ADVANCES IN
BIOMEDICAL ALCOHOL RESEARCH
Proceedings of the 6th ISBRA Congress
Bristol, U.K.
21–26 June 1992

Edited by
P. V. TABERNER and A. A. BADAwy

Published as Supplement No. 2 (1993) to the
journal Alcohol and Alcoholism

PERGAMON PRESS
Oxford • New York
Seoul • Tokyo
CONTENTS

Preface vii

INVITED LECTURES

H. Kalant
Problems in the search for mechanisms of tolerance (Presidential Address) 1

C.J.P. Eriksson and T. Fukunaga
Human blood acetaldehyde (update 1992) 9

D. Goldman
The DRD2 dopamine receptor and the candidate gene approach in alcoholism 27

J.A.O. Besson
In vivo and in vitro tissue scanning studies in alcoholic brain disease 31

PART I

MOLECULAR BIOLOGY IN THE STUDY OF ALCOHOL

E.J. Devor
The search for biological/genetic markers of alcoholism 45

M.L. Shean and G. Duester
The role of alcohol dehydrogenase in retinoic acid homeostasis and fetal alcohol syndrome 51

E. Mezey, J.J. Potter and V.W. Yang
Hormonal regulation of the rat class I alcohol dehydrogenase gene 57

H. Weiner
Applications of molecular biology to study aldehyde dehydrogenase 63

ALCOHOL AND IMMUNOMODULATION

A.N. Taylor, S. Ben-Eliyahu, R. Yirmiya, M.-P. Chang, D.C. Norman and F. Chiappelli
Actions of alcohol on immunity and neoplasia in fetal alcohol exposed and adult rats 69

S.V. Pirozhkov, R.R. Watson and G.-J. Chen
Ethanol enhances immunosuppression induced by cocaine 75

BIOLOGICAL MARKERS OF PREDISPOSITION TO ALCOHOL ABUSE

J. Chick
Genetic markers of predisposition to alcoholism: the clinician’s view, and what he needs to know 85

K.F. Tipton, M.C. Harrington and N.P. Kennedy
Biochemical markers for the effects of ethanol 87
<table>
<thead>
<tr>
<th>CONTENTS</th>
</tr>
</thead>
</table>
| M.A. Schuckit  
Reaction to alcohol as a predictor of alcoholism |
| V. Hesselbrock, L. Bauer, S. O'Connor and R. Gillen  
Reduced P300 amplitude in relation to family history of alcoholism and antisocial personality disorder among young men at risk for alcoholism |
| BIOLOGICAL MARKERS OF PREVIOUS ALCOHOL CONSUMPTION |
| R.K. Fuller  
Overview: problems, pitfalls and opportunities in monitoring alcohol consumption |
| J. Weill and F. Schellenberg  
The mathematics of measurement: sensitivity, specificity and predictive value of available tests |
| C.S. Lieber, Y. Xin, J.M. Lasker and A.S. Rosman  
Comparison of new methods for measuring carbohydrate-deficient transferrin (CDT): application to a public health approach for the prevention of alcoholic cirrhosis |
| TREATMENT OF ALCOHOLISM: TOWARDS A STANDARDISATION OF RESEARCH METHODS |
| I. Pelc  
The Plinius Major Society |
| J. Chick, A. Badawy and S. Borg  
Identification of excessive drinking and alcohol problems |
| O.M. Lesch, J. Ades, A. Badawy, I. Pelc and H. Sasz  
Alcohol dependence — classificatory considerations |
| J.A. Walburg, E.C. Vermeulen, J.D. Chick, N. Moore and F. Poldrugo  
Towards a multi-functional diagnostic and evaluation instrument for international comparative research into the quality of the treatment of alcohol problems |
| P. Verbanck, J. Barrias, J. Besson and S. Borg  
Pharmacological approach of the treatment of drinking problems: a critical overview |
| J. Besson, J. Barrias, S. Borg and P. Verbanck  
Treatment evaluation of alcoholism: non pharmacological interventions |
| F. Poldrugo, J.D. Chick, N. Moore and J.A. Walburg  
Mortality studies in the long-term evaluation of treatment of alcoholics |
| Ph. Lehert  
Review and discussion of statistical analysis of controlled clinical trials in alcoholism |
| I. Pelc and H. Chmiel  
Methodological aspects of assessment and treatment in alcoholism |
| HEPATIC ENCEPHALOPATHIES |
| J.E. Maddison, W.E.J. Watson and G.A.R. Johnston  
Glutamatergic neurotransmission in hepatic encephalopathy |
| E.A. Jones, C. Yurdaydin and A.S. Basile  
The role of endogenous benzodiazepines in hepatic encephalopathy: animal studies |
| J. Lavoie and R.F. Butterworth  
"Peripheral-type" (mitochondrial) benzodiazepine receptors in hepatic encephalopathy |
CONTENTS

K.D. Mullen, H.S. Conjeevaram and K. Kaminsky-Russ
Studies of "endogenous" benzodiazepine in human hepatic encephalopathy 187

R. O'Carroll
Neuropsychological and neuroimaging aspects of latent hepatic encephalopathy (LHE) 191

FOETAL ALCOHOL SYNDROME

J.R. West
Acute and long-term changes in the cerebellum following developmental exposure to ethanol 199

C. Guerri, R. Saez, M. Portoles and J. Renau-Piqueras
Derangement of astrogliogenesis as a possible mechanism involved in alcohol-induced alterations of central nervous system development 203

A.P. Streissguth
Fetal alcohol syndrome in older patients 209

ROLE OF SEROTONIN IN ALCOHOL DEPENDENCE

P. Compagnon, D. Ernouf, G. Narcisse and M. Daoust
Serotonin in animal models of alcoholism 215

C.A. Naranjo and K.E. Bremner
Clinical pharmacology of serotonin-altering medications for decreasing alcohol consumption 221

A.A.-B. Badawy, C.J. Morgan and R. Thomas
Tryptophan and 5-hydroxytryptamine metabolism in alcoholism 231

D.E. Comings
Serotonin and the biochemical genetics of alcoholism: lessons from studies of attention deficit hyperactivity disorder (ADHD) and Tourette syndrome 237

RELEVANCE OF NUTRITION IN STUDIES OF ALCOHOL-RELATED DISEASES*

*The full text for these abstracts was published in Alcohol and Alcoholism, Vol. 28, No. 1, pp. 55-126 (1993).

M. Salaspuro
Nutrient intake and nutritional status in alcoholics 245

Ethanol and diet-induced alterations in Kupffer cell function 247

R.C. Reitz
Dietary fatty acids and alcohol: effects on cellular membranes 249

A. Bjørneboe and G.-E. Aa. Bjørneboe
Antioxidant status and alcohol-related diseases 251

Modulation of cancer growth by vitamin E and alcohol 253

S.W. French
Nutrition in the pathogenesis of alcoholic liver disease 255

POTENTIAL PHARMACOLOGICAL TREATMENTS FOR ALCOHOL DEPENDENCE AND WITHDRAWAL

P.V. Taberner
Pharmacological treatments for alcohol dependence and withdrawal — an historical perspective 259

CONTENTS

R.A. Gonzales and L.C. Roper
Ethanol effects on NMDA-stimulated levels of extracellular neurotransmitters by in vivo microdialysis 371

E.K. Michaelis, M.L. Michaelis, W.J. Freed and J. Foye
Glutamate receptor changes in brain synaptic membranes during chronic alcohol intake 377

THE ROLE OF CALCIUM CHANNELS IN ALCOHOL DEPENDENCE AND WITHDRAWAL

D. Mullikin-Kilpatrick and S.N. Treistman
Electrophysiological studies on calcium channels in naive and ethanol-treated PC12 cells 385

M.A. Whittington, J.D.C. Lambert and H.J. Little
Increases in synaptic activation of calcium current as a mechanism for generation of ethanol withdrawal seizures 391

The role of calcium homeostasis and calcium currents in ethanol actions on central mammalian neurons 395

S. Bergamaschi, S. Govoni, F. Battaini, M. Parenti and M. Trabucchi
Effect of ethanol exposure on voltage-dependent calcium channels in in vitro cellular models 403

ROLE OF ADENOSINE IN MEDIATING THE EFFECTS OF ETHANOL

F.J. Carmichael, H. Orrego and Y. Israel
Acetate-induced adenosine mediated effects of ethanol 411

L.E. Nagy
Effects of ethanol-induced changes in adenosine transport on cAMP production in rat hepatocytes 419

M.S. Dar
Brain adenosinergic modulation of acute ethanol-induced motor impairment 425

R.J. Williams, M.A. Veale and E. Kelly
Involvement of adenosine in ethanol-induced changes in G-protein expression in NG108-15 cells? 431

A.S. Gordon and I. Diamond
Adenosine mediates the effects of ethanol on the cAMP signal transduction system 437

CNS MECHANISMS OF ETHANOL REINFORCEMENT

K.A. Grant and G. Colombo
Pharmacological analysis of the mixed discriminative stimulus effects of ethanol 445

T.J. Phillips
Use of genetically distinct mouse populations to explore ethanol reinforcement 451

S. Liljequist and M. Karcz-Kubicha
Genetic aspects on the effects of ethanol and central stimulants on locomotor activity and brain dopamine metabolism in mice 457

W.J. McBride, J.M. Murphy, G.J. Gatto, A.D. Levy, K. Yoshimoto, L. Lumeng and T.-K. Li
CNS mechanisms of alcohol self-administration 463

H.H. Samson and C.W. Hodge
The role of the mesoaccumbens dopamine system in ethanol reinforcement: studies using the techniques of microinjection and voltammetry 469

BEHAVIOURAL ASSESSMENT OF ALCOHOL WITHDRAWAL

J.C. Crabbe and J.K. Belknap
Behavior genetic analyses of drug withdrawal 477
A. Zharkovsky and G. Cebers
Effect of Ro 15-4513 and nifedipine on the behaviour and potassium-evoked calcium uptake following withdrawal from chronic ethanol administration in rats 483

D.J. Knapp, J.A. Saiers and L.A. Pohorecky
Observations of novel behaviors as indices of ethanol withdrawal-induced anxiety 489

S.E. File, N. Andrews, M. Al-Farhan and P.Y. Wu
The role of 5-HT in the anxiogenic effects of acute ethanol withdrawal and in the long-lasting cognitive deficits 495

E.M. Joyce and T.W. Robbins
Memory deficits in Korsakoff and non-Korsakoff alcoholics following alcohol withdrawal and the relationship to length of abstinence 501
