	38
Comparison of the United States and Great Britain (Study 5)	39
Conclusions	46
<i>4. Firearm Availability and Suicide</i>	49
Suicide and Estimates of Gun Availability in the United States (Study 6)	51
A Further Attempt to Estimate Gun Availability (Study 7)	52
A Comparison of the United States and Australia (Study 8)	54
Gun Ownership in the United States and Suicide Rates from 1959 to 1984 (Study 9)	55
Conclusions	60

<i>5. Handgun Control Statutes</i>	63
Earlier Research on Gun Control Laws	63
Coding and Scaling the Gun Laws	64
Handgun Control and Deaths from Suicide (Study 10)	66
Characteristics of The Handgun Laws (Study 11)	67
Availability of Guns and Moral Opposition to Suicide (Study 12)	71
Conclusions	72
<i>6. Displacement Between Methods</i>	75
The Concept of Displacement	75
Evidence from the Present Studies	77
Availability of Drugs	79
Conclusions	81
<i>7. Explaining Choice of Method</i>	85
Availability and Accessibility	86
Suggestion and Symbolism	86
Personal Requirements and Cultural Norms	89
Choice Structuring Properties of Methods of Suicide	90
Perception of Different Methods (Study 13)	92
Reasons for Choice of Method (Study 14)	93
Conclusions	94
<i>8. Implications for Theory and Prevention</i>	97
A Decision Theory of Suicide	97
A Public Health Approach to Prevention	100
Suicide-Proofing the Environment	101
Reducing Acceptability and Suggestion	108
Conclusions	110
<i>References</i>	113
<i>Index</i>	123
