# TABLE OF CONTENTS

LIST OF TABLES ........................................................................................................ viii
PREFACE .................................................................................................................. ix
CHAPTER 1 INTRODUCTION ...................................................................................... 1
  1.1 What is urban sprawl? ...................................................................................... 1
  1.2 Consequences of Urban Sprawl .................................................................... 3
    1.2.1 Traffic Congestion .................................................................................. 4
    1.2.2 Loss of Open Space ............................................................................... 6
    1.2.3 Income-Level and Racial Segregation ................................................... 7
  1.3 What Causes Urban Sprawl? .......................................................................... 8
    1.3.1 Local Public Finance Model .................................................................. 8
    1.3.2 Urban Economic Theories on Urban Sprawl ......................................... 11
  1.4 Summary ........................................................................................................ 16
CHAPTER 2 SINGLE-MODE URBAN SPATIAL MODEL ................................................ 19
  2.1 Definitions and Assumptions ....................................................................... 19
  2.2 Demand Side of Housing Market .................................................................. 22
  2.3 Supply Side of Housing Market .................................................................... 26
  2.4 Overall Equilibrium of Urban Area .............................................................. 29
  2.5 Comparative Static Analysis of Single-Mode Urban Spatial Model ............ 31
    2.5.1 Effects of Change in Population ......................................................... 33
2.5.1.1 Effect of Population on Utility ......................................................... 33
2.5.1.2 Effect of Population on Urban Area Boundary .............................. 34
2.5.1.3 Effects of Population on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ............ 35
2.5.1.4 Effect of Population on the Tax-Share Variable ............................... 36

2.5.2 Effects of Change in Agricultural Land Rent .................................... 37
2.5.2.1 Effect of Agricultural Land Rent on Utility ................................... 37
2.5.2.2 Effect of Agricultural Land Rent on Urban Area Boundary ............... 37
2.5.2.3 Effects of Agricultural Land Rent on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ............. 39
2.5.2.4 Effect of Agricultural Land Rent on the Tax-Share Variable ............... 39

2.5.3 Effects of Change in Income ............................................................... 41
2.5.3.1 Effect of Income on Utility ............................................................ 41
2.5.3.2 Effect of Income on Urban Area Boundary ...................................... 41
2.5.3.3 Effects of Income on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ..................... 43
2.5.3.4 Effect of Income on the Tax-Share Variable ..................................... 45

2.5.4 Effects of Change in Commuting Cost ............................................... 46
2.5.4.1 Effect of Commuting Cost on Utility ............................................ 46
2.5.4.2 Effect of Commuting Cost on Urban Area Boundary ......................... 47
2.5.4.3 Effects of Commuting Cost on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density .................. 49
2.5.4.4 Effect of Commuting Cost on the Tax-Share Variable ....................... 51

2.5.5 Effects of Change in Private Cost Share ............................................. 52

3.2.3.3 Effects of Income on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density .......... 71

3.2.3.4 Effect of Income on the Tax-Share Variable ............................................. 71

3.2.4 Effects of Change in Mode 1’s Variable Commuting Cost ....................... 72

3.2.4.1 Effect of Mode 1’s Variable Commuting Cost on Utility ......................... 72

3.2.4.2 Effect of Mode 1’s Variable Commuting Cost on Urban Area Boundary ............................................................................................................................... 72

3.2.4.3 Effects of Mode 1’s Variable Commuting Cost on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ........................................... 75

3.2.4.4 Effect of Mode 1’s Variable Commuting Cost on the Tax-Share Variable .................................................. 76

3.2.5 Effects of Change in Mode 1’s Private Cost Share .................................... 78

3.2.5.1 Effect of Mode 1’s Private Cost Share on Utility ........................................ 78

3.2.5.2 Effect of Mode 1’s Private Cost Share on Urban Area Boundary .......................................................................................................................... 78

3.2.5.3 Effects of Mode 1’s Private Cost Share on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ....................................................... 80

3.2.5.4 Effect of Mode 1’s Private Cost Share on the Tax-Share Variable .................. 81

3.2.6 Effects of Change in Mode 2’s Variable Commuting Cost ....................... 82

3.2.6.1 Effect of Mode 2’s Variable Commuting Cost on Utility ......................... 82

3.2.6.2 Effect of Mode 2’s Variable Commuting Cost on Urban Area Boundary .......................................................................................................................... 83

3.2.6.3 Effects of Mode 2’s Variable Commuting Cost on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density ........................................... 85
3.2.6.4 Effect of Mode 2's Variable Commuting Cost on the Tax-Share Variable ......................................................... 86

3.2.7 Effects of Change in Mode 2's Private Cost Share .................. 87
  3.2.7.1 Effect of Mode 2's Private Cost Share on Utility .................. 87
  3.2.7.2 Effect of Mode 2's Private Cost Share on Urban Area Boundary .......................................................... 88
  3.2.7.3 Effects of Mode 2's Private Cost Share on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density .......................................................... 90
  3.2.7.4 Effect of Mode 2's Private Cost Share on the Tax-Share Variable .......................................................... 91

3.2.8 Effects of Change in Mode 1's Fixed Cost ........................................ 92
  3.2.8.1 Effect of Mode 1's Fixed Cost on Utility ........................................ 92
  3.2.8.2 Effect of Mode 1's Fixed Cost on Urban Area Boundary ....... 93
  3.2.8.3 Effects of Mode 1's Fixed Cost on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density .......................................................... 94
  3.2.8.4 Effect of Mode 1's Fixed Cost on the Tax-Share Variable ......... 95

3.2.9 Effects of Change in Mode 2's Fixed Cost ........................................ 96
  3.2.9.1 Effect of Mode 2's Fixed Cost on Utility ........................................ 96
  3.2.9.2 Effect of Mode 2's Fixed Cost on Urban Area Boundary ....... 97
  3.2.9.3 Effects of Mode 2's Fixed Cost on Housing Price, Housing Consumption, Urban Land Rent, and Structural Density .......................................................... 98
  3.2.9.4 Effect of Mode 2's Fixed Cost on the Tax-Share Variable ......... 99

3.3 Summary ......................................................................................... 101

CHAPTER 4 EMPIRICAL ANALYSIS .......................................................... 103
4.1 Objectives and Hypotheses ..................................................................................104
4.2 Data Sources ......................................................................................................105
  4.2.1 United States Census 2000 ..........................................................................105
  4.2.2 Census of Agriculture ..................................................................................106
  4.2.3 Census of Government ................................................................................106
  4.2.4 National Transit Database ..........................................................................106
  4.2.5 Highway Statistics ......................................................................................107
  4.2.6 Insurance Information Institute ...................................................................107
4.3 Variables Used in the Analysis ..........................................................................107
  4.3.1 The Urban Boundary, \( \bar{x} \) ....................................................................108
  4.3.2 Total Number of Households in Urban Area, \( L \) ....................................109
  4.3.3 Mean Household Income, \( y \) ....................................................................109
  4.3.4 Agricultural Land Rent, \( r_a \) ....................................................................109
  4.3.5 Fixed Transit Cost, \( f_1 \) ............................................................................110
  4.3.6 Variable Transit Cost, \( t_1 \) ........................................................................111
  4.3.7 Transit Subsidy, \( \alpha_1 \) ................................................................................112
  4.3.8 Fixed Auto Cost, \( f_2 \) ................................................................................113
  4.3.9 Variable Auto Cost, \( t_2 \) ............................................................................113
  4.3.10 Highway Subsidy, \( \alpha_2 \) ........................................................................117
  4.3.11 Local Property Tax Rate, \( \theta \) .................................................................123
  4.3.12 Intergovernmental Grants, \( G \) .................................................................123
  4.3.13 Missing Observations ..............................................................................124
