

Contents

1	Motivation and Outline	1
1.1	Introduction	1
1.2	The Vision of Context-Awareness	2
1.3	Technological Requirements and Trends	3
1.4	Deficits of Mobile Devices and Context	4
1.4.1	Interface Limitations	4
1.4.2	Complexity of Applications	5
1.4.3	User Interruptions	5
1.5	Requirements of Context-Aware Applications	6
1.6	Goals and Organization of the Thesis	7
2	Background and Basic Concepts	9
2.1	Understanding Context and Context-Awareness	9
2.1.1	The Abstract Term Context	9
2.1.2	Context-Awareness	12
2.2	Mobile Distributed Systems	16
2.2.1	Structure of Mobile Distributed Systems	16
2.2.2	Characteristics of Mobile Distributed Systems	18
2.2.3	Conclusions	20
2.3	Case Study: A Context-Aware Meeting System	21
2.3.1	Overview of the Meeting System	21
2.3.2	Context-Aware Behavior of the Meeting System	22
2.3.3	Context in the Meeting System	23
2.4	Requirements of Context-Aware Applications	23
2.4.1	Decentralized Management of Context	24
2.4.2	Establishment of a Global Context Space	25
2.4.3	Protection of Private Information	26
2.4.4	Adequate Representation of Context	27
2.5	Summary	27
3	Modeling of Context	29
3.1	Existing Context Modeling Approaches	29
3.1.1	Textual Context Models	30
3.1.2	Object-oriented Context Models	32

3.1.3	Ontology-based Context Models	34
3.1.4	Summary and Discussion	36
3.2	Modeling of Context with the UML	38
3.2.1	Basic Idea of Representing Context	39
3.2.2	The Primitive Modeling Approach	39
3.2.3	Reviewing the Modeling Requirements	41
3.2.4	Conclusions	43
3.3	The Profiles Mechanism	44
3.3.1	Components of a Profile	44
3.3.2	Restrictions of the Profiles Mechanism	46
3.3.3	Conclusions	46
3.4	CMP – The Context Modeling Profile	47
3.4.1	Basic Assumptions	47
3.4.2	Modeling Types of Context Items	48
3.4.3	Modeling Relationships between Context Item Types	50
3.4.4	Modeling Derivation Rules	55
3.4.5	Modeling Contextual Situations	57
3.4.6	Well-formedness Rules of CMP	58
3.4.7	Review of CMP	63
3.5	The Context Modeling Process	64
3.5.1	Steps of the Context Modeling Process	64
3.5.2	Illustration of the Context Modeling Process	65
3.5.3	Review of the Modeling Process	68
3.6	Summary	70
4	Distribution of Context	73
4.1	The Basic Idea of Sharing Context	73
4.1.1	Context Model and Context	73
4.1.2	Global Context Space and Individual User Context	75
4.1.3	The Local Context Storage	77
4.1.4	Context Provision and Ownership of Context	79
4.1.5	Summary and Resulting Problems	80
4.2	Consistency and Consistency Models	81
4.2.1	Introduction	81
4.2.2	Existing Consistency Models	82
4.2.3	Conclusions	86
4.3	A Consistency Model for Context	86
4.3.1	Basic Idea of Consistency of Context	87
4.3.2	Modification of Context Information	88
4.3.3	Reading of Context Information	89
4.3.4	Conclusions	92
4.4	Distributing Context Information	93

4.4.1	Basic Concept of Context Distribution	93
4.4.2	Retrieval of Context Information	94
4.4.3	Modification of Context Information	99
4.4.4	Conclusions	108
4.5	Summary	109
5	Privacy of Context	111
5.1	Introduction	111
5.2	Existing Approaches of Protecting User Privacy	112
5.2.1	Control of Access to Information	113
5.2.2	Information-Usage Control	114
5.2.3	Lessons to be learned from Existing Approaches	116
5.3	Privacy and Context-Aware Applications	118
5.3.1	Requirements of Privacy Protection	118
5.3.2	Basic Idea of Privacy Protection	119
5.3.3	Access Control Mechanisms and Default Privacy Policy	120
5.3.4	Conclusions	123
5.4	Implementation of Access Control	123
5.4.1	Access Control Layer	124
5.4.2	Conclusions	130
5.5	Summary	132
6	Software Architecture and Implementation	135
6.1	The General Software Architecture	135
6.2	Transformation of the Context Model	139
6.2.1	Introduction	139
6.2.2	Transformation of Context Item Types	140
6.2.3	Transformation of Context Associations	145
6.2.4	Exemplary Model Transformation	147
6.2.5	Conclusion	152
6.3	Provision of Context	153
6.3.1	Pushing vs. Pulling of Context Information	153
6.3.2	Implementing Context Providers	155
6.3.3	Exemplary Context Providers	156
6.3.4	Conclusion	159
6.4	Adaptation of Applications	160
6.4.1	Realizing Active Adaptation	160
6.4.2	Implementing Contextual Situations	162
6.4.3	Conclusion	164
6.5	The Context-Aware Meeting System	165
6.5.1	Introduction	165
6.5.2	Provision of Context Information	166

6.5.3 Adaptive Behavior	168
6.5.4 Review	171
6.6 Summary	172
7 Conclusions	175
List of Acronyms	179
Bibliography	181
A CMP – The Context Modeling Profile	195
B The Context Model of the Context-Aware Meeting System	207
C The Context Framework	213
