Intelligence, Genes, and Success

Scientists Respond to *The Bell Curve*

Springer

CONTENTS

Preface *v*

PART I Overview *1*

Chapter 1 **Reexamining *The Bell Curve*** *3*
Stephen E. Fienburg and Daniel P. Resnick
The Bell Curve's Argument • The History of the Argument • Our Response to *The Bell Curve*

Chapter 2 **A Synopsis of *The Bell Curve*** *19*
Terry W. Belke
Introduction • The Emergence of a Cognitive Elite • Cognitive Classes and Social Behavior • The National Context • Living Together

PART II The Genetics–Intelligence Link *41*

Chapter 3 **Of Genes and IQ** *45*
Michael Daniels, Bernie Devlin, and Kathryn Roeder
Inheritance versus Heritability • Estimating the Heritability of IQ • Social Implications • Epilogue • Appendix: Model for Bayesian Meta-Analysis of IQ Studies

Chapter 4 **The Malleability of Intelligence Is Not Constrained by Heritability** *71*
Douglas Wahlsten
Heritability • Heritability and Plasticity • Plasticity of Intelligence • Heritability as Impediment

Chapter 5 **Racial and Ethnic Inequalities in Health: Environmental, Psychosocial, and Physiological Pathways** *89*
Burton Singer and Carol Ryff
Black/White Differences in Morbidity and Mortality • Racial/Ethnic Differences in Infectious Disease: The Case of Tuberculosis • A Life-History Approach to Health Outcomes:

The Wisconsin Longitudinal Study • Physiological Substrates: The Character of the Current Knowledge Base • Discussion

PART III Intelligence and the Measurement of IQ *123*

Chapter 6 **Theoretical and Technical Issues in Identifying a Factor of General Intelligence** *125*

John B. Carroll

Is There a *g*? A Brief History • Concrete Example of a Factorial Dataset • Exploratory Factor Analysis of the Sample Dataset • Confirmatory Factor Analysis of the Sample Dataset • Justifying a General Factor • Evidence from Selected Datasets • The Holzinger and Swineford Dataset • The Hakstian and Cattell Dataset • The Wothke et al. Dataset • Conclusions and Final Comment

Chapter 7 **The Concept and Utility of Intelligence** *157*

Earl Hunt

A Very Brief History of Intelligence Tests • *What Is* Intelligence? The Psychometric Evidence • The Revisionist Position: An Alternative Approach to Intelligence • Implications for Public Policy

PART IV Intelligence and Success: Reanalyses of Data from the NLSY *177*

Chapter 8 **Cognitive Ability, Wages, and Meritocracy** *179*

John Cawley, Karen Conneely, James Heckman, and Edward Vytlacil

Is Ability Unidimensional? • The Wage Premium for Ability • Conclusions

Chapter 9 **The Hidden Gender Restriction: The Need for Proper Controls When Testing for Racial Discrimination** *193*

Alexander Cavallo, Hazem El-Abbadi, and Randal Heeb

Earnings Analysis in *The Bell Curve* • Controlling for Gender: Testing Implied Restrictions • Detecting Discrimination • A Standard Wage Function • The Racial Wage Gap in the Standard Wage Function • Conclusions • Appendix

Chapter 10 **Does Staying in School Make You Smarter? The Effect of Education on IQ in *The Bell Curve*** *215*

Christopher Winship and Sanders Korenman

Methods and Data • Previous Research • Reanalysis of the Herrnstein–Murray Model • Conclusions

Chapter 11 **Cognitive Ability, Environmental Factors, and Crime: Predicting Frequent Criminal Activity** *235*

Lucinda A. Manolakes

Method • Variables • Logit Model: Interpretation • Logit Model: Evaluation • Conclusions

Chapter 12 **Social Statistics and Genuine Inquiry: Reflections on *The Bell Curve*** *257*

Clark Glymour

Varieties of Pseudo-Science • The Aims of Inquiry • Reliability and Social Theory • Algorithmic Social Science • Factor Analysis and *The Bell Curve* • Regression and *The Bell Curve* • Scientific Search • Conclusions

PART V *The Bell Curve* and Public Policy *281*

Chapter 13 **A "Head Start" in What Pursuit? IQ Versus Social Competence as the Objective of Early Intervention** *283*

Edward Zigler and Sally J. Styfco

The Nation Declares War on Poverty • The Environmental Mystique • Evaluations of Cognitive Benefits • The Broader Picture • Attempts to Measure Social Competence • Improving Programs for At-Risk Children

Chapter 14 **Is There a Cognitive Elite in America?** *315*

Nicholas Lemann

The Evil Elite • Origin of Species • Who Is Really Elite?

Chapter 15 **Science, Public Policy, and *The Bell Curve*** *327*

Daniel P. Resnick and Stephen E. Fienberg

Science: The Genetics–Intelligence Link • Science: Intelligence and the Measurement of IQ • Science: Analyzing the Outcomes Data • Genetics, Race, and IQ • Public Policy • Conclusions
